Preface

The fifth international Conference in Medical Image Computing and Computer Assisted Intervention (MICCAI 2002) was held in Tokyo from September 25th to 28th, 2002. This was the first time that the conference was held in Asia since its foundation in 1998. The objective of the conference is to offer clinicians and scientists the opportunity to collaboratively create and explore the new medical field. Specifically, MICCAI offers a forum for the discussion of the state of art in computer-assisted interventions, medical robotics, and image processing among experts from multi-disciplinary professions, including but not limited to clinical doctors, computer scientists, and mechanical and biomedical engineers. The expectations of society are very high; the advancement of medicine will depend on computer and device technology in coming decades, as they did in the last decades.

We received 321 manuscripts, of which 41 were chosen for oral presentation and 143 for poster presentation. Each paper has been included in these proceedings in eight-page full paper format, without any differentiation between oral and poster papers. Adherence to this full paper format, along with the increased number of manuscripts, surpassing all our expectations, has led us to issue two proceedings volumes for the first time in MICCAI’s history. Keeping to a single volume by assigning fewer pages to each paper was certainly an option for us considering our budget constraints. However, we decided to increase the volume to offer authors maximum opportunity to argue the state of art in their work and to initiate constructive discussions among the MICCAI audience.

It was our great pleasure to welcome all MICCAI 2002 attendees to Tokyo. Japan, in fall, is known for its beautiful foliage all over the country. The traditional Japanese architectures always catches the eyes of visitors to Japan. We hope that all the MICCAI attendees took the opportunity to enjoy Japan and that they had a scientifically fruitful time at the conference. Those who could not attend the conference should keep the proceedings as a valuable source of information for their academic activities.

We look forward to seeing you at another successful MICCAI in Toronto in 2003.

July 2002

DOHI Takeyoshi and Ron Kikinis
Organizing Committee

**Honorary Chair**
Kintomo Takakura Tokyo Women’s Medical University, Japan

**General Chair**
Takeyoshi Dohi The University of Tokyo, Japan
Terry Peters University of Western Ontario, Canada
Junichiro Toriwaki Nagoya University, Japan

**Program Chair**
Ron Kikinis Harvard Medical School and Brigham and Women’s Hospital, USA

**Program Co-chairs**
Randy Ellis Queen’s University at Kingston, Canada
Koji Ikuta Nagoya University, Japan
Gabor Szekely Swiss Federal Institute of Technology, ETH Zentrum, Switzerland

**Tutorial Chair**
Yoshinobu Sato Osaka University, Japan

**Industrial Liaison**
Masakatsu Fujie Waseda University, Japan
Makoto Hashizume Kyushu University, Japan
Hiroshi Iseki Tokyo Women’s Medical University, Japan
Program Review Committee

Alan Colchester  University of Kent at Canterbury, UK
Wei-Qi Wang  Dept. of E., Fudan University, China
Yongmei Wang  The Chinese University of Hong Kong, China
Jocelyne Troccaz  TIMC Laboratory, France
Erwin Keeve  Research Center Caesar, Germany
Frank Tendick  University of California, San Francisco, USA
Sun I. Kim  Hanyang University, Korea
Pierre Hellier  INRIA Rennes, France
Pheng Ann Heng  The Chinese University of Hong Kong, China
Gabor Szekely  Swiss Federal Institute of Technology Zurich, Switzerland
Kirby Vosburgh  CIMIT/MGH/Harvard Medical School, USA
Allison M. Okamura  Johns Hopkins University, USA
James S. Duncan  Yale University, USA
Baba Vemuri  University of Florida, USA
Terry M. Peters  The John P. Robarts Research Institute, Canada
Allen Tannenbaum  Georgia Institute of Technology, USA
Richard A. Robb  Mayo Clinic, USA
Brian Davies  Imperial College London, UK
David Hawkes  King's College London, UK
Carl-Fredrik Westin  Harvard Medical School, USA
Chris Taylor  University of Manchester, UK
Derek Hill  King’s College London, UK
Ramin Shahidi  Stanford University, USA
Demetri Terzopoulos  New York University, USA
Shuqian Luo  Capital University of Medical Sciences, USA
Paul Thompson  UCLA School of Medicine, USA
Simon Warfield  Harvard Medical School, USA
Gregory D. Hager  Johns Hopkins University, USA
Kiyoyuki Chinzei  AIST, Japan
Shinichi Tamura  Osaka University, Japan
Jun Toriwaki  Nagoya University, Japan
Yukio Kosugi  Tokyo Institute of Technology, Japan
Jing Bai  Tsinghua University, China
Philippe Cincin  UJF (University Joseph Fourier), France
Xavier Pennec  INRIA Sophia-Antipolis, France
Frithjof Kruggel  Max-Planck-Institute for Cognitive Neuroscience, Germany
Ewert Bengtsson  
Uppsala University, Finland

Éve Coste Manière  
INRIA Sophia Antipolis, France

Milan Sonka  
University of Iowa, USA

Branislav Jaramaz  
West Penn Hospital, USA

Dimitris Metaxas  
Rutgers University, USA

Tianzi Jiang  
Chinese Academy of Sciences, China

Tian-ge Zhuang  
Shanghai Jiao tong University, China

Masakatsu G. Fujie  
Waseda University, Japan

Takehide Asano  
Chiba University, Japan

Ichiro Sakuma  
The University of Tokyo, Japan

Alison Noble  
University of Oxford, UK

Heinz U. Lemke  
Technical University Berlin, Germany

Robert Howe  
Harvard University, USA

Michael I Miga  
Vanderbilt University, USA

Hervé Delingette  
INRIA Sophia Antipolis, France

D. Louis Collins  
Montreal Neurological Institute,
McGill University, Canada

Kunio Doi  
University of Chicago, USA

Scott Delp  
Stanford University, USA

Louis L. Whitcomb  
Johns Hopkins University, USA

Michael W. Vannier  
University of Iowa, USA

Jin-Ho Cho  
Kyungpook National University, Korea

Yukio Yamada  
University of Electro-Communications, Japan

Yuji Ohta  
Ochanomizu University, Japan

Karol Miller  
The University of Western Australia

William (Sandy) Wells  
Harvard Medical School, Brigham and
Women’s Hosp., USA

Kevin Montgomery  
National Biocomputation Center/Stanford
University, USA

Kiyoshi Naemura  
Tokyo Women’s Medical University, Japan

Yoshihiko Nakamura  
The University of Tokyo, Japan

Toshio Nakagohri  
National Cancer Center Hospital East, Japan

Yasushi Yamauchi  
AIST, Japan

Masaki Kitajima  
Keio University, Japan

Hiroshi Iseki  
Tokyo Women’s Medical University, Japan

Yoshinobu Sato  
Osaka University, Japan

Amami Kato  
Osaka University School of Medicine, Japan

Eiju Watanabe  
Tokyo Metropolitan Police Hospital, Japan

Miguel Angel Gonzalez Ballester  
INRIA Sophia Antipolis, France

Yoshihiro Muragaki  
Tokyo Women’s Medical University, Japan
Makoto Hashizume  Kyushu University, Japan
Paul Suetens  K.U. Leuven, Medical Image Computing,
               Belgium
Michael D. Sherar  Ontario Cancer Institute/University of
                   Toronto, Canada
Kyojiro Nambu  Medical Systems Company, Toshiba Corpora-
                tion, Japan
Naoki Suzuki  Institute for High Dimensional Medical Imaging,
              Jikei University School of Medicine, Japan
Nobuhiro Sugano  Osaka University, Japan
Etsuko Kobayashi  The University of Tokyo, Japan
Grégoire Malandain  INRIA Sophia Antipolis, France
Russell H. Taylor  Johns Hopkins University, USA
Maryellen Giger  University of Chicago, USA
Hideaki Koizumi  Advanced Research Laboratory, Hitachi, Ltd.,
                 Japan
Rjan Smedby  Linköping University, Sweden
