Table of Contents

Keynote Speech

BIO/COM MIXING WATER WITH FIRE ................................................................. 1
Dennis Tsichritzis

Panel

WHY IS IT SO DIFFICULT TO INTRODUCE RE RESEARCH RESULTS INTO MAINSTREAM RE PRACTICE? ................................................................. 7
Moderators: Hermann Kaindl, John Mylopoulos

Web-Based Information Systems and Services

ADAPTIVE AND DYNAMIC SERVICE COMPOSITION IN eFLOW .................. 13
Fabio Casati, Ski Ilnicki, LiJie Jin, Vasudev Krishnamoorthy, Ming-Chien Shan

TOWARDS EXTENSIBLE INFORMATION BROKERS BASED ON XML ............ 32
Jianguo Lu, John Mylopoulos, Jamie Ho

ADVERTISING DATABASE CAPABILITIES FOR INFORMATION SHARING ........ 47
Suzanne M. Embury, Jianhua Shao, W. Alex Gray, Nigel Fishlock

A PERSONAL ASSISTANT FOR WEB DATABASE CACHING .......................... 64
Beat Signer, Antonia Erni, Moira C. Norrie

EXTENDING A CONCEPTUAL MODELLING APPROACH TO WEB APPLICATION DESIGN ................................................................. 79
Jaime Gómez, Cristina Cachero, Oscar Pastor

EFFICIENT DISTRIBUTED WORKFLOW MANAGEMENT BASED ON VARIABLE SERVER ASSIGNMENTS ........................................ 94
Thomas Bauer, Peter Dadam

* BIO stands for Biology, Biochemistry, Biotechnology, etc.
COM stands for Computer, Communication, Computability, Complexity, etc.

1 Requirements Engineering
Workflow Models and Systems

A Logical Framework for Exception Handling in ADOME Workflow Management System ................................... 110
Dickson Chiu, Qing Li, Kamalakar Karlapalem

Controlled Flexibility in Workflow Management .................................................. 126
Justus Klingemann

A Formal Model for Business Process Modeling and Design .................................... 142
Manolis Koubarakis, Dimitris Plexousakis

Patterns and Components

Conceptual Patterns for Reuse in Information Systems Analysis ............................... 157
Petia Wohed

Evaluating a Pattern Approach as an Aid for the Development of Organisational Knowledge: An Empirical Study ......................................................... 176
Colette Rolland, Janis Stirna, Nikos Prekas, Peri Loucopoulos, Anne Persson, Georges Grosz

Specifying Processes with Dynamic Life Cycles .................................................... 192
Rick van Rein

Enterprise Application Integration

Design Principles for Application Integration .......................................................... 212
Paul Johannesson, Erik Perjons

CHAOS: An Active Security Mediation System ....................................................... 232
David Liu, Kincho Law, Gio Wiederhold

Modeling and Composing Service-Based and Reference Process-Based Multi-enterprise Processes ......................................................... 247
Hans Schuster, Dimitrios Georgakopoulos, Andrzej Cichocki, Donald Baker

The Information Systems Development Process

Gossip: An Awareness Engine for Increasing Product Awareness in Distributed Development Projects ......................................................... 264
Babak A. Farshechian

Databases and Data Warehousing

A Model for Data Warehouse Operational Processes .................................................446
Panos Vassiliadis, Christoph Quix, Yannis Vassiliou, Matthias Jarke

Temporally Faithful Execution of Business Transactions ........................................462
Werner Obermair, Michael Schrefl

Modelling and Optimisation Issues for Multidimensional Databases ......................482
Panos Vassiliadis, Spiros Skiadopoulos

Investigations into Industrial Processes

Managing the Software Process in the Middle of Rapid Growth:
A Metrics Based Experiment Report from Nokia.....................................................498
Tapani Kilpi

The Impacts of Electronic Commerce in the Automobile Industry:
An Empirical Study in Western Australia ..............................................................509
Peter Marshall, Roger Sor, Judy McKay
