# Table of Contents

## Managing Specialization/Generalization Hierarchies

- Managing Specialization/Generalization Hierarchies (Workshop Overview) .......................................................... 1  
  Marianne Huchard, Hernan Astudillo, and Petko Valtchev
- “Real World” as an Argument for Covariant Specialization in Programming and Modeling .......................... 3  
  Roland Ducournau
- Maintaining Class Membership Information ........................................ 13  
  Anne Berry and Alain Sigayret
- Hierarchies in Object Oriented Conceptual Modeling ..................... 24  
  Esperanza Marcos and Jose María Cavero
- Specialization/Generalization in Object-Oriented Analysis:  
  Strengthening and Multiple Partitioning ..................................... 34  
  Pieter Bekaert*, Geert Delanote, Frank Devos, and Eric Steegmans
- Towards a New Role Paradigm for Object-Oriented Modeling ........... 44  
  Stéphane Coulondre and Thérèse Libourel
- Analysing Object-Oriented Application Frameworks  
  Using Concept Analysis .................................................. 53  
  Gabriela Arévalo and Tom Mens
- Using Both Specialisation and Generalisation in a Programming Language: Why and How? .................... 64  
  Pierre Crescenzo and Philippe Lahire
- Automatic Generation of Hierarchical Taxonomies  
  from Free Text Using Linguistic Algorithms .......................... 74  
  Juan Lloréns and Hernán Astudillo
- Guessing Hierarchies and Symbols for Word Meanings  
  through Hypernyms and Conceptual Vectors .......................... 84  
  Mathieu Lafourcade

## Reuse in OO Information Systems Design

- Reuse in Object-Oriented Information Systems Design (Workshop Overview) .................................................. 94  
  Daniel Bardou, Agnès Conte, and Liz Kendall
# Table of Contents

Software Reuse with Use Case Patterns .................................................. 96  
*Maria Clara Silveira and Raul Moreira Vidal*

Promoting Reuse through the Capture of System Description ................. 101  
*Florida Estrella, Sebastien Gaspard, Zsolt Kovacs, Jean-Marie Le Goff,*  
*and Richard McClatchey*

A Specification-Oriented Framework  
for Information System User Interfaces ............................................. 112  
*Eliezer Kantorowitz and Sally Tadmor*

The Role of Pattern Languages in the Instantiation  
of Object-Oriented Frameworks ......................................................... 122  
*Rosana T. V. Braga and Paulo Cesar Masiero*

IS Components with Hyperclasses ................................................... 132  
*Slim Turki and Michel Léonard*

Collaborative Simulation by Reuse of COTS Simulators  
with a Reflexive XML Middleware .................................................... 142  
*Mathieu Blanc, Fabien Costantini, Sébastien Dubois, Manuel Forget,*  
*Olivier Francillon, and Christian Toinard*

**Efficient Web-Based Information Systems**

Efficient Web-Based Information Systems (Workshop Overview) .......... 152  
*Omar Boucelma and Zoé Lacroix*

Semantic Integration and Query Optimization  
of Heterogeneous Data Sources ......................................................... 154  
*Domenico Beneventano, Sonia Bergamaschi, Silvana Castano,*  
*Valeria De Antonellis, Alfio Ferrara, Francesco Guerra,*  
*Federica Mandreoli, Giorgio Carlo Ornetti, and Maurizio Vincini*

Extracting Information from Semi-structured Web Documents ............... 166  
*Ajay Hemnani and Stephane Bressan*

Object-Oriented Mediator Queries to Internet Search Engines ............... 176  
*Timour Katchaounov, Tore Risch, and Simon Zürcher*

Warp-Edge Optimization in XPath ...................................................... 187  
*Haiyun He and Curtis Dyreson*

A Caching System for Web Content Generated  
from XML Sources Using XSLT ....................................................... 197  
*Volker Turau*

Finding Similar Queries to Satisfy Searches Based on Query Traces ....... 207  
*Osmar R. Zaïane and Alexander Strilets*
