Contents

1 Introduction .................................................. 1

2 Nonlinear Dynamics of Economic Cycles .................. 9
  2.1 Empirical Evidence of Nonlinearity and Chaos in
      Economic Data .................................................. 9
  2.2 Modeling Nonlinearity and Chaos in Economic
      Dynamics .......................................................... 10
  2.3 Van der Pol Model of Nonlinear Business Cycles:
      Kaldor’s Nonlinear Investment-Savings Functions .... 12
  2.4 Forced Van der Pol Model of Nonlinear Economic
      Cycles: Goodwin’s Nonlinear Accelerator-Multiplier
      with Lagged Investment Outlays ............................ 13
  2.5 Order and Chaos ............................................. 16
  2.6 Poincaré Map .................................................. 18
  2.7 Bifurcation Diagram and Periodic Window ............ 18
  2.8 Multistability and Basins of Attraction ............... 21
  2.9 Unstable Periodic Orbit and Chaotic Attractor ....... 23
  2.10 Concluding Comments ...................................... 26

3 Type-I Intermittency in Nonlinear Economic
      Cycles ......................................................... 27
  3.1 Introduction .................................................. 27
  3.2 Nonlinear Model of Economic Cycles .................. 30
  3.3 Economic Type-I Intermittency ............................ 31
  3.4 Concluding Comments ....................................... 36

4 Crisis-Induced Intermittency in Nonlinear Economic
      Cycles ........................................................... 39
  4.1 Introduction .................................................. 39
  4.2 Nonlinear Model of Economic Cycles .................. 41
### Contents

4.3 Economic Crisis-Induced Intermittency .................. 41  
4.4 Concluding Comments .................................. 48

5 Attractor Merging Crisis in Nonlinear Economic Cycles .................................................. 51  
5.1 Introduction ............................................. 51  
5.2 Nonlinear Model of Economic Cycles .................... 54  
5.3 Attractor Merging Crisis ................................. 55  
5.4 Concluding Comments ................................. 60

6 Chaotic Transients in Nonlinear Economic Cycles .... 61  
6.1 Introduction ........................................ 61  
6.2 Chaotic Saddle ........................................... 61  
6.3 Chaotic Transient ....................................... 63  
6.4 Unstable Structures in Type-I Intermittency ........... 68  
6.5 Attractor Merging Crisis .................................. 70  
6.6 Unstable Structures in Crisis-Induced Intermittency .... 72  
6.7 Concluding Comments ................................. 76

7 Conclusion .................................................. 77

List of Figures .............................................. 83

Bibliography .................................................. 91
Complex Systems Approach to Economic Dynamics
Chian, A.C.-L.
2007, X, 101 p., Softcover
ISBN: 978-3-540-39752-6
