Preface

This volume constitutes the proceedings of the Second Symposium on Programs as Data Objects (PADO-II), held at the University of Aarhus, Denmark, on May 21–23, 2001. PADO-II was colocated with the Third International Workshop on Implicit Computational Complexity (ICC 2001) and the Seventeenth Conference on the Mathematical Foundations of Programming Semantics (MFPS XVII).

The first PADO was organized by Harald Ganzinger and Neil Jones, in 1985. This second symposium took place at the occasion of Neil Jones's 60th birthday, and on his wish, we organized it as a research event. The call for papers was open and elicited 30 submissions from 12 countries. Overall, 145 reviews were collected, and based on these, the program committee selected 14 papers for presentation. With one exception, each submission received at least 4 reviews. Where relevant, a transcript of the (electronic) PC meeting was also enclosed.

PADO-II was sponsored by BRICS\(^1\) and the Esprit Working Group APPSEM, and organized in cooperation with the European Association for Programming Languages and Systems (EAPLS) and the Special Interest Group on Programming Languages of the Association for Computing Machinery (ACM SIGPLAN). We gratefully acknowledge their support.

We also extend our thanks to the PC members and external reviewers for their time and thoughts, Janne Kroun Christensen and Karen Kjær Møller for their organizational help, the <bigwig> project for hosting our submission web site, and Daniel Damian for setting it up and maintaining it.

February 2001

Olivier Danvy and Andrzej Filinski

VI Conference Organization

Conference Co-chairs

Oliver Danvy, BRICS, University of Aarhus, Denmark
Andrzej Filinski, BRICS, University of Aarhus, Denmark

Program Committee

Torben Amtoft Boston University, USA
Charles Consel LaBRI / ENSERB, France
Catarina Coquand Chalmers University, Sweden
Radhia Cousot Ecole Polytechnique, France
Olivier Danvy University of Aarhus, Denmark
Andrzej Filinski University of Aarhus, Denmark
Yoshihiko Futamura Waseda University, Japan
Fritz Henglein IT University, Denmark
Peter Lee Carnegie Mellon University, USA
Y. Annie Liu SUNY Stony Brook, USA
Dave MacQueen Bell Labs, USA
James S. Royer Syracuse University, USA
Morten Heine Sørensen IT Practice, Denmark
Carolyn L. Talcott Stanford University, USA
Jon L White CommerceOne, Inc., USA
