Preface

The fifth international Conference in Medical Image Computing and Computer Assisted Intervention (MICCAI 2002) was held in Tokyo from September 25th to 28th, 2002. This was the first time that the conference was held in Asia since its foundation in 1998. The objective of the conference is to offer clinicians and scientists the opportunity to collaboratively create and explore the new medical field. Specifically, MICCAI offers a forum for the discussion of the state of art in computer-assisted interventions, medical robotics, and image processing among experts from multi-disciplinary professions, including but not limited to clinical doctors, computer scientists, and mechanical and biomedical engineers. The expectations of society are very high; the advancement of medicine will depend on computer and device technology in coming decades, as they did in the last decades.

We received 321 manuscripts, of which 41 were chosen for oral presentation and 143 for poster presentation. Each paper has been included in these proceedings in eight-page full paper format, without any differentiation between oral and poster papers. Adherence to this full paper format, along with the increased number of manuscripts, surpassing all our expectations, has led us to issue two proceedings volumes for the first time in MICCAI’s history. Keeping to a single volume by assigning fewer pages to each paper was certainly an option for us considering our budget constraints. However, we decided to increase the volume to offer authors maximum opportunity to argue the state of art in their work and to initiate constructive discussions among the MICCAI audience.

It was our great pleasure to welcome all MICCAI 2002 attendees to Tokyo. Japan, in fall, is known for its beautiful foliage all over the country. The traditional Japanese architectures always catches the eyes of visitors to Japan. We hope that all the MICCAI attendees took the opportunity to enjoy Japan and that they had a scientifically fruitful time at the conference. Those who could not attend the conference should keep the proceedings as a valuable source of information for their academic activities.

We look forward to seeing you at another successful MICCAI in Toronto in 2003.

July 2002  
DOHI Takeyoshi and Ron Kikinis
Organizing Committee

Honorary Chair
Kintomo Takakura Tokyo Women’s Medical University, Japan

General Chair
Takeyoshi Dohi The University of Tokyo, Japan
Terry Peters University of Western Ontario, Canada
Junichiro Toriwaki Nagoya University, Japan

Program Chair
Ron Kikinis Harvard Medical School and Brigham and Women’s Hospital, USA

Program Co-chairs
Randy Ellis Queen’s University at Kingston, Canada
Koji Ikuta Nagoya University, Japan
Gabor Szekely Swiss Federal Institute of Technology, ETH Zentrum, Switzerland

Tutorial Chair
Yoshinobu Sato Osaka University, Japan

Industrial Liaison
Masakatsu Fujie Waseda University, Japan
Makoto Hashizume Kyushu University, Japan
Hiroshi Iseki Tokyo Women’s Medical University, Japan
Program Review Committee

Alan Colchester University of Kent at Canterbury, UK
Wei-Qi Wang Dept. of E., Fudan University, China
Yongmei Wang The Chinese University of Hong Kong, China
Jocelyne Troccaz TIMC Laboratory, France
Erwin Keeve Research Center Caesar, Germany
Frank Tendick University of California, San Francisco, USA
Sun I. Kim Hanyang University, Korea
Pierre Hellier INRIA Rennes, France
Pheng Ann Heng The Chinese University of Hong Kong, China
Gabor Szekely Swiss Federal Institute of Technology Zurich, Switzerland
Kirby Vosburgh CIMIT/MGH/Harvard Medical School, USA
Allison M. Okamura Johns Hopkins University, USA
James S. Duncan Yale University, USA
Baba Vemuri University of Florida, USA
Terry M. Peters The John P. Robarts Research Institute, Canada

Allen Tannenbaum Georgia Institute of Technology, USA
Richard A. Robb Mayo Clinic, USA
Brian Davies Imperial College London, UK
David Hawkes King's College London, UK
Carl-Fredrik Westin Harvard Medical School, USA
Chris Taylor University of Manchester, UK
Derek Hill King's College London, UK
Ramin Shahidi Stanford University, USA
Demetri Terzopoulos New York University, USA
Shuqian Luo Capital University of Medical Sciences, USA
Paul Thompson UCLA School of Medicine, USA
Simon Warfield Harvard Medical School, USA
Gregory D. Hager Johns Hopkins University, USA
Kiyoyuki Chinzui AIST, Japan
Shinichi Tamura Osaka University, Japan
Jun Toriwaki Nagoya University, Japan
Yukio Kosugi Tokyo Institute of Technology, Japan
Jing Bai Tsinghua University, China
Philippe Cincquin UJF (University Joseph Fourier), France
Xavier Pennec INRIA Sophia-Antipolis, France
Frithjof Kruggel Max-Planck-Institute for Cognitive Neuroscience, Germany
Ewert Bengtsson  Uppsala University, Finland
Ève Coste Manièrè INRIA Sophia Antipolis, France
Milan Sonka  University of Iowa, USA
Branislav Jaramaz  West Penn Hospital, USA
Dimitris Metaxas  Rutgers University, USA
Tianzi Jiang  Chinese Academy of Sciences, China
Tian-ge Zhuang  Shanghai Jiao tong University, China
Masakatsu G. Fujie  Waseda University, Japan
Takehide Asano  Chiba University, Japan
Ichiro Sakuma  The University of Tokyo, Japan
Alison Noble  University of Oxford, UK
Heinz U. Lemke  Technical University Berlin, Germany
Robert Howe  Harvard University, USA
Michael I Miga  Vanderbilt University, USA
Hervé Delingette  INRIA Sophia Antipolis, France
D. Louis Collins  Montreal Neurological Institute,
McGill University, Canada
Kunio Doi  University of Chicago, USA
Scott Delp  Stanford University, USA
Louis L. Whitcomb  Johns Hopkins University, USA
Michael W. Vannier  University of Iowa, USA
Jin-Ho Cho  Kyungpook National University, Korea
Yukio Yamada  University of Electro-Communications, Japan
Yuji Ohta  Ochanomizu University, Japan
Karol Miller  The University of Western Australia
William (Sandy) Wells  Harvard Medical School, Brigham and
Women’s Hosp., USA
Kevin Montgomery  National Biocomputation Center/Stanford
University, USA
Kiyoshi Naemura  Tokyo Women’s Medical University, Japan
Yoshihiko Nakamura  The University of Tokyo, Japan
Toshio Nakagohri  National Cancer Center Hospital East, Japan
Yasushi Yamauchi  AIST, Japan
Masaki Kitajima  Keio University, Japan
Hiroshi Iseki  Tokyo Women’s Medical University, Japan
Yoshinobu Sato  Osaka University, Japan
Amami Kato  Osaka University School of Medicine, Japan
Eiju Watanabe  Tokyo Metropolitan Police Hospital, Japan
Miguel Angel Gonzalez Ballester  INRIA Sophia Antipolis, France
Yoshihiro Muragaki  Tokyo Women’s Medical University, Japan
