Contents

1 Introduction – New Methods and Technologies of Natural Sciences for Archaeological Investigations in Nasca and Palpa, Peru ...... 1
Markus Reindel and Günther A. Wagner

Part I Geoarchaeology

2 Man and Environment in the Eastern Atacama Desert (Southern Peru): Holocene Climate Changes and Their Impact on Pre-Columbian Cultures ................................................................. 17
Bernhard Eitel and Bertil Mächtle

3 Built on Sand: Climatic Oscillation and Water Harvesting During the Late Intermediate Period ........................................... 39
Bertil Mächtle, Bernhard Eitel, Gerd Schukraft and Katharina Ross

Part II Geophysics

4 Beneath the Desert Soil – Archaeological Prospecting with a Caesium Magnetometer ......................................................... 49
Jörg W. E. Fassbinder and Tomasz H. Gorka

5 Quantum Detection Meets Archaeology – Magnetic Prospection with SQUIDs, Highly Sensitive and Fast ................................. 71
Sven Linzen, Volkmar Schultze, Andreas Chwala, Tim Schüler, Marco Schulz, Ronny Stolz and Hans-Georg Meyer

6 Viewing the Subsurface in 3D: Sediment Tomography for (Geo-)Archaeological Prospection in Palpa, Southern Peru ............ 87
Stefan Hecht

Contents

16 Light Thrown on History – The Dating of Stone Surfaces at the Geoglyphs of Palpa Using Optically Stimulated Luminescence .... 271 Steffen Greilich and Günther A. Wagner

Part V Geomatics

17 Virtual Archaeology – New Methods of Image-Based 3D Modeling . . 287 Armin Gruen

18 Virtual Flight Over the Nasca Lines – Automated Generation of a Photorealistically Textured 3D Model of the Pampa de Nasca . . 307 Martin Sauerbier

19 Context Matters: GIS-Based Spatial Analysis of the Nasca Geoglyphs of Palpa ................................................. 321 Karsten Lambers and Martin Sauerbier

20 A Model Helicopter Over Pinchango Alto – Comparison of Terrestrial Laser Scanning and Aerial Photogrammetry ................. 339 Henri Eisenbeiss

21 Perspectives and Contrasts: Documentation and Interpretation of the Petroglyphs of Chichictara, Using Terrestrial Laser Scanning and Image-Based 3D Modeling ........................................ 359 Peter Fux, Martin Sauerbier, Thomas Kersten, Maren Lindstaedt and Henri Eisenbeiss

22 Pottery Plotted by Laser – 3D Acquisition for Documentation and Analysis of Symmetry of Ancient Ceramics ....................... 379 Hubert Mara

Part VI Archaeometallurgy

23 Gold in Southern Peru? Perspectives of Research into Mining Archaeology ....................................................... 393 Thomas Stöllner

24 Fingerprints in Gold .................................................. 409 Sandra Schlosser, Robert Kovacs, Ernst Pernicka, Detlef Günther and Michael Tellenbach
Part VII Summary

25 Life at the Edge of the Desert – Archaeological Reconstruction of the Settlement History in the Valleys of Palpa, Peru .......................... 439
Markus Reindel

References .......................................................... 463
