The Role of Genotyping in Pharmacological Therapy .............................. 1
K. Lindpaintner

Pharmacogenetics and the Treatment of Cardiovascular Disease .......... 25
S.K. Tate, D.B. Goldstein

Genetic Polymorphisms and Cardiovascular Drug Metabolism ............. 39
A.R. Boobis, T. Shiga, R.J. Edwards

Genes That Modify Susceptibility to Atherosclerosis:
Targets for Drug Action ......................................................... 79
J.W. Knowles

Lipid-Lowering Responses Modified by Genetic Variation ................. 107
B.R. Winkelmann, M.M. Hoffmann, W. März

The Genetic Basis of Essential Hypertension and Its Implications
for Treatment ................................................................. 149
K.M. O’Shaughnessy, M.R. Wilkins

Genetic Predisposition to Cardiac Hypertrophy ............................ 177
A.J. Marian

Genetic Determinants of Susceptibility, Prognosis and Treatment
in Heart Failure .............................................................. 203
T. Stanton, J.M.C. Connell, J.J.V. McMurray

The Genetics of Cardiac Channelopathies: Implications for Therapeutics 223
D.M. Roden

Insulin Resistance and Cardiovascular Disease: New Insights from Genetics 243
A. Vidal-Puig, E.D. Abel

Genetic Disruption of Nitric Oxide Synthases and Cardiovascular Disease:
Lessons from a Candidate Gene .............................................. 281
P.L. Huang
Association of Thrombotic Disease with Genetic Polymorphism of Haemostatic Genes: Relevance to Pharmacogenetics ................. 311
   E.G.D. Tuddenham

The Influence of Genetic Factors on Leukocyte and Endothelial Cell Adhesion Molecules. ............................. 323

Genetic Regulation of Metalloproteinase Activity: Pathogenic and Therapeutic Implications ......................... 341
   A.M. Henney

Current Perspectives on Gene and Cell-Based Therapies for Myocardial Protection, Rescue and Repair ......................... 359
   L.G. Melo, A.S. Pachori, D. Kong, V.J. Dzau

Subject Index ..................................................................... 405
