Contents

Part I  Demographic Trends

1 Low Fertility in Europe in a Global Demographic Context  ............... 3
   Wolfgang Lutz and Vegard Skirbekk
   1.1 Introduction ................................................. 3
   1.2 The End of Population Growth in a Demographically
       Divided World .............................................. 4
   1.3 The Changing Global Distribution of Population
       and Human Capital ............................................ 8
   1.4 How Low Can Fertility Fall in Europe?  ......................... 10
   1.5 Three Mechanisms that May Cause
       a Downward Spiral in Future Birth Rates ..................... 13
   1.6 Conclusions ................................................ 17

Part II  The Impact of Demographic Developments on Key Indicators

2 Demography and Budget Consolidation: An Analysis and Possible
   Courses of Action ................................................ 23
   Johannes Meier and Ole Wintermann
   2.1 Introduction ................................................ 23
   2.2 Public Debt Monitor ........................................... 24
   2.3 Successful Consolidation: An International Comparison ......... 27
   2.4 Reform Measures on the Expenditure Side ....................... 27
   2.5 Reform Measures on the Revenue Side ........................ 28
   2.6 Institutional Changes in the Budget Process ..................... 28
   2.7 Drawing Conclusions from “Soft Factors” ....................... 29
   2.8 Summary and Outlook ....................................... 29

3 Intergenerational Justice and Economic Growth.
   A Challenge for Economic Policy .................................. 31
   Michael Hütther
   3.1 Economic Theory and the Theory of Justice ..................... 31
   3.2 Germany: Facing Demographic Change
       and the Need for Education Reform .......................... 33
## 4 Demographic Development: Not Really a Problem for Coming Generations

*Thomas Straubhaar*

4.1 Introduction ........................................... 53
4.2 Demographic Change and Economic Consequences .......... 54
  4.2.1 A Few Theoretical Preliminary Remarks ... ............ 54
  4.2.2 ... and Their Empirical Relevance .................... 57
4.3 Prospects ............................................. 59
  4.3.1 More Goods for Less People ............................ 59
  4.3.2 Growing Populations in Other World Areas ............. 60
  4.3.3 Aging, Not Shrinking Is the Problem ................ 60
4.4 Political Recommendations ................................ 61
4.5 Family Policy .......................................... 61
4.6 Migration .............................................. 61
  4.6.1 Immigration Is a Help but Not a Solution ............. 62
4.7 Increasing Duration of Working Life ........................ 63
  4.7.1 Work Longer! ....................................... 64
4.8 Increase of Labor Force Participation ....................... 64
  4.8.1 Women at Work! ..................................... 64
  4.8.2 Old, Not Stupid! .................................... 65
4.9 Reform of Labor Force Behavior ............................ 66
  4.9.1 Lifelong Learning .................................... 66
4.10 Reform of the Pension System ................................ 67
  4.10.1 Many, Instead of Single Pillars ..................... 67
  4.10.2 Make Your Choice! .................................. 68
4.11 Summary ............................................. 69

## 5 Macroeconomics and Age Structure in a Welfare State – Sweden 1946–2005

*Thomas Lindh and Bo Malmberg*

5.1 Demography and Welfare State Macroeconomics ............. 71
5.2 Macroeconomic Mechanisms for Age Effects ............... 74
5.3 Estimation Methods ..................................... 78
5.4 Estimated Age Patterns ................................... 81
5.5 Discussion of the Estimates ................................ 84
5.6 The Importance of Age Structure for Swedish Economic Development ..................................... 87
5.7 Concluding Remarks ..................................... 91
### Part III: The Relationship Between Key Sustainability Indicators and Intergenerational Justice

#### 6 Demographic Change and Sustainability: A Generational Balance 99

*R. Andreas Kraemer, Daniel Blobel, Anneke von Raggamby, Doris Knoblauch*

6.1 Introduction: Is Growing Good and Shrinking Bad? Or Vice Versa? 99
6.2 What Does “Generational Balance” Mean in the Context of Sustainability? 100
6.3 Demographic Development in Germany – Regional Disparities 101
  6.3.1 Germans Don’t Like Children? 101
  6.3.2 Who Should Have a Family … 103
  6.3.3 … Where Have the Women Gone? 103
  6.3.4 Germany’s East Is Emptying! 104
  6.3.5 Consequences of Spatial Distribution Underestimated 104
6.4 Energy, Settlements, Mobility – Securing Public Utilities and Services 106
  6.4.1 Rapidly Changing Lifestyles After the War 106
  6.4.2 Heritage/Legacy 107
  6.4.3 Demographic Change Will Be No Solution 108
  6.4.4 Options for Future Developments 110
  6.4.5 A Change in Energy Consumption Is Required 112
  6.4.6 Energy, Settlements and Mobility Are Interconnected 114
6.5 Natural Heritage – A Matter of Culture 116
  6.5.1 Our Natural Heritage Is Cultural Heritage 116
  6.5.2 Conservation Versus Development: Leading the Way into the Impasse? 117
  6.5.3 Forces of Change 118
  6.5.4 Preserving Nature by Allowing for Change 120
6.6 Conclusion: The Challenge of Adaptation 122

#### 7 Intergenerational Justice in an Extreme Longevity Scenario 127

*Ulrich Feeser-Lichterfeld*

7.1 Introduction 127
7.2 The Truth About the Fountain of Youth? 128
7.3 Ethical Issues in Biogerontological Endeavours 129
7.4 Consequences for Intergenerational Justice? 130
7.5 Anti-aging or Acceptance of Frailty and Finiteness? – A Question for All Generations 132
### Part IV Intergenerational Justice and Population Policies

#### 8 An Ethical Assessment of the Legitimacy of Anti-natalistic Birth Policies

*Joerg Chet Tremmel*
