Contents

Part I  Introduction

1 The Ecosystem (Reserva Biológica San Francisco) 1
   E. Beck, F. Makeschin, F. Haubrich, M. Richter, J. Bendix, and C. Valerezo

2 Mountain Rain Forests in Southern Ecuador as a Hotspot of Biodiversity – Limited Knowledge and Diverging Patterns 15
   G. Brehm, J. Homeier, K. Fiedler, I. Kottke, J. Illig, N.M. Nöske, F.A. Werner, and S.-W. Breckle

3 The People Settled Around Podocarpus National Park 25
   P. Pohle

4 Ecuador Suffers the Highest Deforestation Rate in South America 37
   R. Mosandl, S. Günter, B. Stimm, and M. Weber

5 Methodological Challenges of a Megadiverse Ecosystem 41
   G. Brehm, K. Fiedler, C.L. Häuser, and H. Dalitz

Part II  Gradients in Ecosystem Analysis

6 Investigating Gradients in Ecosystem Analysis 49
   K. Fiedler and E. Beck

7 The Investigated Gradients 55
   E. Beck, R. Mosandl, M. Richter, and I. Kottke

Part III  The Altitudinal Gradient

Part III.1  Gradual Changes Along the Altitudinal Gradient

8 Climate 63
   J. Bendix, R. Rollenbeck, M. Richter, P. Fabian, and P. Emck

Part III.2 Processes Along and Within the Gradient

12 Water Relations ............................................. 193
   W. Wilcke, S. Yasin, K. Fleischbein, R. Goller, J. Boy, J. Knuth,
   C. Valarezo, and W. Zech

13 Nutrient Status and Fluxes at the Field and
   Catchment Scale ............................................. 203
   W. Wilcke, S. Yasin, K. Fleischbein, R. Goller, J. Boy, J. Knuth,
   C. Valarezo, and W. Zech

14 Biotic Soil Activities ............................................. 217
   S. Iost, F. Makeschin, M. Abiy, and F. Haubrich

15 Altitudinal Changes in Stand Structure and Biomass
   Allocation of Tropical Mountain Forests in Relation
   to Microclimate and Soil Chemistry ......................... 229
   G. Moser, M. Röderstein, N. Soethe, D. Hertel, and C. Leuschner

16 Stand Structure, Transpiration Responses in Trees and
   Vines and Stand Transpiration of Different Forest Types
   Within the Mountain Rainforest .............................. 243
   M. Küppers, T. Motzer, D. Schmitt, C. Ohlemacher, R. Zimmermann,
   V. Horna, B.I.L. Küppers, and T. Mette

17 Plant Growth Along the Altitudinal Gradient – Role of
   Plant Nutritional Status, Fine Root Activity, and
   Soil Properties .................................................. 259
   N. Soethe, W. Wilcke, J. Homeier, J. Lehmann, and C. Engels

Part III.3 Gradient Heterogeneities

Part III.3.A Spatial Heterogeneities

18 Spatial Heterogeneity Patterns – a Comparison Between
   Gorges and Ridges in the Upper Part of an Evergreen
   Lower Montane Forest .......................................... 267
   M. Oesker, H. Dalitz, S. Günter, J. Homeier, and S. Matezki

19 The Unique Purdiaeua nutans Forest of Southern Ecuador –
   Abiotic Characteristics and Cryptogamic Diversity ........ 275
   N. Mandl, M. Lehner, S.R. Gradstein, M. Kessler, M. Abiy,
   and M. Richter
Part III.3.B Temporal Heterogeneities

20 Climate Variability .................................................. 281
   J. Bendix, R. Rollenbeck, P. Fabian, P. Emck, M. Richter, and E. Beck

21 Growth Dynamics of Trees in Tropical Mountain Ecosystems .... 291
   A. Bräuning, J. Homeier, E. Cueva, E. Beck, and S. Günter

22 Temporal Heterogeneities – Matter Deposition from Remote Areas ........................................... 303
   R. Rollenbeck, P. Fabian, and J. Bendix

Part IV Gradients of Disturbance

Part IV.1 Natural Disturbance

23 Gap Dynamics in a Tropical Lower Montane Forest in South Ecuador ........................................ 311
   J. Homeier and S.-W. Breckle

24 Landslides as Important Disturbance Regimes – Causes and Regeneration ..................................... 319
   R.W. Bussmann, W. Wilcke, and M. Richter

Part IV.2 Disturbance by Human Activities

Part IV.2.A Planned Disturbance as Strategy for a Sustainable Use

25 Sustainable and Non-Sustainable Use of Natural Resources by Indigenous and Local Communities .............. 331
   P. Pohle and A. Gerique

26 Natural Forest Management in Neotropical Mountain Rain Forests – An Ecological Experiment .................. 347
   S. Günter, O. Cabrera, M. Weber, B. Stimm, M. Zimmermann,
   K. Friedler, J. Knuth, J. Boy, W. Wilcke, S. Iost, F. Makeschin,
   F. Werner, R. Gradstein, and R. Mosandl

Part IV.2.B Disturbance by Clearing the Forest

27 Permanent Removal of the Forest: Construction of Roads and Power Supply Lines ............................. 361
   E. Beck, K. Hartig, K. Roos, M. Preußing, and M. Nebel

28 Forest Clearing by Slash and Burn ...................................... 371
   E. Beck, K. Hartig, and K. Roos
Part V  Gradients of Regeneration

29  Gradients and Patterns of Soil Physical Parameters at Local, Field and Catchment Scales 375
B. Huwe, B. Zimmermann, J. Zeilinger, M. Quizhpe, and H. Elsenbeer

30  Visualization and Analysis of Flow Patterns and Water Flow Simulations in Disturbed and Undisturbed Tropical Soils 387
C. Bogner, S. Engelhardt, J. Zeilinger, and B. Huwe

31  Pasture Management and Natural Soil Regeneration 397
F. Makeschin, F. Haubrich, M. Abiy, J.I. Burneo, and T. Klinger

32  Succession Stages of Vegetation Regeneration: Secondary Tropical Mountain Forests 409
A. Martinez, M.D. Mahecha, G. Lischeid, and E. Beck

33  Reforestation of Abandoned Pastures: Seed Ecology of Native Species and Production of Indigenous Plant Material 417
B. Stimm, E. Beck, S. Günter, N. Aguirre, E. Cueva, R. Mosandl, and M. Weber

34  Reforestation of Abandoned Pastures: Silvicultural Means to Accelerate Forest Recovery and Biodiversity 431
M. Weber, S. Günter, N. Aguirre, B. Stimm, and R. Mosandl

35  Successional Stages of Faunal Regeneration – A Case Study on Megadiverse Moths 443
N. Hilt and K. Fiedler

Part VI  Synopsis

36  Gradients in a Tropical Mountain Ecosystem – a Synthesis 451
E. Beck, I. Kottke, J. Bendix, F. Makeschin, and R. Mosandl
