# Table of Contents

**Requirements for Adaptive Water Management** .............................................1  
Claudia Pahl-Wostl

**Eco-Complexity and Sustainability in China’s Water Management** 23  
Rusong Wang, Feng Li

**Integrated, adaptive and domainal water resources management** ......39  
Bruce A. Lankford

**Can adaptive management help us embrace the Murray-Darling Basin’s wicked problems?** .................................................................61  
Catherine Allan

**The NeWater Management and Transition Framework**  
- state and development process – ..........................................................75  
Claudia Pahl-Wostl, Jörn Möltgen, Eva Ebenhöh, Georg Holtz

**Groundwater protection in urban areas incorporating adaptive groundwater monitoring and management - Reconciliation of water engineering measures along rivers** ..............................................97  
Jannis Epting, Christian Regli, Peter Huggenberger

**Adaptability of International River Basin Regimes:**  
**Linkage Problems in the Rhine** .........................................................125  
Tun Myint

**Institutional elements for adaptive water management regimes.**  
**Comparing two regional water management regimes in the Rhine basin** .................................................................147  
Sabine Möllenkamp, Machiel Lamers, Eva Ebenhöh
Table of Contents

Intellectual history and current status of Integrated Water Resources Management: A global perspective.......................... 167
  Farhad G. Mukhtarov

A broadened view on the role for models in natural resource management: Implications for model development.................... 187
  Marcela Brugnach, Claudia Pahl-Wostl

Deliberation, negotiation and scale in the governance of water resources in the Mekong region............................................. 205
  Louis Lebel, Po Garden

Enhancing the Potential for Integrated Water Management in New Zealand through Adaptive Governance......................... 227
  Brett Painter, Ali Memon

How Social Networks Enable Adaptation to System Complexity and Extreme Weather Events........................................... 249
  Raul Lejano, Helen Ingram

Managing flood risk in the urban environment: linking spatial planning, risk assessment, communication and policy ............. 263
  Berry Gersonius, Chris Zevenbergen, Sebastian van Herk

Benchmarking in Dutch Urban Water Management: An Assessment.................................................................................. 277
  Pieter W.G. Bots

Adapting scale use for successful implementation of Cyclic Floodplain Rejuvenation in the Netherlands............................. 301
  Heleen Vreugdenhil, Jill Slinger, Emiel Kater

Current and future impacts of climate change on river runoff in the Central Asian river basins.......................................... 323
  Andre G. Savitskiy, Maja Schlüter, Raisa V. Taryannikova, Natalya A. Agaltseva, Viktor E. Chub

Adaptive and Integrated Management of Wastewater and Storm Water Drainage in Kolkata – Case Study of a Mega City............. 341
  Shivashish Bose

Adaptive and Integrated Water Management
Coping with Complexity and Uncertainty
Pahl-Wostl, C.; Kabat, P.; Möltgen, J. (Eds.)
2008, XIII, 440 p., Hardcover
ISBN: 978-3-540-75940-9
