

# Contents

## Part I General Aspects and Research History

<b>Founding of the Term ‘Stromatolite’: Ernst Louis Kalkowsky (1851–1938) and his Early Stromatolite Research</b> .....	3
Alexander Gehler and Mike Reich	

<b>Kalkowsky’s Stromatolites and Oolites (Lower Buntsandstein, Northern Germany)</b> .....	13
Josef Paul, Tadeusz M. Peryt, and Robert V. Burne	

<b>The Nature of Stromatolites: 3,500 Million Years of History and a Century of Research</b> .....	29
Robert Riding	

## Part II Stromatolite Formation and Microbial Biomineralisation

<b>Modern Marine Stromatolites of Little Darby Island, Exuma Archipelago, Bahamas: Environmental Setting, Accretion Mechanisms and Role of Euendoliths</b> .....	77
R. Pamela Reid, Jamie S. Foster, Gudrun Radtke, and Stjepko Golubic	

<b>Molecular Approaches to Studying Living Stromatolites</b> .....	91
Brendan P. Burns, Nithya Baburajendran, and Joannita Dharmawan	

<b>Magnesium Inhibition Controls Spherical Carbonate Precipitation in Ultrabasic Springwater (Cedars, California) and Culture Experiments</b> .....	101
Patrick Meister, Orion Johnson, Frank Corsetti, and Kenneth H. Nealson	

<b>Microbial Control on Lamina Formation in a Travertine of Crystal Geysers, Utah</b> .....	123
Chiduru Takashima, Tomoyo Okumura, Shin Nishida, Toshihiko Shimamoto, Hiroko Koike, and Akihiro Kano	
<b>Photosynthesis-Induced Stromatolite Formation in the Freshwater Creeks</b> .....	135
Fumito Shiraishi	
<b>The Role of Purple Sulphur Bacteria in Carbonate Precipitation of Modern and Possibly Early Precambrian Stromatolites</b> .....	141
Rolf Warthmann, Crisógono Vasconcelos, Anne Greet Bittermann, and Judith A. McKenzie	
<b>Precipitation of CaCO<sub>3</sub> Under Sulphate-Reduction Conditions</b> .....	151
Dorota Wolicka and Andrzej Borkowski	
<b><i>Myxococcus xanthus</i> Colony Calcification: An Study to Better Understand the Processes Involved in the Formation of this Stromatolite-Like Structure</b> .....	161
Concepcion Jimenez-Lopez, Kaoutar Ben Chekroun, F. Jroundi, Manuel Rodríguez-Gallego, Jose Maria Arias, and Maria Teresa González-Muñoz	
<b>Are Stromatolites the Most Ancient Skeletal Organisms?</b> .....	183
Evgenia Sumina, Vladimir Orleansky, and Dmitry Sumin	
 <b>Part III Microbial Ecology and Fossil Record</b>	
<b>Geomicrobiology of Fluid Venting Structures at the Salse di Nirano Mud Volcano Area in the Northern Apennines (Italy)</b> .....	189
Christina Heller, Martin Blumenberg, Sebastian Kokoschka, Christoph Wrede, Michael Hoppert, Marco Taviani, and Joachim Reitner	
<b>Trace Element and Biomarker Signatures in Iron-Precipitating Microbial Mats from the Tunnel of Äspö (Sweden)</b> .....	201
Jens Kurz, Klaus Simon, Christine Heim, Joachim Reitner, Nadia-Valérie Quéric, and Volker Thiel	
<b>Microbial Euendolithic Assemblages and Microborings in Intertidal and Shallow Marine Habitats: Insight in Cyanobacterial Speciation</b> .....	213
Gudrun Radtke and Stjepko Golubic	

<b>On Microbiocorrosion</b> .....	245
Aline Tribollet, Stjepko Golubic, Gudrun Radtke, and Joachim Reitner	
<b>The Deep-Sea Chemoautotroph Microbial World as Experienced by the Mediterranean Metazoans Through Time</b> .....	257
Marco Taviani	
<b>Gypsum Microbialite Domes Shaped by Brine Currents from the Badenian Evaporites of Western Ukraine</b> .....	277
Maciej Bąbel, Danuta Olszewska-Nejbert, and Andrii Bogucki	
<b>The Microbialite-Vermetid Community of the Salento Peninsula in Southern Italy: A Late Miocene Example of Automicrite Deposition</b> .....	301
Alessandro Vescogni, Adriano Guido, Adelaide Mastandrea, and Franco Russo	
<b>The Characterisation of Sedimentary Organic Matter in Carbonates with Fourier-Transform Infrared (FTIR) Spectroscopy</b> .....	311
Adelaide Mastandrea, Adriano Guido, Fabio Demasi Silvestro Antonio Ruffolo, and Franco Russo	
<b>Interactions Between Microbes and Siliceous Sponges from Upper Jurassic Buildups of External Prebetic (SE Spain)</b> .....	323
Matías Reolid	
<b>Aftermath of the Triassic–Jurassic Boundary Crisis: Spiculite Formation on Drowned Triassic Steinplatte Reef-Slope by Communities of Hexactinellid Sponges (Northern Calcareous Alps, Austria)</b> .....	335
Stefan Delecat, Gernot Arp, and Joachim Reitner	
<b>Microbes in Resinous Habitats: A Compilation from Modern and Fossil Resins</b> .....	371
Christina Beimforde and Alexander R. Schmidt	
<b><i>Tolypamma gregaria</i> Wendt 1969-<i>Frutexitis</i> Assemblage and Ferromanganese Crusts: A Coupled Nutrient-Metal Interplay in the Carnian Sedimentary Condensed Record of Hallstatt Facies (Austria)</b> .....	389
Marta Rodríguez-Martínez, Christine Heim, Klaus Simon, Thomas Zilla, and Joachim Reitner	

<b>New Geochemical Method to Characterise Microbialites from the St. Cassian Formation, Dolomites, Northeastern Italy</b> .....	415
Francisco Sánchez-Beristain, Nadine Schäfer, Klaus Simon, and Joachim Reitner	
<b>Importance of Rare Earth Element Patterns in Discrimination Between Biotic and Abiotic Mineralization</b> .....	433
Adriano Guido, Adelaide Mastandrea, Fabio Tosti, and Franco Russo	
<b>Lower Ordovician Stromatolites from the Anhui Province of South China: Construction and Geobiological Significance</b> .....	443
Natsuko Adachi, Yoichi Ezaki, Jianbo Liu, and Jun Cao	
<b>Sedimentology and Palaeoecology of <i>Ernietta</i>-Bearing Ediacaran Deposits in Southern Namibia: Implications for Infaunal Vendobiont Communities</b> .....	453
El Hafid Bouougri, Hubertus Porada, Klaus Weber, and Joachim Reitner	
<b>Biolaminated Siliciclastic Deposits</b> .....	487
El Hafid Bouougri and Hubertus Porada	
<b>Microbial Binding as a Probable Cause of Taphonomic Variability of Vendian Fossils: Carbonate Casting?</b> .....	505
Ekaterina A. Serezhnikova	
<b>Morphology as an Indicator of Biogenicity for 3.5–3.2 Ga Fossil Stromatolites from the Pilbara Craton, Western Australia</b> .....	517
Martin J. Van Kranendonk	
<b>Index</b> .....	535
