Introduction

An Overview of RoboCup 2002 Fukuoka/Busan ................................. 1
  Minoru Asada and Gal A. Kaminka

Technical Papers

Constraint-Based Landmark Localization ....................................... 8
  Ashley W. Stroupe, Kevin Sikorski, and Tucker Balch

Improving Vision-Based Self-localization ..................................... 25
  Hans Utz, Alexander Neubeck, Gerd Mayer, and Gerhard Kraetzschmar

Evaluation of Self-localization Performance for a Local Vision Robot
in the Small Size League .............................................................. 41
  Daisuke Sekimori, Tomoya Usui, Yasuhiro Masutani,
  and Fumio Miyasakai

Fast Image Processing and Flexible Path Generation System
for RoboCup Small Size League ..................................................... 53
  Shinya Hibino, Yukiharu Kodama, Yasunori Nagasaka,
  Tomoichi Takahashi, Kazuhito Murakami, and Tadashi Naruse

A Modified Potential Fields Method for Robot Navigation
Applied to Dribbling in Robotic Soccer ......................................... 65
  Bruno D. Damas, Pedro U. Lima, and Luis M. Custódio

Using Online Learning to Analyze the Opponent’s Behavior ............... 78
  Ubbo Visser and Hans-Georg Weland

Hidden Markov Modeling of Multi-agent Systems
and Its Learning Method ............................................................... 94
  Itsuki Noda

Learning the Sequential Coordinated Behavior of Teams
from Observations ........................................................................ 111
  Gal A. Kaminka, Mehmet Fidanboylu, Allen Chang,
  and Manuela M. Veloso

Towards a Life-Long Learning Soccer Agent ................................... 126
  Alexander Kleiner, Markus Dietl, and Bernhard Nebel
Adaptive Synchronisation for a RoboCup Agent .......................... 135
  Jefferson D. Montgomery and Alan K. Mackworth

Team Formation for Reformation in Multiagent Domains
Like RoboCupRescue ............................................................ 150
  Ranjit Nair, Milind Tambe, and Stacy Marsella

MPADES: Middleware for Parallel Agent Discrete Event Simulation ...... 162
  Patrick Riley

Towards RoboCup without Color Labeling ................................ 179
  Robert Hanek, Thorsten Schmitt, Sebastian Buck, and Michael Beetz

Integration of Advice in an Action-Selection Architecture ............... 195
  Paul Carpenter, Patrick Riley, Manuela M. Veloso,
  and Gal A. Kaminka

The Role of Motion Dynamics in the Design, Control and Stability
of Bipedal and Quadrupedal Robots ........................................ 206
  Michael Hardt and Oskar von Stryk

Multiagent Competitions and Research:
Lessons from RoboCup and TAC ........................................... 224
  Peter Stone

RoboCupJunior: Learning with Educational Robotics .................... 238
  Elizabeth Sklar, Amy Eguchi, and Jeffrey Johnson

Posters

A Rescue Robot Control Architecture
Ensuring Safe Semi-autonomous Operation ................................. 254
  Andreas Birk and Holger Kenn

A Framework for Learning from Observation Using Primitives .......... 263
  Darrin C. Bentivegna and Christopher G. Atkeson

Robosoccer-RU Open Simulation League: Principles and Algorithms .... 271
  D.E. Okhotsimsky, V.E. Pavlovsky, A.N. Touganov, A.G. Plakhov,
  V.V. Pavlovsky, S.S. Stepanov, and A.Yu. Zaslavsky

An Interactive Software Environment for Gait Generation
and Control Design of Sony Legged Robots ......................... 279
  Dragos Golubovic and Huosheng Hu

Real-Time Randomized Path Planning for Robot Navigation ............ 288
  James Bruce and Manuela M. Veloso

Towards an Optimal Scoring Policy for Simulated Soccer Agents ....... 296
  Jelle Kok, Remco de Boer, Nikos Vlassis, and Frans C.A. Groen

League Reports

Simulation League – League Summary ........................................ 443
  Oliver Obst

RoboCup 2002 Small-Size League Review ................................. 453
  Brett Browning

Medium Size League: 2002 Assessment and Achievements ............ 460
  Andrea Bonarini

Sony Four Legged Robot League at RoboCup 2002 ....................... 469
  Masahiro Fujita

RoboCupRescue Simulation League ........................................... 477
  Tomoichi Takahashi

RoboCupRescue Robot League .................................................. 482
  Satoshi Tadokoro

Lessons Learned from Fukuoka 2002 Humanoid League ................ 485
  Thomas Christaller

RoboCupJunior 2002: The State of the League ............................. 489
  Elizabeth Sklar

Author Index ................................................................. 497
RoboCup 2002: Robot Soccer World Cup VI
