# List of Contents

## Part 1. General

The Macrophage as a Validated Pharmaceutical Target ................. 3  
*H. Rosen*

Transcription Factors that Regulate Macrophage Development and Function ........................................... 11  
*D.A. Hume and S.R. Himes*

Exploitation of Macrophage Clearance Functions In Vivo .............. 41  
*S.M. Moghimi*

Reaching the Macrophages: Routes of Delivery ........................... 55  
*G. Kraal and N. van Rooijen*

Antigen Presenting Cells and Vaccine Design .......................... 67  
*L. Martinez-Pomares and S. Wong*

Macrophage-Specific Gene Targeting In Vivo. ......................... 89  
*D.R. Greaves and S. Gordon*

## Part 2. Macrophage Targets in Inflammation

Integrins of Macrophages and Macrophage-Like Cells ................. 111  
*E.J. Brown*

Macrophage Targets in Inflammation: Purinergic Receptors .......... 131  
*F. Di Virgilio and D. Ferrari*

Macrophage Lipid Uptake and Foam Cell Formation .................... 147  
*W.J.S. de Villiers and D.R. van der Westhuyzen*

Dietary Fatty Acids and Macrophages .................................. 173  
*P.C. Calder and P. Yaqoob*

Macrophages as Therapeutic Targets in Lysosomal Storage Disorders... 193  
*J.M. Aerts, C. Hollak, R. Boot, and A. Groener*
Nuclear Receptors as Regulators of Macrophage Homeostasis and Function ................................................... 209
  J.S. Welch and C.K. Glass

Relationships between Reactive Oxygen Species and Reactive Nitrogen Oxide Species Produced by Macrophages ......................... 227
  M.G. Espey

Proteases .......................................................... 253
  J.A. Mahoney

Targeting the Chemokine System ........................................ 269
  Z. Johnson, A. Frauenschuh, and A. Proudfoot

Antimicrobial Peptides .............................................. 295
  T. Ganz and R.I. Lehrer

Macrophage Phospholipid Products .................................... 305
  P.M. Henson

Part 3. Modulation of Specialised Macrophage Activities

Dendritic Cells Versus Macrophages as Antigen-Presenting Cells:
Common and Unique Features ........................................... 337
  S. Vuckovic and D.N.J. Hart

The Osteoclast ....................................................... 353
  T.J. Chambers

Macrophages in the Central and Peripheral Nervous System ............ 373
  V.H. Perry

Innate Recognition of Viruses by Macrophage and Related Receptors:
Potential Ligand for Antiviral Agents .................................. 385
  J.L. Miller and S. Gordon

Macrophage Immunity and Mycobacterium Tuberculosis ................. 409
  J.D. MacMicking and J.D. McKinney

Detection and Control of Fungi by Macrophages:
The Role of Carbohydrates and Antifungal Agents ...................... 459
  J.A. Willment, S. Gordon, and G.D. Brown

Subject Index ........................................................ 479
The Macrophage as Therapeutic Target
Gordon, S. (Ed.)
2003, X, 496 p., Hardcover
ISBN: 978-3-540-44250-9
