Keynote and Invited Papers

Biomedical Informatics and Security Informatics Research in Digital Library
Hsinchun Chen................................................................. 1

ChinaGrid: Making Grid Computing a Reality
Hai Jin.................................................................................. 13

Content Management and Resources Integration: A Practice in Shanghai Digital Library
Qiang Xu.............................................................................. 25

Digital Libraries: Developing Countries, Universal Access, and Information for All
Ian H. Witten....................................................................... 35

Digital Libraries for Education: A Progress Report on the National Science Foundation’s (NSF) National Science, Technology, Engineering, and Mathematics Education Digital Library (NSDL) Program
Lee L. Zia.............................................................................. 45

Digital Libraries for Education: Case Studies
Edward A. Fox..................................................................... 51

Digital Preservation and Workflow Process
Su-Shing Chen..................................................................... 61

Global Memory Net: New Collaboration, New Activities and New Potentials
Ching-chih Chen.................................................................. 73

Gold at the End of the Digital Library Rainbow: Forecasting the Consequences of Truly Effective Digital Libraries
Michael A. Keller................................................................ 84

Information Retrieval Challenges for Digital Libraries
Edie Rasmussen................................................................... 95

Knowledge Service and Digital Library: A Roadmap for the Future
Xiaoxing Zhang.................................................................... 104
Ontological Service Layer for Digital Libraries: A Requirement and Architectural Analysis
Xiaolin Zhang

The Distributed Collaborative Virtual Reference System and Its Scheduler Mechanism for Chinese University Libraries
Min Huang, Haoming Lin, Yi Jin

The Role of Context for Information Mediation in Digital Libraries
Erich Neuhold, Claudia Niederée, Avaré Stewart, Ingo Frommholz, Bhaskar Mehta

Papers

Collaboration and Localization

A Policy-Based System for Institutional Web Archiving
Wasuke Hiiragi, Tetsuo Sakaguchi, Shigeo Sugimoto, Koichi Tabata

Building a Distributed Heterogeneous CALIS-ETD Digital Library
Yang Zhao, Airong Jiang

Building Digitized Collection: Theory and Practice
Chunrong Luo, Zhinong Zhou, Ying Zhang

Cataloging and Preservation Toolkit of a Chinese Mathematics Ancient Books Digital Library
Li Dong, Chunxiao Xing, Lizhu Zhou, Bei Zhang, Airong Jiang

Exploiting Extended Service-Oriented Architecture for Federated Digital Libraries
Hao Ding, Ingeborg Sølvberg

OAI Protocol for Chinese Culture Resources Metadata Harvesting
Qiaoying Zheng, Wei Zhu, Zongying Yang

Preserving Digital Media: Towards a Preservation Solution Evaluation Metric
Carl Rauch, Andreas Rauber

Technical Issues of Sharing and Integration of OPAC and E-Learning Resources
Qinghua Zheng, Jing Shao, Haifeng Dang, Huixian Bai
