Building and Implementing an eHealth Strategy: is there a Good Recipe for Baltic Countries? .................................................. 1
A. Lukosevicius

Biomedical Engineering Program on the Internet for Worldwide Use.................................................................................... 5
J.A. Malmivuo, J.J. Nousiainen and A. Kybartaitė

Biomaterials and Tissue Engineering

The Modification of Titanium Dioxide MOCVD Coating in TiAlNb after Immersion in Artificial Saliva......................... 8
E. Aldea, M.M. Dicu, A. Gleizes and I. Demetrescu

Osteogenesis on Surface Selective Laser Sintered Biodegradable Scaffolds ................................................................. 12

Investigation of the Bone Cartilage Interface by CLSM........................................................................................................ 16
J. Bossert, T. Keller

Improving Titanium Biocompatibility Manipulating Surface Porosity .................................................................................... 19
D. Ionita and D. Iordachescu

Electrically Charged Hydroxyapatite Enhances Immobilization and Proliferation of Osteoblasts .................................. 23
Yu. Dekhtyar, N. Polyaka and R. Sammons

Titanium Dioxide MOCVD Coating on CoCr Alloy and its Properties in Compare with Phosphate Coatings ............... 26
M.M. Dicu, A. Gleizes and I. Demetrescu

Plasma Polymer Coating of Titanium for Improved Bone Implants ...................................................................................... 30
H.-G. Neumann, A. Ohl, K.-D. Weltmann

Silk-Based Scaffold for Ligament Tissue Engineering ........................................................................................................ 34
H. Liu, H. Fan, E.J.W. Wong, S. Lok Toh, J.C.H. Goh

Influence of Hydrogenated Calcium Phosphate Surface on Potential of Stromal Stem Cells in Situ ............................ 38
A.V. Karlov, I.A. Khlusov, Y. Dekhtyar, N. Polyaka

The Influence of Cultivation Conditions on the Proliferation and Differentiation of Rat Bone Marrow
Multipotent Mesenchymal Stromal Cells ................................................................................................................................. 41
G. Krievina, N. Bezborodovs, G. Makarenkova, S. Nikulsins, Z. Krumina, D. Babarikins

Human Blood Cells Affected by Hydroxyapatite Coated Titanium ...................................................................................... 45
A. Leice, Y. Dekhtyar, N. Britzina, L. Arabere and V. Arhipovich

Development of Biomorphic SiC Ceramics for Biomaterial Purposes .................................................................................. 48
J. Locs, L. Berzina-Cimdina and A. Zhurinsh

Release of Quaternary Ammonium Antimicrobial Compounds from Acrylic Bone Cement ........................................ 52
J.W. Nicholson, M. Mathey and V. Surana

The Evaluation of Quality and Selection of TiNi Shape Memory Alloy for Medical Purpose ...................................... 56
E.G. Novikova, S.A. Atroshenko

Ions Release from Ti Implant Alloys in Simulated Bioliquids .......................................................................................... 60
M. Prodana, M. Caposi, D. Iordachescu

Empirical Mode Decomposition on Mismatch Negativity
F. Cong, X. Xu, T. Ristaniemi and H. Lyytinen .......................................................... 206

Measurement and Control of Ultra-Low Liquid Flowrates for Drug Delivery Application
C. Damiani, S. Klein, D. Wattig and B. Nestler .......................................................... 210

Hardware Embedded System on a Chip for the Normal ECG Recognition
A.C. Dimopoulos, C. Pavlatos, G. Papakonstantinou .................................................. 213

Slit-lamp Based Ocular Fluorometry Scanning
J.P. Domingues, M. Alberto, C. Correia, J. Cunha-Vaz .............................................. 217

Epicardial Acceleration Signal Measured Using a Single Chip 3-axis Accelerometer
L.A. Fleischer, P.S. Halvorsen, L. Hoff, E. Fosse and O.J. Elle .................................. 221

Novel Conducting Polymer Composite pH Sensors for Medical Applications
E.I. Gill, A. Arshak, K. Arshak and O. Korostynska .................................................. 225

Future Trends in Robotic Neurosurgery
T. Haidegger, L. Kovacs, G. Fordos, Z. Benyo and P. Kazanzides .................................. 229

Development and Evaluation of One Arm Electrode Based ECG Measurement System
M. Hannula, H. Hinkula and J. Jauhiainen ................................................................. 234

Diagnosing Acute Liver Graft Rejection: Experimental Application of an Implantable Telemetric Impedance Device in Native and Transplanted Porcine Livers
J.H. Harms, A. Schneider, M. Tautenhahn, J. Henke and R. Busch ............................. 238

Augmentation Index in Different Severity Coronary Heart Disease Patients
I. Hlimonenko, K. Meigas, M. Viigimaa and K. Temitski ........................................... 242

Photoplethysmographic Measurements and Analysis
M.J. Huotari, V. Lantto ................................................................................................. 245

Noninvasive Measurement of the Pressure Gradient between the Radial and Finger Arteries
K. Jagomägi, R. Raamat, J. Talts and U. Ragun ........................................................... 248

A Multicenter Study of Removed Uric Acid Estimated by Ultra Violet Absorbance in the Spent Dialysate
J. Jerotskaja, F. Uhlin and I. Fridolin .......................................................................... 252

Comparison of Tibial Nerve Somatosensory Evoked Potential Signal-to-Noise Ratios During Anaesthesia

Phase Coupling in EEG Burst Suppression during Propofol Anesthesia
F.E. Kapucu, T. Lipping, V. Jäntti and A.-M. Huotari ................................................... 260

Rhythmic Fluctuations in Intracellular Mg2+ in Spontaneously Beating Cultured Cardiac Myocytes
K. Kawahara, R. Sato, D. Matsuyama and S. Iwabuchi ................................................ 264

Importance of Nonlinear Signal Processing in Biomedicine
W. Klonowski ............................................................................................................. 268

An Intelligent Method for Identifying Cardiac Cycles from Tracheal Sounds during Sleep
A. Kulkas, E. Huupponen and S.-L. Himanen ............................................................. 270

Ultrasonic Non-invasive Investigation of Arterial Elasticity
I. Kapciunas, A. Kopustinskas .................................................................................... 274

EEG-FMRI Ballistocardiogram Removal: A New Non-linear Dynamic Time Warping Approach
A.J.L. Kustra, J.M. Fernandes and J.P.S. Cunha ......................................................... 278

Local Filtered QRS Duration during Sodium-channel Blockade in Brugada Syndrome Patients
Development of Flexible Thin Film Microelectrode Arrays for Neural Recordings .................................................. 286
S. Myllymaa, K. Myllymaa, K. Korhonen, K. Djupsund, H. Tanila and R. Lappalainen

Prediction of Epileptic Seizures for On-Demand Vagus Nerve Stimulation ................................................................. 290
K.R. Nielsen, C. Sevcencu, A. Rasmussen and J.J. Struijk

Apparatus for Short-Wave Inductothermy “Magnetotherm” .......................................................... 294

What Conclusions does Rapid Image Classification by Eye Movements Provide for Machine Vision? ....................... 299
R. Paeglis, A. Kotelnikovs, A. Podniece and I. Lacis

Analysis of Foveation Sequences in Congenital Nystagmus.............................................................. 303
G. Pasquariello, P. Bifulco, M. Cesarelli, M. Romano, A. Fratini

Numerical Models of Skin Conductivity Changes during Electroporation........................................................... 307
N. Pavšelj and D. Miklavčič

An Experimental Study of PPG Probe Efficiency Coefficient Determination on Human Body......................... 311
K. Pilt, K. Meigas, M. Rosmann, J. Lass and J. Kaik

Non-linear Assessment of Heart Rate Variability in Ovo-lactovegetarians, Vegans and Omnivores during Oral Glucose Tolerance Test .............................................................. 315
T. Princi, I. Fabbro, D. Peterec, M. Fonda, L. Cattin and A. Accardo

Photoplethysmography Analysis of Artery Properties in Patients with Cardiovascular Diseases .......................... 319
U. Rubins, A. Grabovskis, J. Grube and I. Kukulis

Dialysis Adequacy On-line Monitoring Using DiaSens Optical Sensor: Technique and Clinical Application .............. 323
A. Scherbakov, I. Fridolin

Effects of ROI Size on Correlation between ROISR and SNR .............................................................................. 327
L. Sinkkila, J. Vaisanen, O. Vaisanen and J. Hyttinen

Effect of Microwave Radiation on EEG Coherence ...................................................................................... 331
A. Suhhova, M. Bachmann, K. Aadamsso, Ü. Võhma, J. Lass and H. Hinrikus

Stress Stages and Changes on EEG by low-level Physical (EMF) and Chemical Stressors .................................. 335
V. Tuulik, J. Lass and M. Bachmann

Body Surface Potential Mapping for Noninvasive Ischemia Detection ......................................................... 339
M. Tysler, P. Kneppo, V. Rosik, S. Karas, E. Heblakova and J. Muzik

Effect of Lead Orientation on Bipolar ECG Measurement ........................................................................ 343
J. Vaisanen, M. Puurtinen and J. Hyttinen

On the Mechanism of Low Frequency Bioelectromagnetism .................................................................................. 347
J. Valdmanis, A. Cipijs

The Effect of Electrode Size on Cortical EEG Sensitivity Distributions .............................................................. 350
K. Wendel and J. Malmivuo

Measurement of Dissolved Oxygen with Lab-on-Chip Systems ........................................................................ 353
J. Wiest, M. Brischwein, H. Grothe and B. Wolf

Biomedical Optics and Lasers

Effects of Optical Radiation on the Healing of Bone Defect in Rabbits ................................................................. 357
Yu. Dehktyar, A. Katahev, J. Katasheva and I. Özolanta
Transmyocardial Laser Revascularization in Patients with Diffuse Coronary Artery Disease ........................................ 361
E. Freibls, R. Lacs and U. Strazdins

Evaluation of a Fiber-Optic Based Pulsed Laser System for Fluorescence Spectroscopy ........................................ 363
N. Haj-Hosseini, S. Andersson-Engels and K. Wårdell

Effect of Light Scattering Simulation in the Eye on Different Color Stimuli Perception ........................................ 367
G. Ikaunieks and M. Ozolinsh

Diffuse Reflectance Spectroscopy During Experimental Radio Frequency Ablation ........................................ 371
J.D. Johansson, A. Zerbinati and K. Wårdell

Closed-Feedback Control of Laser Soldering of Rat Skin Using Diode Laser ........................................ 375
M.E. Khosroshahi, M.S. Nourbakhsh, S. Saremi and F. Tabatabae

Characterization of Input-Output Relations in Single Neurons using Spatiotemporal Photo-stimulation .......... 378
M. Krumin and S. Shoham

Sensor for Measurement of Wear in Total Hip Arthroplasty ........................................ 380
D. Mandat, M. Hrabovsky, V. Havranek, M. Pochmon, T. Rössler, J. Gallo

Effects of Static and Dynamic Modes on Laser Tissue Soldering: An In-vitro Study ........................................ 383
M.S. Nourbakhsh, M.E. Khosroshahi, S. Saremi and F. Tabatabae

Photoplethysmography Device for Detection of Changes in the Vasomotor Parameters of Small Laboratory Animals ........................................ 386
J. Puturskis, V. Veliks, M. Ozols, I. Švikis, R. Erts, J. Spigulis

Potentialities of Wear Measurement in Total Knee Arthroplasty ........................................ 390
M. Pochmon, T. Rössler, J. Gallo, M. Hrabovský, D. Mandát and V. Havránek

Optical Non-contact In-vitro Measurement of Total Hip Arthroplasty Wear ........................................ 393
T. Rössler, J. Gallo, M. Hrabovský, D. Mandát, M. Pochmon and V. Havránek

Spectroscopic Studies on Binding of Cationic Pheophorbide-a Derivative to Model Polynucleotides .......... 397

Healthcare Management, Education and Training

M. Bava, E. Danielli, A. Orsini, D. Tarticchio, L. Vecchi Brumatti, R. Zangrando, F. Zennaro and A. Accardo

Biotelemetry ........................................ 405
M. Cerny, M. Penhaker

Five Year Biomedical Engineering Curriculum – Experiences and Results from the First Eight Years .............. 409
K. Drømstrup and P. Elberg

Medical GRID and E-Learning in the Virtual Hospital ........................................ 413
G. Graschew, T.A. Roelofs, S. Rakowsky, P.M. Schlag

Luebeck’s International BME Master’s Program - Aim and Experiences ........................................ 417
S. Klein, T.M. Buzug and B. Nestler

Developing Media Rich Virtual Learning Material for Biomedical Engineering Education ...................... 421
A. Kybartaitė, J. Malmivuo and J. Nousiainen

Development of the Biomedical Electronics Course for e-Learning ........................................ 425
T. Parve, R. Gordon and M. Min
Cataract Surgery Simulator for Medical Education & Finite Element/3D Human Eye Model ........................................ 429
J.F. Perez, R. Barea, L. Boquete, M.A. Hidalgo, M. Dapena, G. Vilar, I. Dapena

COMSOL Multiphysics in Undergraduate Education of Electromagnetic Field Biological Interactions ..................... 433
P. Togni, M. Cifra and T. Dřížďal

Actual State of Medical Physics and Biomedical Engineering Education in Poland .................................................... 437
M. Wasilewska-Radwanska and T. Palko

The Practice for Medical Physics and Engineering Students .......................................................................................... 439
A. Balodis, V. Zemite

Information Technology to Health

Scientific Research, Telemedicine and Health Services: the “Burlo Garofolo” Hospital Web Portal .................................. 442
M. Bava, A. Zambon, L. Vecchi Brumatti, R. Zungrando, A. Accardo and G. Tamburlini

A Neuro-Fuzzy Approach to the Classification of Fetal Cardiotocograms .................................................................. 446
