**Part I  Methodology** ................................................................. 1

1  **Lipofuscin of the Retinal Pigment Epithelium** .......................... 3  
   *Janet R. Sparrow*  
   1.1 Introduction ........................................................................... 3  
   1.2 The Source of RPE Lipofuscin .............................................. 3  
   1.3 Characteristics of Known RPE Lipofuscin Pigments ............... 4  
   1.4 Adverse Effects of RPE Lipofuscin ....................................... 8  
   1.5 Modulators of RPE Lipofuscin Formation .............................. 9  
   1.6 Summary ............................................................................. 10  
   References ................................................................................ 11  

2  **Origin of Fundus Autofluorescence** ...................................... 17  
   *François Delori, Claudia Keilhauer, Janet R. Sparrow, Giovanni Staurenghi*  
   2.1 Introduction ........................................................................... 17  
   2.2 Spectrofluorometry of Fundus Autofluorescence (FAF) .......... 18  
   2.3 Imaging of FAF ..................................................................... 18  
   2.4 Influence of Crystalline Lens Absorption ............................... 19  
   2.5 Spatial Distribution of FAF ................................................... 19  
   2.6 Spectral Properties of FAF ..................................................... 21  
   2.7 Age Relationship of FAF ....................................................... 23  
   2.8 Near-Infrared FAF .................................................................. 24  
   2.9 Conclusions .......................................................................... 25  
   References ................................................................................ 25  

3  **Fundus Autofluorescence Imaging with the Confocal Scanning Laser Ophthalmoscope** .................................................. 31  
   *Steffen Schmitz-Valckenberg, Fred W. Fitzke, Frank G. Holz*  
   3.1 The Confocal Scanning Laser Ophthalmoscope (cSLO) .......... 31  
   3.2 FAF Imaging with the cSLO .................................................... 31  
   3.3 Combination of cSLO Imaging with Spectral-Domain Optical Coherence Tomography ........................................ 34  
   References ................................................................................ 36
How To Obtain the Optimal Fundus Autofluorescence Image with the Confocal Scanning Laser Ophthalmoscope

Steffen Schmitz-Valckenberg, Vy Luong, Fred W. Fitzke, Frank G. Holz

4.1 Basic Considerations
4.2 Reflectance Before Autofluorescence Imaging
4.3 Image Alignment and Calculation of Mean Image
4.4 Normalizing of FAF Image
4.5 Standardized Protocol for FAF Imaging
4.6 Pitfalls
4.6.1 Focus
4.6.2 Detector Sensitivity
4.6.3 Distance of Laser Scanning Camera to Cornea
4.6.4 Illumination
4.6.5 Image Orientation
4.6.6 Eye Movements
4.7 Media Opacities
