# List of Contents

Structure and Replication of Hepatitis Delta Virus RNA . . . . .	1
<i>J. M. Taylor</i>	
HDV RNA Replication: Ancient Relic or Primer? . . . . .	25
<i>T. B. Macnaughton and M. M. C. Lai</i>	
HDV Ribozymes . . . . .	47
<i>M. D. Been</i>	
RNA Editing in Hepatitis Delta Virus . . . . .	67
<i>J. L. Casey</i>	
Post-translational Modification of Delta Antigen of Hepatitis D Virus . . . . .	91
<i>W.-H. Huang, C.-W. Chen, H.-L. Wu, and P.-J. Chen</i>	
The Role of the HBV Envelope Proteins in the HDV Replication Cycle . . . . .	113
<i>C. Sureau</i>	
Prenylation of HDAg and Antiviral Drug Development . . . . .	133
<i>J. S. Glenn</i>	
Hepatitis Delta Virus Genetic Variability: From Genotypes I, II, III to Eight Major Clades? . . . . .	151
<i>P. Dény</i>	
Functional and Clinical Significance of Hepatitis D Virus Genotype II Infection . . . . .	173
<i>J.-C. Wu</i>	
Immunology of HDV Infection . . . . .	187
<i>M. Fiedler and M. Roggendorf</i>	
The Woodchuck Model of HDV Infection . . . . .	211
<i>J. L. Casey and J. L. Gerin</i>	
<b>Subject Index</b> . . . . .	226
