Table of Contents

Invited Talks

Constraint Acquisition ....................................................... 1
  Eugene C. Freuder

Expressiveness and Complexity of Full First-Order Constraints in
the Algebra of Trees .......................................................... 2
  Alain Colmerauer

Deduction versus Computation: The Case of Induction ..................... 4
  Eric Deplagne, Claude Kirchner

Integration of Quantifier Elimination with Constraint Logic
Programming ......................................................................... 7
  Thomas Sturm

AISC Regular Talks

Towards a Hybrid Symbolic/Numeric Computational Approach in
Controller Design .................................................................. 12
  Madhu Chetty

Inductive Synthesis of Functional Programs ................................ 26
  Emanuel Kitzelmann, Ute Schmid, Martin Mühlpfordt, Fritz Wysotzki

A Symbolic Computation-Based Expert System for Alzheimer’s
Disease Diagnosis ................................................................. 38
  Begoña Herrero, Luis M. Laita, Eugenio Roanes-Lozano, Víctor Muñoz,
  Luis de Ledesma, José Crespo, Laura Laita

On a Generalised Logicality Theorem ......................................... 51
  Marc Aiguier, Diane Bahrami, Catherine Dubois

Using Symbolic Computation in an Automated Sequent Derivation
System for Multi-valued Logic ............................................... 64
  Elena Smirnova

The Wright $\omega$ Function ..................................................... 76
  Robert M. Corless, D.J. Jeffrey

Multicontext Logic for Semigroups of Contexts .......................... 90
  Rolf Nossum, Luciano Serafini
Indefinite Integration as a Testbed for Developments
in Multi-agent Systems ............................................. 102
   J.A. Campbell

Expression Inference – Genetic Symbolic Classification
Integrated with Non-linear Coefficient Optimisation ............ 117
   Andrew Hunter

A Novel Face Recognition Method .................................. 128
   Li Bai, Yihui Liu

Non-commutative Logic for Hand-Written Character Modeling .... 136
   Jacqueline Castaing

From Numerical to Symbolic Data during the Recognition of Scenarii ... 154
   S. Loriette-Rougegrez

On Mathematical Modeling of Networks and Implementation Aspects ... 168
   Regina Bernhaupt, Jochen Pfalzgraf

Continuous First-Order Constraint Satisfaction ........................ 181
   Stefan Ratschan

Coloring Algorithms for Tolerance Graphs: Reasoning and
Scheduling with Interval Constraints ................................ 196
   Martin Charles Golumbic, Assaf Siani

A Genetic-Based Approach for Satisfiability Problems ............. 208
   Mohamed Tounsi

On Identifying Simple and Quantified Lattice Points in the 2SAT
Polytope ............................................................... 217
   K. Subramani

Calculemus Regular Talks

Integrating Boolean and Mathematical Solving: Foundations, Basic
Algorithms, and Requirements ........................................ 231
   Gilles Audemard, Piergiorgio Bertoli, Alessandro Cimatti,
   Artur Kornilowicz, Roberto Sebastiani

The Meaning of Infinity in Calculus and Computer Algebra Systems ... 246
   Michael Beeson, Freek Wiedijk

Making Conjectures about Maple Functions .......................... 259
   Simon Colton

Employing Theory Formation to Guide Proof Planning ............... 275
   Andreas Meier, Volker Sorge, Simon Colton
Table of Contents

Unification with Sequence Variables and Flexible Arity Symbols and Its Extension with Pattern-Terms ........................................ 290
  Temur Kutsia

Combining Generic and Domain Specific Reasoning by Using Contexts 305
  Silvio Ranise

Inductive Theorem Proving and Computer Algebra in the MathWeb Software Bus ......................................................... 319
  Jürgen Zimmer, Louise A. Dennis

YACAS: A Do-It-Yourself Symbolic Algebra Environment ............... 332
  Ayal Z. Pinkus, Serge Winitzki

Focus Windows: A New Technique for Proof Presentation .................. 337
  Florina Piroi, Bruno Buchberger

Author Index ....................................................... 343
Artificial Intelligence, Automated Reasoning, and Symbolic Computation
Joint International Conferences, AISC 2002 and Calculemus 2002 Marseille, France, July 1-5, 2002
Proceedings
Calmet, J.; Benhamou, B.; Caprotti, O.; Henocque, L.; Sorge, V. (Eds.)
2002, XIV, 350 p., Softcover
ISBN: 978-3-540-43865-6
