# Contents

1. **Oxidative Stress** ....................................................... 1  
Barry B. Halliwell and Henrik E. Poulsen

2. **Tobacco Smoke Constituents Affecting Oxidative Stress** ............ 5  
Jan B. Wooten, Salem Chouchane, and Thomas E. McGrath

3. **Oxidative Modifications of Proteins and Lipids by Cigarette Smoke (CS). A Central Role for Unsaturated Aldehydes in CS-Mediated Airway Inflammation** .......................... 47  
Albert van der Vliet

4. **Cigarette Smoke-Induced Redox Signaling and Gene Expression in In Vitro and In Vivo Models** .................................................. 75  
Thomas Müller and Stephan Gebel

5. **Redox Effects of Cigarette Smoke in Lung Inflammation** ........... 113  
Irfan Rahma

6. **Oxidative Stress in the Pathogenesis of Chronic Obstructive Pulmonary Disease** ......................................................... 165  
Irfan Rahma

7. **Modulation of Cigarette Smoke Effects by Diet and Antioxidants** ................................................................. 199  
Marion Dietrich and Gladys Block

8. **Modulation of Cigarette Smoke Effects by Antioxidants: Oxidative Stress and Degenerative Diseases** ................................. 215  
Jari Kaikkonen and Jukka T. Salonen

9. **Smoking Depletes Vitamin C: Should Smokers Be Recommended to Take Supplements?** ..................................................... 237  
Jens Lykkesfeldt

10. **Experimental In Vitro Exposure Methods for Studying the Effects of Inhalable Compounds** .............................................. 261  
Michaela Aufderheide
