Preface

The fifth international Conference in Medical Image Computing and Computer Assisted Intervention (MICCAI 2002) was held in Tokyo from September 25th to 28th, 2002. This was the first time that the conference was held in Asia since its foundation in 1998. The objective of the conference is to offer clinicians and scientists the opportunity to collaboratively create and explore the new medical field. Specifically, MICCAI offers a forum for the discussion of the state of art in computer-assisted interventions, medical robotics, and image processing among experts from multi-disciplinary professions, including but not limited to clinical doctors, computer scientists, and mechanical and biomedical engineers. The expectations of society are very high; the advancement of medicine will depend on computer and device technology in coming decades, as they did in the last decades.

We received 321 manuscripts, of which 41 were chosen for oral presentation and 143 for poster presentation. Each paper has been included in these proceedings in eight-page full paper format, without any differentiation between oral and poster papers. Adherence to this full paper format, along with the increased number of manuscripts, surpassing all our expectations, has led us to issue two proceedings volumes for the first time in MICCAI’s history. Keeping to a single volume by assigning fewer pages to each paper was certainly an option for us considering our budget constraints. However, we decided to increase the volume to offer authors maximum opportunity to argue the state of art in their work and to initiate constructive discussions among the MICCAI audience.

It was our great pleasure to welcome all MICCAI 2002 attendees to Tokyo. Japan, in fall, is known for its beautiful foliage all over the country. The traditional Japanese architectures always catches the eyes of visitors to Japan. We hope that all the MICCAI attendees took the opportunity to enjoy Japan and that they had a scientifically fruitful time at the conference. Those who could not attend the conference should keep the proceedings as a valuable source of information for their academic activities.

We look forward to seeing you at another successful MICCAI in Toronto in 2003.

July 2002

DOHI Takeyoshi and Ron Kikinis
Organizing Committee

Honorary Chair
Kintomo Takakura Tokyo Women’s Medical University, Japan

General Chair
Takeyoshi Dohi The University of Tokyo, Japan
Terry Peters University of Western Ontario, Canada
Junichiro Toriwaki Nagoya University, Japan

Program Chair
Ron Kikinis Harvard Medical School and Brigham and Women’s Hospital, USA

Program Co-chairs
Randy Ellis Queen’s University at Kingston, Canada
Koji Ikuta Nagoya University, Japan
Gabor Szekely Swiss Federal Institute of Technology, ETH Zentrum, Switzerland

Tutorial Chair
Yoshinobu Sato Osaka University, Japan

Industrial Liaison
Masakatsu Fujie Waseda University, Japan
Makoto Hashizume Kyushu University, Japan
Hiroshi Iseki Tokyo Women’s Medical University, Japan
Program Review Committee

Alan Colchester
University of Kent at Canterbury, UK

Wei-Qi Wang
Dept. of E., Fudan University, China

Yongmei Wang
The Chinese University of Hong Kong, China

Jocelyne Troccaz
TIMC Laboratory, France

Erwin Keeve
Research Center Caesar, Germany

Frank Tendick
University of California, San Francisco, USA

Sun I. Kim
Hanyang University, Korea

Pierre Hellier
INRIA Rennes, France

Pheng Ann Heng
The Chinese University of Hong Kong, China

Gabor Szekely
Swiss Federal Institute of Technology Zurich, Switzerland

Kirby Vosburgh
CIMIT/MGH/Harvard Medical School, USA

Allison M. Okamura
Johns Hopkins University, USA

James S. Duncan
Yale University, USA

Baba Vemuri
University of Florida, USA

Terry M. Peters
The John P. Robarts Research Institute, Canada

Allen Tannenbaum
Georgia Institute of Technology, USA

Richard A. Robb
Mayo Clinic, USA

Brian Davies
Imperial College London, UK

David Hawkes
King's College London, UK

Carl-Fredrik Westin
Harvard Medical School, USA

Chris Taylor
University of Manchester, UK

Derek Hill
King's College London, UK

Ramin Shahidi
Stanford University, USA

Demetri Terzopoulos
New York University, USA

Shuqian Luo
Capital University of Medical Sciences, USA

Paul Thompson
UCLA School of Medicine, USA

Simon Warfield
Harvard Medical School, USA

Gregory D. Hager
Johns Hopkins University, USA

Kiyoyuki Chinzei
AIST, Japan

Shinichi Tamura
Osaka University, Japan

Jun Toriwaki
Nagoya University, Japan

Yukio Kosugi
Tokyo Institute of Technology, Japan

Jing Bai
Tsinghua University, China

Philippe Cincunin
UJF (University Joseph Fourier), France

Xavier Pennec
INRIA Sophia-Antipolis, France

Frithjof Kruggel
Max-Planck-Institute for Cognitive Neuroscience, Germany
Ewert Bengtsson
Uppsala University, Finland

Ève Coste Maniérè
INRIA Sophia Antipolis, France

Milan Sonka
University of Iowa, USA

Branislav Jaramaz
West Penn Hospital, USA

Dimitris Metaxas
Rutgers University, USA

Tianzi Jiang
Chinese Academy of Sciences, China

Tian-ge Zhuang
Shanghai Jiao tong University, China

Masakatsu G. Fujie
Waseda University, Japan

Takehide Asano
Chiba University, Japan

Ichiro Sakuma
The University of Tokyo, Japan

Alison Noble
University of Oxford, UK

Heinz U. Lemke
Technical University Berlin, Germany

Robert Howe
Harvard University, USA

Michael I Miga
Vanderbilt University, USA

Hervé Delingette
INRIA Sophia Antipolis, France

D. Louis Collins
Montreal Neurological Institute, McGill University, Canada

Kunio Doi
University of Chicago, USA

Scott Delp
Stanford University, USA

Louis L. Whitcomb
Johns Hopkins University, USA

Michael W. Vannier
University of Iowa, USA

Jin-Ho Cho
Kyungpook National University, Korea

Yukio Yamada
University of Electro-Communications, Japan

Yuji Ohta
Ochanomizu University, Japan

Karol Miller
The University of Western Australia

William (Sandy) Wells
Harvard Medical School, Brigham and Women’s Hosp., USA

Kevin Montgomery
National Bio-computation Center/Stanford University, USA

Kiyoshi Naemura
Tokyo Women’s Medical University, Japan

Yoshihiko Nakamura
The University of Tokyo, Japan

Toshio Nakagohri
National Cancer Center Hospital East, Japan

Yasushi Yamauchi
AIST, Japan

Masaki Kitajima
Keio University, Japan

Hiroshi Iseki
Tokyo Women’s Medical University, Japan

Yoshinobu Sato
Osaka University, Japan

Amami Kato
Osaka University School of Medicine, Japan

Eiju Watanabe
Tokyo Metropolitan Police Hospital, Japan

Miguel Angel Gonzalez Ballester
INRIA Sophia Antipolis, France

Yoshihiro Muragaki
Tokyo Women’s Medical University, Japan
