Table of Contents

Overview and Award Papers

Overview Paper
Overview of RoboCup-98
Minoru Asada, Manuela Veloso, Milind Tambe, Itsuki Noda, Hiroaki Kitano, and Gerhard K. Kruetzschmar (Osaka Univ., Japan; Carnegie Mellon Univ., USA; USC, USA; Electrotechnical Laboratory, Japan; Sony CSL, Japan; University of Ulm, Germany)

Scientific Challenge Award Papers

Character Design for Soccer Commentary
Bindest and Sean Luke (Sony CSL, Japan and University of Maryland, USA)

Automatic Soccer Commentary and RoboCup
Hitoshi Matsubara, Ian Frank, Kumiyo Tanaka-Ishii, Itsuki Noda, Hideyuki Nakashima, and Kōiti Hashida (ETL, Japan)

Rocco: A RoboCup Soccer Commentator System
Dirk Voelz, Elisabeth André, Gerd Herzog, and Thomas Rist (DFKI, Germany)

Champion Teams

The CMUnited-98 Champion Simulator Team
Peter Stone, Manuela Veloso, and Patrick Riley (CMU, USA)

The CMUnited-98 Champion Small-Robot Team
Manuela Veloso, Michael Bowling, Sorin Achin, Kwan Han, and Peter Stone (CMU, USA)

The CS Freiburg Robotic Soccer Team: Reliable Self-Localization, Multirobot Sensor Integration, and Basic Soccer Skills
Jens-Steffen Gutmann, Wolfgang Hatzack, Immanuel Herrmann, Bernhard Nebel, Frank Rittinger, Augustinus Topor, Thilo Weigel, and Bruno Welsch (Albert-Ludwigs-Universität Freiburg, Germany)

Technical Papers

Infrastructure
The Survey of RoboCup '98: Who, How and Why
Igor M. Verner (Technion-Israel Institute of Technology, Israel)

How to make a Challenging AI Course Enjoyable Using the RoboCup Soccer Simulation System
Silvia Coradeschi and Jacek Malec (Linköping University, Sweden)
VIII Table of Contents

A Quadruped Robot for RoboCup Legged Robot Challenge in Paris '98
Masahiro Fujita, Stephanie Zreben, Hiroaki Kitano (Sony, Japan) ........ 125

Robot Soccer with LEGO Mindstorms
Henrik Hautop Lund and Luigi Pagliarini (Univ. of Aarhus, Denmark) ........ 141

Basic Skill

Ball-Receiving Skill Dependent on Centering in Soccer Simulation Games
Kazuki Maeda, Akinori Koshetsu, and Tomoichi Takahashi (Chubu Univ., Japan) ........ 152

The Priority/Confidence Model as a Framework for Soccer Agents
Jan Lubbers and Rogier R. Spaans (University of Amsterdam, The Netherlands) ........ 162

A User Oriented System for Developing Behavior Based Agents
Paul Sercrri, Silvia Coradeschi, and Anders Törne (Linköping University, Sweden) ........ 173

Teamwork and Evaluation

From Play Recognition to Good Plays Detection - Reviewing RoboCup 97 Teams from Logfile -
Tomoichi Takahashi and Tadashi Naruse (Chubu Univ., Japan) ........ 187

Inductive Verification and Validation of the KULRoT RoboCup Team
Kurt Driesseus, Nico Jacobs, Nathalie Cassement, Patrick Monsieurs and Luc De Raedt (Katholieke Univ. Leuven, Belgium) ........ 193

Layered, Resource-Adaptive Agents in the RoboCup Simulation
Christoph G. Jung (Universität des Saarlandes & DFKI GmbH, Germany) ........ 207

A Description-Processing System for Soccer Agents
Nobuhito Ito, Kouichi Nakagawa, Xiaoyong Du, and Naohiro Ishii (Nagoya Institute of Technology, Japan) ........ 221

Using an Explicit Teamwork Model and Learning in RoboCup
Stacy Marsella, Jafar Adibi, Yaser Al-Onazi, Ali Erdem, Randall Hill, Gal A. Kaminka, Zhuo Qiu, Milind Tambe (USC, USA) ........ 237

A Hybrid Agent Model, Mixing Short Term and Long Term Memory Abilities. An Application to RoboCup Competition
Fausto Tortorelo and Chaterine Garbay (Albert Bonniot Institute, France and Univ. di Palermo, Italy) ........ 246

Learning and Evolution

Team-Partitioned, Opaque-Transition Reinforcement Learning
Peter Stone and Manuela Veloso (CMU, USA) ........ 261

Cooperative Behavior Acquisition in a Multiple Mobile Robot Environment by Co-evolution
Eiji Uchibe, Masateru Nakamura, and Minoru Asada, (Osaka University, Japan) ........ 273
Table of Contents

IX

Real Robot Perception, Mechanism, and Integration

Integrated Reactive Soccer Agents

Wei-min Shen, Jafar Adibi, Rogelio Adoblati, Sriniv Lankasham, Hadi Moradi, Benham Salem, and Sheila Tejada (ISI USC, USA)

An Innovative Approach to Vision, Localization and Orientation Using Omnidirectional Radial Signature Analysis

Andrew R. Price and Trevor Jones (Deakin University, Australia)

An Application of Vision-Based Learning in RoboCup for a Real Robot with an Omnidirectional Vision System and the Team Description of Osaka University "Trackies"

Sho’ji Suzuki, Tatsunori Kato, Hiroshi Ishizuka, Yasutake Takahashi, Eiji Uchibe, and Minoru Asada (Osaka Univ., Japan)

The RoboCup-NAIST: A Cheap Multisensor-Based Mobile Robot with On-Line Visual Learning Capability

Takayuki Nakamura, Kazunori Terada, Atsushi Shibata, and Hideo Takada (NAIST, Japan)

Team Description

Simulation

Andhill-98: A RoboCup Team which Reinforces Positioning with Observation

Tomohito Andou (NEC, Japan)

Evolving Team Darwin United

David Andre and Astro Teller (UC Berkeley, USA and CMU, USA)

UBU: Utility-Based Uncertainty Handling in Synthetic Soccer

Magnus Bonau, Helena Aberg, Asa Ahman, Jens Andreasen, Mats Danielson, Carl-Gustaf Jansson, Johan Kummeneje, Harko Verhagen, Johan Waller (SU/KTH, Sweden)

AT Humboldt in RoboCup-98

Pascal Gugenberger, Jan Wendler, Kay Schröter, and Hans-Dieter Burkhard (Humboldt University Berlin, Germany)

Individual Tactical Play and Pass with Communication between Players - Team Descriptions of Team Miyazaki

Harakazu Igarashi, Shoyo Kose and Masatoshi Miyahara (Kinki Univ., Japan)

UFSC-team: A Cognitive Multi-Agent Approach to the RoboCup'98 Simulator League

Augusto Cesar Pinto Loureiro da Costa and Guilherme Bittencourt (Universidade Federal de Santa Catarina, Brazil)
Table of Contents

Description of Team Erika ........................................ 377
Takeshi Matsumura (Waseda Univ., Japan)

Getting Global Performance through Local Information in PaSo-Team'98 ............. 384
E. Pagello, F. Montesello, F. Garelli, F. Candon, P. Chiofello and S. Griggio (Padua University, Italy; Inst. LADSEB, Italy; Univ. of Venice, Italy)

A Direct Approach to Robot Soccer Agents: Description for the Team MAINZ ROLLING BRAINS Simulation League of RoboCup'98 ........................................ 390
Daniel Polani, Stefan Weber, and Thomas Uthmann (Johannes Gutenberg-Universität, Germany)

CAT Finland: Executing Primitive Tasks in Parallel ........................................ 396
Jukka Riekkki, Jussi Pajala, Antti Tikkanen, and Juha Rining (University of Oulu, Finland)

A Multi-level Constraint-Based Controller for the Dynamo98 Robot Soccer Team .......... 402
Yu Zhang and Alan K. Mackworth (UBC, Canada)

Real Robot Small-Size League

The small league RoboCup team of the VUB AI-Lab ........................................ 410
Andreas Birk, Thomas Walle, Tony Belpaeme, Johan Parent, Tom De Vlaminck, and Holger Kenn (Vrije Universiteit Brussel, Belgium)

CIIPS Glory - Soccer Robots with Local Intelligence ......................................... 416
Thomas Brauns (The Univ. of Western Australia, Australia)

The Cambridge University Robot Football Team Description ................................. 422
A. Rowstron, B. Bradshaw, D. Crosby, T. Edmonds, S. Hodges, A. Hopper, S. Lloyd, J.Wang and S. Wray (Cambridge Univ., UK)

UQ RoboRoos: Preliminary Results for a Robot Soccer Team ................................ 428
Gordon Wyrth, Brett Browning, and Ashley Tews (University of Queensland, Australia)

Real Robot Middle-Size League

ISocRob - Team Description ........................................................................... 434
Pedro Aparicio, Rodrigo Ventura, Pedro Lima, and Carlos Pinho-Ferreira (ISR/IST, Portugal)

Real MagiCol 98: Team Description and Results ................................................. 440
E. González, H. Loaiza, A. Sures, C. Morenoet (Universidad d’Evry Val d’Essonne - LaMI, Colombia)

Agilo RoboCuppers: RoboCup Team Description ............................................. 446
Michael Klupsch, Maximilian Liechtnhaus, Christoph Zierl, Ivan Laptev, Thorsten Bandlow, Marc Grimme, Ignaz Kellere, Fabian Schwarz (Technische Universität München, Germany)
# Table of Contents

The Ulm Sparrows: Research into Sensorimotor Integration, Agency, Learning, and Multiagent Cooperation

Gerhard K. Kraetzschmar, Stefan Enderle, Stefan Sablatnoeg, Thomas Boss, Mark Detlinger, Hans Brazmayer, Heiko Folkerts, Markus Klingler, Dominik Maschke, Gerd Mayer, Markus Mueller, Alexander Neubeck, Marcus Rüttler, Heiner Seidl, Robert Woerz, Guenther Palm (University of Ulm, Germany)

ART Azzurra Robot Team

Daniele Nardi, Giorgio Clemente and Enrico Pagello (Univ. "La Sapienza", Italy)

Design and Evaluation of the T-Team of the University or Tuebingen for RoboCup'98

Michael Plagge, Boris Diebold, Richard Guenther, Joern Ihlenburg, Dirk Jung, Keyan Zahedi, and Andreas Zell (W.-Schickard-Institute for Computer Science, Tuebingen, Germany)

Team Description of the GMD RoboCup-Team

UltrON United: Cooperative Team Play Based on Communication

Karulaka Yokota, Koichi Otsuki, Nobuyuki Watanabe, Akihiro Matsumoto, Daisuke Koyama, Tatsuya Ishikawa, Kuniki Kawabata, Hayato Kaetlu, and Hajime Asama (Utsunomiya Univ., Toyo Univ., and RIKEN, Japan)

## Legged robot league

Quadruped Robot Guided by Enhanced Vision System and Supervision Modules

Vincent Hugel, Patrick Bonnin, Jean Christophe Bourmannou, Didier Solheid, Pierre Blazevic, and Dominique Dubhat (U. V. S. Q., France)

The CM Trio-98 Sony Legged Robot Team

Manuela Veloso and William Uther (CMU, USA)

BabyTigers-98: Osaka Legged Robot Team

Noriaki Mitsuhashi, Minoru Asada, and Chizuko Mishima (Osaka Univ., Japan)

Author Index
RoboCup-98: Robot Soccer World Cup II
Asada, M.; Kitano, H. (Eds.)
1999, XI, 514 p. 250 illus., Softcover
ISBN: 978-3-540-66320-1
