## Contents

### Part I  General Topics

1  **Minimally Invasive Surgery – The Pioneers**  
   George Berci and Masanobu Hagiike  
   3

2  **Evolution of Minimally Invasive Surgery and Its Impact on Surgical Residency Training**  
   Adrian E. Park and Tommy H. Lee  
   11

3  **Laparoscopy and Research in Surgical Oncology: Current State of the Art and Future Trends**  
   Dominic King, Henry Lee, and Lord Ara Darzi  
   23

4  **Moral and Ethical Issues in Laparoscopy and Advanced Surgical Technologies**  
   Richard M. Satava  
   39

5  **Robotic Applications in Surgical Oncology**  
   Scott J. Belsley  
   47

6  **Laparoscopy and Malignancy – General Aspects**  
   Shigeru Tsunoda and Glyn G. Jamieson  
   59

7  **Laparoscopy and Immunology**  
   Michael J. Grieco and Richard Larry Whelan  
   69

8  **Pneumoperitoneum and Its Effects on Malignancy**  
   Alan T. Lefor and Atsushi Shimizu  
   83

9  **Laparoscopy in the Elderly**  
   Michael Ujiki and Nathaniel Soper  
   97

10  **Transluminal Surgery: Is There a Place for Oncological Procedures?**  
    Patricia Sylla and David W. Rattner  
    107
Part II  Special Topics: Cancer of the Esophagus and the Gastro-Esophageal Junction

11  Cancer of the Esophagus and the Gastroesophageal Junction: Two-Cavity Approach ........................................... 125
Christopher R. Morse, Omar Awais, and James D. Luketich

12  Cancer of the Esophagus and the Gastroesophageal Junction: Transhiatal Approach ........................................... 137
Lee Swanstrom and Michael Ujiki

Part III  Special Topics: Cancer of the Stomach

13  Laparoscopic Distal Gastrectomy – LADG ................................... 149
Mutter Didier, O.A. Burckhardt, and Perretta Silvana

14  Laparoscopic Total Gastrectomy – LATG .................................. 159
Seigo Kitano, Norio Shiraishi, Koji Kawaguchi, and Kazuhiro Yasuda

15  Endoluminal Procedures for Early Gastric Cancer .................. 167
Brian J. Dunkin and Rohan Joseph

Part IV  Special Topics: Small Bowel

16  Laparoscopic Management of Small Bowel Tumors ............... 183
Miguel Burch, Brian Carmine, Daniel Mishkin, and Ronald Matteotti

Part V  Special Topics: Cancer of the Colon and Rectum

17  Right Hemicolecction and Appendix ..................................... 199
Antonio M. Lacy

18  Left Hemicolecction and Sigmoid Colon .............................. 219
Joel Leroy, Ronan Cahill, and Jacques Marescaux

19  Laparoscopic Rectal Procedures ................................. 235
Rolv-Ole Lindsetmo and Conor P. Delaney

Part VI  Special Topics: Cancer of the Hepato-Biliary System

20  General Considerations .................................................. 253
Jonathan P. Pearl and Jeffrey L. Ponsky

21  Liver: Nonanatomical Resection ....................................... 263
Fumihiko Fujita, Susumu Eguchi, Yoshitsugu Tajima, and Takashi Kanematsu
22 Liver – Anatomical Liver Resections ........................................ 273
    Bruto Randone, Ronald Matteotti, and Brice Gayet

23 Cancer of the Gallbladder and Extrahepatic Bile Ducts ............ 297
    Andrew A. Gumbs, Angel M. Rodriguez-Rivera, and John P. Hoffman

Part VII Special Topics: Spleen

24 Spleen: Hematological Disorders ........................................ 311
    Eduardo M. Targarona, Carmen Balague, and Manuel Trias

Part VIII Special Topics: Endocrinology

25 Cancer of the Thyroid ....................................................... 331
    Prashant Sinha and William B. Inabnet

26 Cancer of the Parathyroid .................................................. 355
    Paolo Miccoli, Gabriele Materazzi, and Piero Berti

27 Cancer of the Pancreas: Distal Resections and Staging
    of Pancreatic Cancer .................................................... 363
    Vivian E. Strong, Joshua Carson, and Peter J. Allen

28 Cancer of the Pancreas: The Whipple Procedure ...................... 379
    Michael L. Kendrick

29 Cancer of the Adrenal Gland ............................................. 389
    Ronald Matteotti, Luca Milone, Daniel Canter, and Michel Gagner

Part IX Special Topics: Gynecology

30 Minimally Invasive Management of Gynecologic Malignancies .... 407
    Farr Reza Nezhat, Jennifer Eun Sun Cho, Connie Liu,
    and Gabrielle Gossner

Part X Special Topics: Urology

31 Cancer of the Kidney ....................................................... 447
    Daniel J. Canter and Robert G. Uzzo

32 Cancer of the Prostate ..................................................... 465
    Gino J. Vricella and Lee E. Ponsky

33 Cancer of the Urinary Bladder ........................................... 487
    Kevin P. Asher and David S. Wang
Part XI  Special Topics: Pediatrics

34  Minimally Invasive Management of Pediatric Malignancies ............................................. 501
    Arjun Khosla, Todd A. Ponsky, and Steven S. Rothenberg

Part XII  Special Topics: Lung and Mediastinum

35  Minimally Invasive Management of Intra-Thoracic Malignancies ....................................... 515
    Philip A. Linden

Index ............................................. 533
Minimally Invasive Surgical Oncology
State-of-the-Art Cancer Management
Matteotti, R.; Ashley, S.W. (Eds.)
2011, XXXIII, 546 p. 269 illus., 244 illus. in color. With DVD., Hardcover
