Preface

This book is based on papers presented at an international workshop organised in Jönköping, Sweden, in June 2005 to celebrate the 60th birthday of Professor Börje Johansson – a dear friend and admired colleague of ours. The book provides a limited sample of Börje Johansson’s broad ranging research interests. In this volume, some of his friends and colleagues have contributed chapters on the theme of “Innovation, Dynamic Regions, and Regional Dynamics”. This is a field of research in which Börje Johansson has been a great inspiration to us all, and to which he him-self has contributed with characteristic enthusiasm and insight as part of his prodigious output.

The workshop and the creation of this book were sponsored by the Alfa Savings Bank Foundation in Jönköping, Jönköping International Business School, and the School of Public Policy, George Mason University, Fairfax, VA. We thank them for their generous support. The authors and the editors thank Kerstin Ferroukhi for all her efforts to organise the workshop and Ulla Forslund-Johansson and Uma Kelekar for working tirelessly to get the papers refereed and revised, to put together multiple edits of this book and for preparing it for the publisher. It would have been impossible to produce this book without their dedicated work.
