# Table of Contents

## Paradigm Integration and Challenges

Information Acquisition Through an Integrated Paradigm:
Agent + Peer-to-Peer .................................................. 1

*Beng Chin Ooi, Wee Siong Ng, Kian-Lee Tan, AoYing Zhou*

Robustness Challenges in Peer-to-Peer Agent Systems ............ 13

*Onn Shehory*

## Trust

Bayesian Network Trust Model in Peer-to-Peer Networks ............ 23

*Yao Wang, Julita Vassileva*

Agent-Based Social Assessment of Shared Resources ............... 35

*Matthias Nickles, Gerhard Weiß*

A Passport-Like Service over an Agent-Based Peer-to-Peer Network . 41

*Shi-Cho Cha, Yuh-Jzer Joung, Yu-En Lue*

## Self-Organization

A Robust and Scalable Peer-to-Peer Gossiping Protocol ............ 47

*Spyros Voulgaris, Márk Jelasity, Maarten van Steen*

Group Formation Among Peer-to-Peer Agents:
Learning Group Characteristics ..................................... 59

*Elth Ogston, Benno Overeinder, Maarten van Steen, Frances Brazier*

A Pheromone-Based Coordination Mechanism Applied in Peer-to-Peer . 71

*Kurt Schelfhout, Tom Holvoet*

## Incentives

Incentive Mechanisms for Peer-to-Peer Systems .................... 77

*Bin Yu, Munindar P. Singh*

A Taxonomy of Incentive Patterns –
The Design Space of Incentives for Cooperation .................. 89

*Philipp Obreiter, Jens Nimis*
Search and Systems

P2P MetaData Search Layers .............................................. 101
  Sam Joseph

A Peer-to-Peer Information System for the Semantic Web .............. 113
  Sonia Bergamaschi, Francesco Guerra, Maurizio Vincini

G-Grid: A Class of Scalable and Self-Organizing Data Structures
for Multi-dimensional Querying and Content Routing
in P2P Networks ................................................................ 123
  Aris M. Ouksel, Gianluca Moro

Fuzzy Cost Modeling for Peer-to-Peer Systems .......................... 138
  Bo Ling, Wee Siong Ng, YanFeng Shu, AoYing Zhou

A P2P Approach to ClassLoading in Java ................................. 144
  Daryl Parker, David Cleary

Adaptive Applications

Multi-agent Interaction Technology for Peer-to-Peer Computing
in Electronic Trading Environments ...................................... 150
  Martin Purvis, Mariusz Nowostawski, Stephen Cranefield,
  Marcos Oliveira

Location-Based and Content-Based Information Access
in Mobile Peer-to-Peer Computing: The TOTA Approach ............ 162
  Marco Mamei, Franco Zambonelli

K-Trek: A Peer-to-Peer Approach to Distribute Knowledge
in Large Environments ..................................................... 174
  Paolo Busetta, Paolo Bouquet, Giordano Adami, Matteo Bonifacio,
  Francesco Palmieri

Mobile Agents

Improving Peer-to-Peer Resource Discovery
Using Mobile Agent Based Referrals ...................................... 186
  Prithviraj(Raj) Dasgupta

Mobile Agents for Locating Documents in Ad Hoc Networks ........ 198
  Khaled Nagi, Iman Elghandour, Birgitta König-Ries

Author Index ........................................................................ 205
Agents and Peer-to-Peer Computing
Second International Workshop, AP2PC 2003,
Melbourne, Australia, July 14, 2003, Revised and Invited Papers
Moro, G.; Sartori, C.; Singh, M.P. (Eds.)
2005, XII, 205 p., Softcover
ISBN: 978-3-540-24053-2
