## **Part I Basics of Respiratory Physiology and Mechanics in the Neonate and the Growing Child**

<b>1 Development of the Respiratory System (Including the Preterm Infant) . . . . .</b>	<b>3</b>
<b>2 The Neonatal Neuromechanical Unit: Generalities of Operation . . . . .</b>	<b>27</b>
<b>3 Basics of Gas Exchange . . . . .</b>	<b>43</b>
<b>4 The Respiratory System . . . . .</b>	<b>55</b>

## **Part II Basics of Respiratory Support and Mechanical Ventilation**

<b>5 Neonatal Intubation (Specific Considerations) . . . . .</b>	<b>115</b>
<b>6 Oxygen Supplementation, Delivery, and Physiologic Effects . . . . .</b>	<b>123</b>
<b>7 Nasal CPAP: An Evidence-Based Assessment . . . . .</b>	<b>135</b>
<b>8 Mechanical Ventilation . . . . .</b>	<b>149</b>
<b>9 Airway Humidification . . . . .</b>	<b>275</b>
<b>10 Specific Equipment Required for Home Mechanical Ventilation in Children . . . . .</b>	<b>283</b>

## **Part III Respiratory Mechanics in the Mechanically Ventilated Patient**

<b>11 Respiratory Mechanics in the Mechanically Ventilated Patient . . . . .</b>	<b>293</b>
--	------------

<b>Part IV Respiratory Monitoring in the Mechanically Ventilated Patient</b>	
<b>12</b>	<b>Classical Respiratory Monitoring . . . . . 375</b>
<b>13</b>	<b>Monitoring of the Mechanical Behaviour of the Respiratory System During Controlled Mechanical Ventilation . . . . . 421</b>
<b>14</b>	<b>Monitoring Lung Volumes During Mechanical Ventilation . . . . . 441</b>
<b>15</b>	<b>Monitoring Interactions Between Spontaneous Respiration and Mechanical Inflations. . . . . 473</b>
<b>16</b>	<b>Basic and Practically Useful Respiratory Monitoring of a Mechanically Ventilated Patient in Resource-Limited Countries. . . . . 491</b>
<b>Part V Indications for Respiratory Support</b>	
<b>17</b>	<b>Indications for Noninvasive Respiratory Support . . . . . 503</b>
<b>18</b>	<b>Indications for Invasive Conventional Mechanical Ventilation. . . . . 535</b>
<b>19</b>	<b>Indications for Nonconventional Ventilation Modes. . . . . 559</b>
<b>20</b>	<b>Respiratory Support in Developing Countries Where Resources Are Limited . . . . . 603</b>
<b>Part VI Clinical Use of Conventional Modes of Ventilator Support</b>	
<b>21</b>	<b>Respirator Cycle Control Modes . . . . . 615</b>
<b>Part VII Clinical Use of Nonconventional Modes of Ventilator Support</b>	
<b>22</b>	<b>Clinical Use of Nonconventional Modes of Ventilator Support. . . . . 645</b>
<b>Part VIII General Management of the Ventilator-Supported Patient</b>	
<b>23</b>	<b>The Prone Position in Acute Lung Injury . . . . . 671</b>

---

<b>24</b>	<b>Respiratory Physiotherapy and Endotracheal Suctioning During Mechanical Ventilation</b> . . . . .	687
<b>25</b>	<b>Fluid Management in the Ventilated Patient</b> . . . . .	711
<b>Part IX Permissive Hypercapnia</b>		
<b>26</b>	<b>Permissive Hypercapnia</b> . . . . .	727
<b>27</b>	<b>Permissive Hypercapnia in Neonates: Specific Experience and Limitations</b> . . . . .	743
<b>Part X Adjunctive Therapies in Mechanically Ventilated Children and Neonates</b>		
<b>28</b>	<b>Surfactant</b> . . . . .	761
<b>29</b>	<b>Selective Pulmonary Vasodilators</b> . . . . .	809
<b>30</b>	<b>Drug Nebulization During Mechanical Ventilation</b> . . . . .	837
<b>31</b>	<b>Use of Potent Inhalational Anesthetic Agents During Mechanical Ventilation</b> . . . . .	863
<b>32</b>	<b>Rational Use of Adjunctive Therapies: Efficacy and Efficiency</b> . . . . .	887
<b>Part XI Complications of Mechanical Ventilation</b>		
<b>33</b>	<b>Ventilator-Associated Lung Injury</b> . . . . .	917
<b>34</b>	<b>Gross Air Leaks</b> . . . . .	947
<b>35</b>	<b>Infectious Complications in Mechanically Ventilated Patients</b> . . . . .	961
<b>36</b>	<b>Post-extubation Stridor</b> . . . . .	981
<b>Part XII Bronchoscopy in Pediatric and Neonatal Intensive Care</b>		
<b>37</b>	<b>Bronchoscopy in Pediatric and Neonatal Intensive Care</b> . . . . .	1001

<b>Part XIII Sedation, Analgesia and Neuromuscular Blockade During Mechanical Ventilation</b>	
<b>38 Sedation, Analgesia and Neuromuscular Blockade in the Neonatal ICU . . . . .</b>	<b>1019</b>
<b>39 Sedation, Analgesia and Neuromuscular Blockade in the Paediatric ICU . . . . .</b>	<b>1031</b>
<b>Part XIV A Practical Approach to Noninvasive Mechanical Ventilation</b>	
<b>40 Noninvasive Respiratory Support in the Neonate . . . . .</b>	<b>1063</b>
<b>41 Noninvasive Respiratory Support in the Paediatric Patient . . . . .</b>	<b>1073</b>
<b>Part XV Practical Evidence-Based and Goal-Directed Approach to Conventional Mechanical Ventilation</b>	
<b>42 Setting the Ventilator in the NICU . . . . .</b>	<b>1101</b>
<b>43 Setting the Ventilator in the PICU . . . . .</b>	<b>1127</b>
<b>44 Approaches to Adverse Patient-Ventilator Interactions . . . . .</b>	<b>1143</b>
<b>Part XVI Practical Goal-Directed Approach to Nonconventional Mechanical Ventilation</b>	
<b>45 High-Frequency Oscillatory Ventilation in the Neonate . . . . .</b>	<b>1161</b>
<b>46 High-Frequency Jet Ventilation (HFJV) . . . . .</b>	<b>1173</b>
<b>Part XVII Mechanical Ventilation in Various Pulmonary Pathologies</b>	
<b>47 Acute Neonatal Respiratory Failure . . . . .</b>	<b>1185</b>
<b>48 Chronic Respiratory Failure in Neonates . . . . .</b>	<b>1267</b>
<b>49 Pediatric Acute Lung Injury . . . . .</b>	<b>1279</b>
<b>50 Bronchiolitis . . . . .</b>	<b>1291</b>
<b>51 Pediatric Asthma . . . . .</b>	<b>1313</b>
<b>52 Diaphragmatic Palsy . . . . .</b>	<b>1325</b>

<b>Part XVIII Cardiopulmonary Interactions in the Mechanically Ventilated Patient</b>	
<b>53</b>	<b>Cardiopulmonary Interactions in the Ventilated Patient . . . . . 1333</b>
<b>Part XIX Mechanical Ventilation in Infection, Sepsis and Organ Failure</b>	
<b>54</b>	<b>Mechanical Ventilation in Infection, Sepsis and Organ Failure . . . . . 1369</b>
<b>Part XX Mechanical Ventilation in Neuromuscular Disorders</b>	
<b>55</b>	<b>Mechanical Ventilation in Neuromuscular Disorders . . . . . 1387</b>
<b>Part XXI Specific Conditions</b>	
<b>56</b>	<b>Tracheostomy . . . . . 1399</b>
<b>Part XXII Weaning from Mechanical Ventilator Support</b>	
<b>57</b>	<b>Weaning Children from Mechanical Ventilator Support . . . . . 1415</b>
<b>58</b>	<b>Weaning from Mechanical Ventilator Support in Neonates . . . . . 1425</b>
<b>Part XXIII Automation of Mechanical Ventilation</b>	
<b>59</b>	<b>Explicit Computerized Protocols for Mechanical Ventilation in Children and Neonates . . . . . 1435</b>
<b>60</b>	<b>Automated Control of Oxygen in Neonates . . . . . 1447</b>
<b>61</b>	<b>Automation of Weaning in Children . . . . . 1455</b>
<b>62</b>	<b>Automation of ALI/ARDS Ventilation in Children . . . . . 1467</b>
<b>Part XXIV Long-Term Outcomes After Mechanical Ventilation</b>	
<b>63</b>	<b>Long-Term Outcomes After Mechanical Ventilation in Neonates . . . . . 1475</b>
<b>64</b>	<b>Long-Term Outcomes After Mechanical Ventilation in Children . . . . . 1489</b>

Pediatric and Neonatal Mechanical Ventilation  
From Basics to Clinical Practice

Rimensberger, P. (Ed.)

2015, X, 1642 p. 405 illus., 109 illus. in color.,

Hardcover

ISBN: 978-3-642-01218-1
