Technical Session 1

Overview of Fuzzy-RED in Diff-Serv Networks ............................... 1
L. Rossides, C. Chrysostomou, A. Pitsillides (University of Cyprus),
A. Sekercioglu (Monash University, Australia)

An Architecture for Agent-Enhanced Network Service Provisioning
through SLA Negotiation ............................................................. 14
David Chieng (Queen’s University of Belfast), Ivan Ho (University
of Ulster), Alan Marshall (Queen’s University of Belfast), Gerard Parr
(University ofUlster)

Facing Fault Management as It Is, Aiming for What
You Would Like It to Be .............................................................. 31
Roy Sterritt (University of Ulster)

Enabling Multimedia QoS Control with Black-Box Modelling ............ 46
Gianluca Bontempi, Gauthier Lafruit, (IMEC Belgium)

Technical Session 2

Using Markov Chains for Link Prediction in Adaptive Web Sites .......... 60
Jianhan Zhu, Jun Hong, John G. Hughes (University of Ulster)

Classification of Customer Call Data in the Presence of
Concept Drift and Noise ............................................................... 74
Michaela Black, Ray Hickey (University of Ulster)

A Learning System for Decision Support in Telecommunications .......... 88
Filip Železný (Czech Technical University), Jiří Žďárek (Atlantis
Telecom), Olga Šťepánková (Czech Technical University)

Adaptive User Modelling in an Intelligent Telephone Assistant .......... 102
Trevor P. Martin, Benham Azvine (BTexact Technologies)

Technical Session 3

A Query-Driven Anytime Algorithm for Argumentative
and Abductive Reasoning ............................................................. 114
Rolf Haenni (University of California, Los Angeles)

Proof Length as an Uncertainty Factor in ILP ................................. 128
Gilles Richard, Fatima Zohra Kettaf (IRIT, Université Paul Sabatier,
France)
X Table of Contents

Paraconsistency in Object-Oriented Databases ............................................. 141
  Rajiv Bagai (Wichita State University, US), Shellene J. Kelley (Austin College, US)

Decision Support with Imprecise Data for Consumers .............................. 151
  Gergely Lukács (University of Karlsruhe, Germany)

Genetic Programming: A Parallel Approach .............................................. 166
  Wolfgang Golubski (University of Siegen, Germany)

Software Uncertainty .................................................................................... 174
  Manny M. Lehman (Imperial College, University of London, UK),
  J.F. Ramil (The Open University, UK)

Technical Session 4

Temporal Probabilistic Concepts from Heterogeneous Data Sequences ........ 191
  Sally McClean, Bryan Scotney, Fiona Palmer (University of Ulster)

Handling Uncertainty in a Medical Study of Dietary Intake during Pregnancy ............................................. 206
  Adele Marshall (Queen’s University, Belfast), David Bell, Roy Sterritt
  (University of Ulster)

Sequential Diagnosis in the Independence Bayesian Framework .............. 217
  David McSherry (University of Ulster)

Static Field Approach for Pattern Classification ........................................ 232
  Dymitr Ruta, Bogdan Gabrys (University of Paisley)

Inferring Knowledge from Frequent Patterns ............................................. 247
  Marzena Kryszkiewicz (Warsaw University of Technology, Poland)

Anytime Possibilistic Propagation Algorithm ............................................. 263
  Nahla Ben Amor (Institut Supérieur de Gestion, Tunis),
  Salem Benferhat (IRIT, Université Paul Sabatier, France),
  Khaled Mellouli (Institut Supérieur de Gestion, Tunis)

Technical Session 5

Macro Analysis of Techniques to Deal with Uncertainty in Information Systems Development: Mapping Representational Framing Influences ........ 280
  Carl Adams (University of Portsmouth, UK), David E. Avison (ESSEC Business School, France)
Soft-Ware 2002: Computing in an Imperfect World
First International Conference, Soft-Ware 2002 Belfast, Northern Ireland, April 8-10, 2002 Proceedings
