The Seventh Workshop on Open Hypermedia Systems (OHS7)

Program Committee Members of OHS7 .................................. 2

List of Presentations at OHS7 ............................................. 2

List of Participants at OHS7 .............................................. 3

Introduction to OHS7 ....................................................... 4

  Sigried Reich (Salzburg Research, Austria)

Using Open Hypermedia to Support Information Integration .......... 8

  Kenneth M. Anderson and Susanne A. Sherba (University of Colorado, Boulder, US)

Applying Collaborative Open Hypermedia Concepts to
Extended Enterprise Engineering and Operation .......................... 17

  Jörg M. Haake (GMD-IPSI, Germany)

Meme Media and Meme Pools for Re-editing and
Redistributing Intellectual Assets ........................................ 28

  Yuzuru Tanaka, Jun Fujima, and Tsuyoshi Sugibuchi
  (Hokkaido University, Sapporo, Japan)

The Pipeline of Enrichment: Supporting Link Creation for
Continuous Media .......................................................... 47

  Richard Beales, Don Cruickshank, David DeRoure, Nick Gibbins,
  Ben Joby, Danisus T. Michaelides, and Kevin R. Page (University of Southampton, UK)

Auld Leaky: A Contextual Open Hypermedia Link Server ............. 59

  Daneus T. Michaelides, David E. Millard, Mark J. Weal, and
  David DeRoure (University of Southampton, UK)

FOHM+RTSP: Applying Open Hypermedia and Temporal Linking to
Audio Streams .............................................................. 71

  Neil Ridgway and David DeRoure (University of Southampton, UK)
VIII Table of Contents

Development Tools in Component-Based Structural Computing Environments ......................... 82
    Uffe Kock Wiil (Aalborg University Esbjerg, Denmark)

Peer-Reviewed, Publishable Hypertexts: A First Look ........................................ 94
    Peter J. Nürnberg and David L. Hicks (Aalborg University Esbjerg, Denmark)

Because I Seek an Image, Not a Book .................................................. 104
    Moritz Neumüller (Wirtschaftsuniversität Wien, Austria)

The Third Workshop on Structural Computing (SC3)

Program Committee Members of SC3 .................................................... 116

List of Presentations at SC3 ............................................................... 116

List of Participants at SC3 ................................................................. 117

Introduction to SC3 ................................................................. 118
    Manolis M. Tzagarakis (CTI, Patras, Greece)

Writing the Holes; “Structural” Reflections of a Visual Artist ...................... 120
    Saul Shapiro (Denmark)

Broadening Structural Computing towards Hypermedia Development ........... 131
    Maria Kyriakopoulou, Dimitris Avramidis, Michalis Vaitis,
    Manolis M. Tzagarakis, and Dimitris Christodoulakis (CTI, Greece)

A Graphical User Interface Integrating Features from Different Hypertext Domains .................. 141
    Weigang Wang and Alejandro Fernández (FhG-ISPI, Germany)

Using Structural Computing to Support Information Integration ............. 151
    Kenneth M. Anderson and Susanne A. Sherba (University of Colorado,
    Boulder, US)

Providing Structural Computing Services on the World Wide Web ............. 160
    Uffe Kock Wiil and David L. Hicks (Aalborg University Esbjerg, Denmark)

Cooperation Services in a Structural Computing Environment ................... 172
    Samir Tata, David L. Hicks, and Uffe Kock Wiil (Aalborg University Esbjerg, Denmark)

**The Third Workshop on Adaptive Hypermedia (AH3)**

Program Committee Members of AH3 .................................... 196

List of Presentations at AH3 ............................................. 196

List of Participants at AH3 ............................................. 197

Introduction to AH3 ..................................................... 199

Paul M.E. De Bra (Eindhoven University of Technology, The Netherlands)

The Impact of Empirical Studies on the Design of an Adaptive Hypertext Generation System ............................................. 201

Kalina Bontcheva (University of Sheffield, UK)

INSPIRE: An INtelligent System for Personalized Instruction in a Remote Environment ..................................................... 215

Kyparissia A. Papanikolaou, Maria Grigoriadou, Harry Kornilakis (University of Athens, Greece), and George D. Magoulas (Brunel University, UK)

Developing Adaptive Internet Based Courses with the Authoring System NetCoach ..................................................... 226

Gerhard Weber, Hans-Christian Kuhl, and Stephan Weibelzahl (University of Freiburg, Germany)

Link Augmentation: A Context-Based Approach to Support Adaptive Hypermedia ..................................................... 239

Christopher Bailey, Samhaa R. El-Beltagy, and Wendy Hall (University of Southampton, UK)

XAHM: An XML-Based Adaptive Hypermedia Model and Its Implementation ..................................................... 252

Mario Cannataro (ISI-CNR, Italy) and Andrea Pugliese (University of Calabria, Italy)

Revisiting and Versioning in Virtual Special Reports ..................................................... 264

Sébastien Iksal and Serge Garlatti (ENST-Bretagne, France)
Tailoring the Recommendation of Tourist Information to Heterogeneous User Groups ....................................................... 280  
L. Ardissono, A. Goy, G. Petrone, M. Segman, and P. Torasso  
(University of Turin, Italy)

Application of ART2 Networks and Self-Organizing Maps to Collaborative Filtering .............................................. 296  
Guntram Graef and Christian Schaefer (University of Karlsruhe, Germany)

METIOREW: An Objective Oriented Content Based and Collaborative Recommending System ............................................ 310  
David Bueno, Ricardo Conejo (University of Málaga, Spain), and Amos A. David (LORIA, France)

Integrating User Data and Collaborative Filtering in a Web Recommendation System ............................................ 315  
Paolo Buono, Maria Francesca Costabile, Stefano Guida, and Antonio Piccinno (University of Bari, Italy)

Adaptive Hypermedia System for Supporting Information Providers in Directing Users through Hyperspace ......................... 322  
Yoshinori Hijikata, Tetsuya Yoshida, and Shogo Nishida (University of Osaka, Japan)

A Complementary Approach for Adaptive and Adaptable Hypermedia: Intensional Hypertext ............................................. 327  
William W. Wadge (University of Victoria, Canada) and Monica M.C. Schraefel (University of Toronto, Canada)

Author Index ................................................................. 335
