## Contents

### Volume I

#### Part I  Introductory Chapters

1. “Environmental Isotope Geochemistry”: Past, Present and Future ................................................... 3  
   Mark Baskaran

2. An Overview of Isotope Geochemistry in Environmental Studies .... 11  
   D. Porcelli and M. Baskaran

3. Humans and Isotopes: Impacts and Tracers of Human Interactions with the Environment ...................................... 33  
   Karl K. Turekian

#### Part II  Isotopes as Tracers of Continental and Aquatic Processes

4. Lithium Isotopes as Tracers in Marine and Terrestrial Environments ............................................................. 41  
   K.W. Burton and N. Vigier

5. Meteoric \(^{7}\text{Be}\) and \(^{10}\text{Be}\) as Process Tracers in the Environment ........ 61  
   James M. Kaste and Mark Baskaran

6. Silicon Isotopes as Tracers of Terrestrial Processes ............... 87  
   B. Reynolds

7. Calcium Isotopes as Tracers of Biogeochemical Processes .......... 105  
   Laura C. Nielsen, Jennifer L. Druhan, Wenbo Yang, Shaun T. Brown, and Donald J. DePaolo

8. Natural and Anthropogenic Cd Isotope Variations ................. 125  
   M. Rehkämper, F. Wombacher, T.J. Horner, and Z. Xue

9. Stable Isotopes of Cr and Se as Tracers of Redox Processes in Earth Surface Environments ................................................. 155  
   Thomas M. Johnson

10. Stable Isotopes of Transition and Post-Transition Metals as Tracers in Environmental Studies ......................... 177  
   Thomas D. Bullen
Contents

24 Using Cosmogenic Radionuclides for the Determination of Effective Surface Exposure Age and Time-Averaged Erosion Rates ................................................................. 477
D. Lal

25 Measuring Soil Erosion Rates Using Natural ($^7$Be, $^{210}$Pb) and Anthropogenic ($^{137}$Cs, $^{239,240}$Pu) Radionuclides .................. 487
Gerald Matisoff and Peter J. Whiting

26 Sr and Nd Isotopes as Tracers of Chemical and Physical Erosion .................................................... 521
Gyana Ranjan Tripathy, Sunil Kumar Singh, and S. Krishnaswami

27 Constraining Rates of Chemical and Physical Erosion Using U-Series Radionuclides ........................................... 553
Nathalie Vigier and Bernard Bourdon

Volume II

Part III Isotopes as Tracers of Atmospheric Processes

28 Applications of Cosmogenic Isotopes as Atmospheric Tracers ...... 575
D. Lal and M. Baskaran

29 Uranium, Thorium and Anthropogenic Radionuclides as Atmospheric Tracers ................................................................. 591
K. Hirose

30 Oxygen Isotope Dynamics of Atmospheric Nitrate and Its Precursor Molecules ............................................ 613
Greg Michalski, S.K. Bhattacharya, and David F. Mase

Part IV Isotopes as Tracers of Environmental Forensics

31 Applications of Stable Isotopes in Hydrocarbon Exploration and Environmental Forensics ........................................... 639
R. Paul Philp and Guillermo Lo Monaco

32 Utility of Stable Isotopes of Hydrogen and Carbon as Tracers of POPs and Related Polyhalogenated Compounds in the Environment ........................................... 679
W. Vetter

Part V Isotopes as Tracers in Archaeology and Anthropology

33 Light-Element Isotopes (H, C, N, and O) as Tracers of Human Diet: A Case Study on Fast Food Meals ....................... 707
Lesley A. Chesson, James R. Ehleringer, and Thure E. Cerling

34 Stable Isotopes of Carbon and Nitrogen as Tracers for Paleo-Diet Reconstruction ........................................... 725
H.P. Schwarcz and M.J. Schoeninger
