Preface

In this Web-age, international collaboration and exchange are even more important and interesting than before for information management research and development. In June 2000, the first WAIM conference was held in Shanghai, China, to promote such collaboration and exchange. It was a success and attracted more than 100 participants from 16 countries. WAIM 2001 continued this tradition, providing researchers and practitioners with a forum to share their experiences in tackling problems in managing and using data, information, and knowledge in the age of the Internet and Web and to identify new issues and directions for research and development work in the new millennium.

Like the inaugural conference in the year 2000, WAIM 2001 attracted submissions from researchers of many countries and regions, including Australia, Austria, Canada, China, France, Germany, Greece, Hong Kong, India, Italy, Japan, Jordan, Korea, Malaysia, Norway, Poland, Singapore, Spain, Switzerland, Taiwan, The Netherlands, UK, and USA. Twenty-one regular research papers and twelve short research papers, contained in these proceedings, were presented at the conference. These papers cover a wide range of topics, including multimedia databases, information retrieval, data warehousing, information management in e-commerce, semistructured data management, data mining, data integration and filtering, and workflow. Also presented at the conference, and contained in these proceedings, were four research experience papers. This reflects our efforts to extend the conference to also become a forum for promoting and exchanging good information management practices.

The preparation of a successful conference requires a lot of efforts from many people. In addition to the standard program committee work like reviewing and selecting papers, efforts are required that range from publicity to conference logistics. We appreciate the work of the people in our WAIM 2001 organization committees. We would also like to thank Northwestern Polytechnic University, China, for organizing the conference, and to thank Mr. Like Gao for maintaining the conference paper submission and reviewing website.

July 2001

X. Sean Wang, Ge Yu
WAIM 2001 Program Co-Chairs
Organization

General Chair:
Deyuan Gao  Northwestern Polytechnic University, China

Conference Chairs:
Hongjun Lu  Hong Kong University of Science & Technology, China
Akifumi Makinouchi  Kyushu University, Japan

Program Chairs:
X. Sean Wang  George Mason University, USA
Ge Yu  Northeastern University, China

Tutorial & Panel Chair:
Min Wang  IBM T. J. Watson Research Center, USA

Publicity Chair:
Qiang Zhu  The University of Michigan, USA

Organization Chairs:
Zhanhui Li  Northwestern Polytechnic University, China
Kaiming Shi  Northwestern Polytechnic University, China

WAIM Steering Committee:
Jianzhong Li  Harbing Institute of Technology, China
Hongjun Lu (Chair)  Hong Kong University of Science & Technology, China
Baile Shi  Fudan University, China
Jianwen Su  University of California, Santa Barbara, USA
Shan Wang  Renmin University, China
X. Sean Wang  George Mason University, USA
Ge Yu  Northeastern University, China
Aoying Zhou  Fudan University, China

The Second International Conference on Web-Age Information Management was organized by
Northwestern Polytechnic University, China

in cooperation with
China Computer Federation, Database Society

and sponsored by
Fujitsu Limited, Japan,
TechnoProject Limited, Japan, and
National Science Foundation, China
