Contents

1 Introduction .......................................................... 1
   1.1 Background ..................................................... 1
   1.2 Outline of the book ............................................ 2

2 The Need for a New Instrument ................................. 5
   2.1 Introduction .................................................... 5
   2.2 Enterprises and their challenges .............................. 6
       2.2.1 Keep up or Perish ......................................... 6
       2.2.2 Shifting Powers in the Value Chain ................... 7
       2.2.3 Comply or Bust ........................................... 8
       2.2.4 Achieving Competitive Advantage ...................... 9
       2.2.5 Making Technology the Business Differentiator ... 9
       2.2.6 Excel or Outsource ................................... 10
   2.3 Stakeholders and Their Concerns ............................ 10
       2.3.1 Stakeholders Involved in a Transformation .......... 11
       2.3.2 Stakeholders Impacted by Transformation Results ... 12
       2.3.3 Stakeholders Sponsoring a Transformation ........ 13
       2.3.4 Variety and Complexity in Dealing with Stakeholders .... 13
   2.4 Traditional Approaches ...................................... 14
       2.4.1 Strategy as a Means to Focus Effort .................. 14
       2.4.2 Programmatic Steering of Change ..................... 16
   2.5 Assessing Traditional Approaches .......................... 17
       2.5.1 Putting Strategy into Action ........................ 17
       2.5.2 Putting Programmatic Steering into Action .......... 20
   2.6 Requirements on Enterprise Architecture .................. 21
   2.7 Summary ....................................................... 23
   2.8 Discussion Statements ...................................... 24

3 Positioning Enterprise Architecture .......................... 25
   3.1 A Historical Perspective on Enterprise Architecture ... 25
   3.2 Governance Paradigm ......................................... 27
   3.3 Key Applications for Enterprise Architecture ............ 30
   3.4 Defining Enterprise Architecture ............................ 32
       3.4.1 Definitions of Enterprise Architecture ............. 32
       3.4.2 Perspectives on the Role of Enterprise Architecture .... 33
       3.4.3 Definition of Enterprise Architecture .............. 34
       3.4.4 Views in Enterprise Architectures ................... 34
   3.5 Key Concept of Enterprise Architecture ................... 35
       3.5.1 Stakeholders and Their Concerns ..................... 35
       3.5.2 Principles ............................................... 36
3.5.3 Models .................................. 37
3.5.4 Views .................................. 38
3.5.5 Frameworks ............................. 39
3.6 Benefits of Enterprise Architecture ............... 40
  3.6.1 Uses of Architectural Descriptions ............ 40
  3.6.2 Value of Enterprise Architecture ............... 41
  3.6.3 Added Value over Classical Approaches ........ 43
  3.6.4 Use it Wisely .......................... 43
3.7 Competencies of an Enterprise Architect ............ 45
3.8 Summary .................................. 46
3.9 Discussion Statements .......................... 47

4 The Results of Enterprise Architecting ............... 49
  4.1 Introduction ................................ 49
  4.2 Example Enterprise Architecture: Pizzeria “Perla del Nord” .... 49
    4.2.1 Current Situation ....................... 50
    4.2.2 Intended Change ........................ 54
    4.2.3 Enterprise Architecture Results in the Pizzeria Case ... 58
  4.3 Quality of the Produced Results ................... 62
    4.3.1 Possible Uses of Architecture Results .......... 62
    4.3.2 From Intended Use to the Design of a Result .... 63
    4.3.3 A Deeper Understanding of the Quality of Results ... 64
  4.4 Enterprise Architecture Frameworks ............... 65
    4.4.1 Tapscott & Caston’s Views ................ 66
    4.4.2 The Integrated Architecture Framework .......... 67
    4.4.3 The ArchiMate Framework .................. 69
    4.4.4 The Zachman Framework .................... 69
    4.4.5 The Open Group’s Architecture Framework ....... 72
  4.5 Dimensions for Architecture Frameworks .......... 73
    4.5.1 Subject Dimensions ....................... 74
    4.5.2 Purpose Dimensions ........................ 75
    4.5.3 Form Dimensions .......................... 75
  4.6 A Methodical Perspective on the Creation of Results ... 76
  4.7 The Call for a Unified Notation .................... 78
  4.8 Summary .................................. 81
  4.9 Discussion Statements .......................... 83

5 The Process of Enterprise Architecting ............... 85
  5.1 Introduction ................................ 85
  5.2 The Core Process of Enterprise Architecting ........ 85
    5.2.1 Creating Enterprise Architecture ............ 86
    5.2.2 Applying/Using Enterprise Architecture ......... 87
    5.2.3 Maintaining Enterprise Architecture Results ...... 91
  5.3 Patterns for Enterprise Architecting ................ 92
    5.3.1 Architecture Process Patterns and Architecture Schools ... 93
    5.3.2 Architecture Schools: Check the “Instruction for Use” ... 97
Enterprise Architecture
Creating Value by Informed Governance
Op't Land, M.; Proper, E.; Waage, M.; Cloo, J.; Steghuis, C.
2009, XV, 145 p., Hardcover
ISBN: 978-3-540-85231-5
