

Contents

1	Pre-Operative Assessment in Distal Radius Fractures	1
	Gregory I. Bain	
2	Portals and Methodology	13
	David J. Slutsky	
3	Management of Simple Articular Fractures	27
	Ferdinando Battistella	
4	Treatment of Explosion-Type Distal Radius Fractures	41
	Francisco del Piñal	
5	Management of Distal Radius Fracture-Associated TFCC Lesions Without DRUJ Instability	67
	Alejandro Badia	
6	Arthroscopic Management of DRUJ Instability Following TFCC Ulnar Tears	73
	Andrea Atzei	
7	Radial Side Tear of the Triangular Fibrocartilage Complex	89
	Toshiyasu Nakamura	
8	Arthroscopic Management of Scapholunate Dissociation	99
	Tommy Lindau	
9	Lunotriquetral and Extrinsic Ligaments Lesions Associated with Distal Radius Fractures	109
	Didier Fontès	
10	Management of Concomitant Scaphoid Fractures	117
	Christophe Mathoulin	
11	Perilunate Dislocations and Fracture Dislocations/ Radiocarpal Dislocations and Fracture Dislocations	127
	Mark Henry	

12	The Role of Arthroscopy in Postfracture Stiffness	151
	Riccardo Luchetti	
13	Treatment of the Associated Ulnar-Sided Problems	175
	Pier Paolo Borelli and Riccardo Luchetti	
14	Arthroscopic-Assisted Osteotomy for Intraarticular Malunion of the Distal Radius	191
	Francisco del Piñal	
15	The Role of Arthroscopic Arthrodesis and Minimal Invasive Surgery in the Salvage of the Arthritic Wrist: Midcarpal Joint	211
	Joseph F. Slade	
16	Arthroscopic Radiocarpal Fusion for Post-Traumatic Radiocarpal Arthrosis	225
	Pak-cheong HO	
Index	243
