## Contents

Introduction to the Lagomorpha ................................................. 1  
*Joseph A. Chapman and John E.C. Flux*

**Palaeontology and Evolution**

Prehistoric and Historic Artificial Dispersal of Lagomorphs  
on the Mediterranean Islands .................................................. 13  
*Marco Masseti and Anna M. De Marinis*

The Lagomorph Fossil Record and the Origin of the European Rabbit ........... 27  
*Nieves Lopez-Martinez*

Inferring the Evolutionary History of the European Rabbit  
(*Oryctolagus cuniculus*) from Molecular Markers ...................... 47  
*Nuno Ferrand*

Phylogenetic Aspects of Nuclear and Mitochondrial Gene-Pool  
Characteristics of South and North African Cape Hares  
(*Lepus capensis*) and European Hares (*Lepus europaeus*) ............ 65  
*Franz Suchentrunk, Hichem Ben Slimen, and Hakan Sert*

**Population Ecology and Dynamics**

The World of Pikas .............................................................. 89  
*Andrew T. Smith*

for an Alpine Lagomorph, the Collared Pika (*Ochotona collaris*) .......... 103  
*Shawn F. Morrison and David S. Hik*

Weather Effects on Reproduction, Survival, and Body Mass of  
European Rabbits in a Temperate Zone Habitat .......................... 115  
*Heiko G. Rödel and Dietrich von Holst*

Ecosystem Engineering Effects of European Rabbits  
in a Mediterranean Habitat ................................................... 125  
*Lucía Gámez, Antonio López-Pintor, José M. de Miguel, Germán Alonso,  
Marta Rueda, Salvador Rebolle, and Antonio Gómez-Sal*
Forest-Fire Regime: The Missing Link to Understand Snowshoe Hare Population Fluctuations? ................................. 141
Jean Ferron and Martin-Hugues St-Laurent

Introduced Lagomorphs as a Threat to “Native” Lagomorphs: The Case of the Eastern Cottontail (Sylvilagus floridanus) in Northern Italy ................................. 153
Anna Vidus Rosin, Nicola Gilio, and Alberto Meriggi

Testing Multiple Hypotheses to Identify Causes of the Decline of a Lagomorph Species: The New England Cottontail as a Case Study ........................................... 167

Physiology and Behaviour

Many Common Odour Cues and (at Least) One Pheromone Shaping the Behaviour of Young Rabbits ........................................... 189
Benôist Schaal, Gérard Coureaud, Anne-Sophie Moncomble, Dominique Langlois, and Guy Perrier

Mother-Young and Within-Litter Relations in the European Rabbit Oryctolagus cuniculus ........................................... 211
Amando Bautista, Margarita Martínez-Gómez, and Robyn Hudson

Fertility and Infertility in the European Hare Lepus europaeus in Australia ........................................... 225
Philip Stott, Stephen Harris, and Nicole Wight

A Review of Competition between Rabbits (Oryctolagus cuniculus) and Hares (Lepus europaeus) ........................................... 241
John E.C. Flux

Diseases

European Brown Hare Syndrome ........................................... 253
K. Frölich and A. Lavazza

How Many Caliciviruses are there in Rabbits? A Review on RHDV and Correlated Viruses ........................................... 263
Antonio Lavazza and Lorenzo Capucci

Geographic and Seasonal Variation in the Impact of Rabbit Haemorrhagic Disease on European Rabbits, Oryctolagus cuniculus, and Rabbit Damage in Australia ........................................... 279
Greg Mutze, Peter Bird, Brian Cooke, and Robert Henzell
Contents

Conservation and Management

Conservation of Endangered Lagomorphs ........................................... 297
Andrew T. Smith

Managing the European Rabbit: Converging Interests Between Australian
Research for Rabbit Control and European Research for their Conservation .... 317
Brian Cooke

Improving Rabbit Restocking Success: A Review of Field
Experiments in France ................................................................. 327
Jérôme Letty, Jacky Aubineau, and Stéphane Marchandeau

Recovering the Endangered Riparian Brush rabbit (Sylvilagus
bachmani riparius): Reproduction and Growth in Confinement
and Survival after Translocation .................................................. 349
Daniel F. Williams, Patrick A. Kelly, Laurissa P. Hamilton,
Matthew R. Lloyd, Elizabeth A. Williams, and James J. Youngblom

Conservation of Critically Endangered Lagomorphs:
The Tehuantepec Jackrabbit (Lepus flavigularis)
as an Example ................................................................. 363
Verónica Fariñas, Todd K. Fuller, Fernando A. Cervantes,
and Consuelo Lorenzo

A Review of the Biology and Conservation of the Amami Rabbit
(Pentalagus furnessi) ............................................................. 369
Fumio Yamada

Concluding Remarks

Overview of Lagomorph Research: What we have learned
and what we still need to do .................................................. 381
Klaus Hackländer, Nuno Ferrand, and Paulo C. Alves

Appendix

Lagomorph Species: Geographical Distribution
and Conservation Status ............................................................. 395
Paulo C. Alves and Klaus Hackländer

Subject Index ................................................................. 407
Lagomorph Biology
Evolution, Ecology, and Conservation
Alves, P.C.; Ferrand, N.; Hackländer, K. (Eds.)
2008, XVIII, 414 p. 78 illus., 3 illus. in color., Hardcover
ISBN: 978-3-540-72445-2
