
Contents

1 Metalearning: Concepts and Systems	1
2 Metalearning for Algorithm Recommendation: an Introduction	11
3 Development of Metalearning Systems for Algorithm Recommendation	31
4 Extending Metalearning to Data Mining and KDD	61
5 Combining Base-Learners	73
6 Bias Management in Time-Changing Data Streams	91
7 Transfer of Metaknowledge Across Tasks	109
8 Composition of Complex Systems: Role of Domain-Specific Metaknowledge	129
References	153
A Terminology	171
B Mathematical Symbols	173
Index	175

Metalearning

Applications to Data Mining

Brazdil, P.; Giraud Carrier, C.; Soares, C.; Vilalta, R.

2009, XI, 176 p. 53 illus., Hardcover

ISBN: 978-3-540-73262-4
