Preface

The fifth international Conference in Medical Image Computing and Computer Assisted Intervention (MICCAI 2002) was held in Tokyo from September 25th to 28th, 2002. This was the first time that the conference was held in Asia since its foundation in 1998. The objective of the conference is to offer clinicians and scientists the opportunity to collaboratively create and explore the new medical field. Specifically, MICCAI offers a forum for the discussion of the state of art in computer-assisted interventions, medical robotics, and image processing among experts from multi-disciplinary professions, including but not limited to clinical doctors, computer scientists, and mechanical and biomedical engineers. The expectations of society are very high; the advancement of medicine will depend on computer and device technology in coming decades, as they did in the last decades.

We received 321 manuscripts, of which 41 were chosen for oral presentation and 143 for poster presentation. Each paper has been included in these proceedings in eight-page full paper format, without any differentiation between oral and poster papers. Adherence to this full paper format, along with the increased number of manuscripts, surpassing all our expectations, has led us to issue two proceedings volumes for the first time in MICCAI’s history. Keeping to a single volume by assigning fewer pages to each paper was certainly an option for us considering our budget constraints. However, we decided to increase the volume to offer authors maximum opportunity to argue the state of art in their work and to initiate constructive discussions among the MICCAI audience.

It was our great pleasure to welcome all MICCAI 2002 attendees to Tokyo. Japan, in fall, is known for its beautiful foliage all over the country. The traditional Japanese architectures always catches the eyes of visitors to Japan. We hope that all the MICCAI attendees took the opportunity to enjoy Japan and that they had a scientifically fruitful time at the conference. Those who could not attend the conference should keep the proceedings as a valuable source of information for their academic activities.

We look forward to seeing you at another successful MICCAI in Toronto in 2003.

July 2002

DOHI Takeyoshi and Ron Kikinis
Organizing Committee

Honorary Chair
Kintomo Takakura
Tokyo Women’s Medical University, Japan

General Chair
Takeyoshi Dohi
The University of Tokyo, Japan
Terry Peters
University of Western Ontario, Canada
Junichiro Toriwaki
Nagoya University, Japan

Program Chair
Ron Kikinis
Harvard Medical School and Brigham and Women’s Hospital, USA

Program Co-chairs
Randy Ellis
Queen’s University at Kingston, Canada
Koji Ikuta
Nagoya University, Japan
Gabor Szekely
Swiss Federal Institute of Technology, ETH Zentrum, Switzerland

Tutorial Chair
Yoshinobu Sato
Osaka University, Japan

Industrial Liaison
Masakatsu Fujie
Waseda University, Japan
Makoto Hashizume
Kyushu University, Japan
Hiroshi Iseki
Tokyo Women’s Medical University, Japan
Program Review Committee

Alan Colchester  University of Kent at Canterbury, UK
Wei-Qi Wang  Dept. of E., Fudan University, China
Yongmei Wang  The Chinese University of Hong Kong, China
Jocelyne Troccaz  TIMC Laboratory, France
Erwin Keeve  Research Center Caesar, Germany
Frank Tendick  University of California, San Francisco, USA
Sun I. Kim  Hanyang University, Korea
Pierre Hellier  INRIA Rennes, France
Pheng Ann Heng  The Chinese University of Hong Kong, China
Gabor Szekely  Swiss Federal Institute of Technology Zurich, Switzerland
Kirby Vosburgh  CIMIT/MBH/MBH Medical School, USA
Allison M. Okamura  Johns Hopkins University, USA
James S. Duncan  Yale University, USA
Baba Vemuri  University of Florida, USA
Terry M. Peters  The John P. Robarts Research Institute, Canada

Allen Tannenbaum  Georgia Institute of Technology, USA
Richard A. Robb  Mayo Clinic, USA
Brian Davies  Imperial College London, UK
David Hawkes  King's College London, UK
Carl-Fredrik Westin  Harvard Medical School, USA
Chris Taylor  University of Manchester, UK
Derek Hill  King's College London, UK
Ramin Shahidi  Stanford University, USA
Demetri Terzopoulos  New York University, USA
Shuqian Luo  Capital University of Medical Sciences, USA
Paul Thompson  UCLA School of Medicine, USA
Simon Warfield  Harvard Medical School, USA
Gregory D. Hager  Johns Hopkins University, USA
Kiyoyuki Chinzei  AIST, Japan
Shinich Tamura  Osaka University, Japan
Jun Toriwaki  Nagoya University, Japan
Yukio Kosugi  Tokyo Institute of Technology, Japan
Jing Bai  Tsinghua University, China
Philippe Ceyquin  UJF (University Joseph Fourier), France
Xavier Pennec  INRIA Sophia-Antipolis, France
Frithjof Kruegler  Max-Planck-Institute for Cognitive Neuroscience, Germany
Ewert Bengtsson
Uppsala University, Finland

Éve Coste Manièrè
INRIA Sophia Antipolis, France

Milan Sonka
University of Iowa, USA

Branislav Jaramaz
West Penn Hospital, USA

Dimitris Metaxas
Rutgers University, USA

Tianzi Jiang
Chinese Academy of Sciences, China

Tian-ge Zhuang
Shanghai Jiao Tong University, China

Masakatsu G. Fujie
Waseda University, Japan

Takehide Asano
Chiba University, Japan

Ichiro Sakuma
The University of Tokyo, Japan

Alison Noble
University of Oxford, UK

Heinz U. Lemke
Technical University Berlin, Germany

Robert Howe
Harvard University, USA

Michael I Miga
Vanderbilt University, USA

Hervé Delingette
INRIA Sophia Antipolis, France

D. Louis Collins
Montreal Neurological Institute,
McGill University, Canada

Kunio Doi
University of Chicago, USA

Scott Delp
Stanford University, USA

Louis L. Whitcomb
Johns Hopkins University, USA

Michael W. Vannier
University of Iowa, USA

Jin-Ho Cho
Kyungpook National University, Korea

Yukio Yamada
University of Electro-Communications, Japan

Yuji Ohta
Ochanomizu University, Japan

Karol Miller
The University of Western Australia

William (Sandy) Wells
Harvard Medical School, Brigham and
Women’s Hosp., USA

Kevin Montgomery
National Bio-computation Center/Stanford
University, USA

Kiyoshi Naemura
Tokyo Women’s Medical University, Japan

Yoshihiko Nakamura
The University of Tokyo, Japan

Toshio Nakagohri
National Cancer Center Hospital East, Japan

Yasushi Yamauchi
AIST, Japan

Masaki Kitajima
Keio University, Japan

Hiroshi Iseki
Tokyo Women’s Medical University, Japan

Yoshinobu Sato
Osaka University, Japan

Amami Kato
Osaka University School of Medicine, Japan

Eiju Watanabe
Tokyo Metropolitan Police Hospital, Japan

Miguel Angel Gonzalez Ballester
INRIA Sophia Antipolis, France

Yoshihiro Muragaki
Tokyo Women’s Medical University, Japan
Tim Salcudean  
University of British Columbia, Canada  

Stephen Pizer  
University of North Carolina, USA  

J. Michael Fitzpatrick  
Vanderbilt University, USA  

Gabor Fichtinger  
Johns Hopkins University, USA  

Koji Ikuta  
Nagoya University, Japan  

Jean Louis Coatrieux  
University of Rennes-INSERM, France  

Jaydev P. Desai  
Drexel University, USA  

Chris Johnson  
Scientific Computing and Imaging Institute, USA  

Luc Soler  
IRCAD, France  

Wieslaw L. Nowinski  
Biomedical Imaging Lab, Singapore  

Andreas Pommert  
University Hospital Hamburg-Eppendorf, Germany  

Heinz-Otto Peitgen  
MeVis, Germany  

Rudolf Fahlbusch  
Neurochirurgische Klinik, Germany  

Simon Wildermuth  
University Hospital Zurich, Inst. Diagnostic Radiology, Switzerland  

Chuck Meyer  
University of Michigan, USA  

Johan Van Ceynenbreugel  
Medical Image Computing, ESAT-Radiologie, K.U. Leuven, Belgium  

Dirk Vandermeulen  
K.U. Leuven, Belgium  

Karl Rohr  
International University in Germany, Germany  

Martin Styner  
Duke Image Analysis Lab, UNC Neuro Image Analysis Lab, Germany  

Catherina R. Burghart  
University of Karlsruhe, Germany  

Fernando Bello  
Imperial College of Science, Technology and Medicine, UK  

Colin Studholme  
University of California, San Francisco, USA  

Dinesh Pai  
University of British Columbia, Canada  

Paul Milgram  
University of Toronto, Canada  

Michael Bronskill  
University of Toronto/Sunnybrook Hospital, Canada  

Nobuhiko Hata  
The University of Tokyo, Japan  

Ron Kikinis  
Brigham and Women’s Hospital and Harvard Medical School, USA  

Lutz Nolte  
University of Bern, Germany  

Ralph Mosges  
IMSIE Univ. of Cologne, Germany  

Bart M. ter Haar Romeny  
Eindhoven University of Technology, The Netherlands  

Steven Haker  
Brigham and Women’s Hospital and Harvard Medical School, USA
