Preface

This volume contains the papers presented at the International Workshop on Mathematical Methods, Models and Architectures for Computer Network Security (MMM-ACNS 2003) held in St. Petersburg, Russia, during September 21–23, 2003. The workshop was organized by the St. Petersburg Institute for Informatics and Automation of the Russian Academy of Sciences (SPIIRAS) in cooperation with the Russian Foundation for Basic Research (RFBR), the US Air Force Research Laboratory/Information Directorate (AFRL/IF) and the Air Force Office of Scientific Research (AFOSR), the Office of Naval Research International Field Office (USA), and Binghamton University (SUNY, USA).

The first international workshop of this series, MMM-ACNS 2001, May 21–23, 2001, St. Petersburg, Russia, hosted by the St. Petersburg Institute for Informatics and Automation, demonstrated the keen interest of the international research community in the theoretical aspects of computer network and information security and encouraged the establishment of an on-going series of biennial workshops.

MMM-ACNS 2003 provided an international forum for sharing original research results and application experiences among specialists in fundamental and applied problems of computer network security. An important distinction of the workshop was its focus on mathematical aspects of information and computer network security and the role of mathematical issues in contemporary and future development of models of secure computing.

A total of 62 papers from 18 countries related to significant aspects of both the theory and the applications of computer-network and information security were submitted to MMM-ACNS 2003. Out of them 29 were selected for regular and 12 for short presentations. Five technical sessions were organized, namely: mathematical models for computer network security; methods, models, and systems for intrusion detection; methods and models for public key infrastructure, access control and authentication; mathematical basis and applied techniques of cryptography; and steganographic algorithms. The panel discussion was devoted to the challenging problems in intrusion detection. The MMM-ACNS 2003 program was enriched by six distinguished invited speakers: Dr. Shiu-Kai Chin, Dr. Nasir Memon, Dr. Ravi Sandhu, Dr. Anatol Slissenko, Dr. Salvatore Stolfo, and Dr. Shambhu Upadhyaya.

The success of the workshop was assured by team efforts of sponsors, organizers, reviewers, and participants. We would like to acknowledge the contribution of the individual program committee members and thank the paper reviewers. Our sincere gratitude goes to the participants of the workshop and all the authors of the submitted papers.

We are grateful to our sponsors: the European Office of Aerospace Research and Development (EOARD), the European Office of Naval Research International Field Office (ONRIFO), the Russian Foundation for Basic Research
(RFBR), and the Ministry of Industry, Technical Policy, and Science of the Russian Federation for their generous support.

We wish to express our thanks to Alfred Hofmann of Springer-Verlag for his help and cooperation.

September 2003

Vladimir Gorodetsky
Leonard Popyack
Victor Skormin
MMM-ACNS 2003 Workshop Committee

General Chairmen:
Rafael M. Yusupov St. Petersburg Institute for Informatics and Automation, Russia
Robert L. Herklotz Air Force Office of Scientific Research, USA

Program Committee Co-chairmen:
Vladimir Gorodetsky St. Petersburg Institute for Informatics and Automation, Russia
Leonard Popyack Air Force Research Laboratory/IF, USA
Victor Skormin Watson School of Engineering, Binghamton University, USA
International Program Committee

Kurt Bauknecht  University of Zurich, Department of Information Technology, Switzerland
John Bigham  Department of Electronic Engineering, Queen Mary, University of London, UK
Wes Carter  Department of Electronic Engineering, Queen Mary, University of London, UK
Riccardo Focardi  University of Venice, Italy
Dipankar Dasgupta  University of Memphis, USA
Alexey Galatenko  Moscow State University, Russia
Dimitris Gritzalis  Athens University of Economics and Business, Greece
Alexander Grusho  Russian State University for Humanity, Russia
Yuri Karpov  St. Petersburg Polytechnical University, Russia
Valery Korzhik  Specialized Center of Program Systems “SPECTR”, Russia
Igor Kotenko  St. Petersburg Institute for Informatics and Automation, Russia
Catherine Meadows  Naval Research Laboratory, USA
Bret Michael  Naval Postgraduate School, USA
Ann Miller  University of Missouri – Rolla, USA
Nikolay Moldovyan  Specialized Center of Program Systems “SPECTR”, Russia
Ravi Sandhu  George Mason University and NSD Security, USA
Michael Smirnov  Fraunhofer-Gesellschaft Institute FOKUS, Germany
Igor Sokolov  Institute for Informatics Problems, Russia
Salvatore J. Stolfo  Department of Computer Science, Columbia University, USA
Douglas H. Summerville  Binghamton University, USA
Alfonso Valdes  SRI International, USA
Vijay Varadharajan  Macquarie University, Australia
Nikoly Zagoruiko  Sobolev Institute of Mathematics, Siberian Branch of RAS, Russia
Peter Zegzhda  St. Petersburg Polytechnical University, Russia
Reviewers

Kurt Bauknecht  University of Zurich, Department of Information Technology, Switzerland
John Bigham  Department of Electronic Engineering, Queen Mary, University of London, UK
David Bonyuet  Delta Search Labs, USA
Wes Carter  Department of Electronic Engineering, Queen Mary, University of London, UK
Sergei Fedorenko  St. Petersburg Polytechnical University, Russia
Riccardo Focardi  University of Venice, Italy
Jessica Fridrich  Binghamton University, USA
Dipankar Dasgupta  University of Memphis, USA
Vladimir Gorodetsky  St. Petersburg Institute for Informatics and Automation, Russia
Dimitris Gritzalis  Athens University of Economics and Business, Greece
Alexander Grusho  Russian State University for Humanity, Russia
Boris Izotov  Specialized Center of Program Systems “SPECTR”, Russia
Maxim Kalinin  St. Petersburg Polytechnical University, Russia
Yuri Karpov  St. Petersburg Polytechnical University, Russia
Valery Korzhik (Russia)  Specialized Center of Program Systems “SPECTR”
Igor Kotenko  St. Petersburg Institute for Informatics and Automation, Russia
Catherine Meadows  Naval Research Laboratory, USA
Bret Michael  Naval Postgraduate School, USA
Ann Miller  University of Missouri – Rolla, USA
Nikolay Moldovyan  Specialized Center of Program Systems “SPECTR”, Russia
Alexander Rostovtsev  St. Petersburg Polytechnical University, Russia
Ravi Sandhu  George Mason University and NSD Security, USA
Nicolas Sklavos  Electrical and Computer Engineering Department, University of Patras, Greece
Victor Skormin  Watson School of Engineering, Binghamton University, USA
Anatol Slissenko  University Paris-12, France
Michael Smirnov  Fraunhofer-Gesellschaft Institute FOKUS, Germany
Igor Sokolov  Institute for Informatics Problems, Russia
Douglas H. Summerville  Binghamton University, SUNY, USA
Alfonso Valdes  SRI International, USA
