# Contents

1 *The Formation and Behaviour of Natural and Artificial Rockslide Dams; Implications for Engineering Performance and Hazard Management* ........................................ 1  
Stephen G. Evans, Keith B. Delaney, Reginald L. Hermanns, Alexander Strom, and Gabriele Scarascia-Mugnozza

2 *Engineering Measures for the Hazard Reduction of Landslide Dams* ...................................................... 77  
Robert L. Schuster and Stephen G. Evans

3 *Technical and Human Aspects of Historic Rockslide-Dammed Lakes and Landslide Dam Breaches* .......... 101  
C. Bonnard

4 *Rockslide and Rock Avalanche Dams in the Southern Alps, New Zealand* ........................................... 123  
O. Korup

5 *Landslide Dams in the Central Andes of Argentina (Northern Patagonia and the Argentine Northwest)* ...... 147  
Reginald L. Hermanns, Andres Folguera, Ivanna Penna, Luis Fauqué, and Samuel Niedermann

6 *Rock Avalanche Dams on the Trans Himalayan Upper Indus Streams: A Survey of Late Quaternary Events and Hazard-Related Characteristics* ..................................... 177  
Kenneth Hewitt

7 *Rockslide Dams in the Northwest Himalayas (Pakistan, India) and the Adjacent Pamir Mountains (Afghanistan, Tajikistan), Central Asia* .................................................. 205  
Keith B. Delaney and Stephen G. Evans

8 *Stability and Life Span of Landslide Dams in the Himalayas (India, Nepal) and the Qin Ling Mountains (China)* 243  
J.T. Weidinger
