## Contents

### Section I The Role of Wetlands for Integrated Water Resources Management: Putting Theory into Practice

2 Restoring Lateral Connections Between Rivers and Floodplains: Lessons from Rehabilitation Projects  15
H. Coops, K. Tockner, C. Amoros, T. Hein, G. Quinn

Section III  Wetland Biogeochemistry

9  Hydrological Processes, Nutrient Flows and Patterns of Fens and Bogs  
   W. Bleuten, W. Borren, P.H. Glaser, T. Tsuchihara,  
   E.D. Lapshina, M. Mäkilä, D. Siegel, H. Joosten, M.J. Wassen

9.1  Introduction  
9.2  Appearance of Pristine Fens and Bogs  
9.2.1 General  
9.2.2 Climate and Mire Vegetation of the Western Siberian Taiga  
9.3  Hydrology of Bogs: Examples from Canada, United States and Western Siberia  
9.3.1 Aspects of Large-Scale Hydrology  
9.3.2 Local Scale Hydrology of Bogs  
9.3.3 Modeling a Western Siberian Bog  
9.4  Fens: Analysis of a Large Pristine Fen in the River Ob Valley  
9.4.1 General  
9.4.2 Vegetation, Nutrients and Productivity  
9.4.3 Hydrology and Modeling  
9.4.4 Hydro-Ecological Integration  
9.5  Discussion and Conclusion  
References

10  Ecological Aspects of Microbes and Microbial Communities Inhabiting the Rhizosphere of Wetland Plants  
   P.L.E. Bodelier, P. Frenzel, H. Drake, K. Küsel, T. Hurek,  
   B. Reinhold-Hurek, C. Lovell, P. Megonigal, B. Sorrell

10.1  Introduction  
10.2  The Microbial Habitat in the Wetland Rhizosphere  
10.2.1 Root Structure and Function  
10.2.2 Oxygen Distribution within Roots  
10.2.3 Oxygen Concentrations and Fluxes in the Rhizosphere
