

Table of Contents

PrefaceV

About the Contributors.....IX

**Section I: Understanding Complexity of a
Prospective Cartographic Heritage.....1**

**1 From Plan Press to Button Push: the Development of
Technology for Cartographic Archiving and Access.....3**
William Cartwright

1.1 Introduction.....3

1.2 Archiving Historical Cartographic Artefacts.....5

1.3 Installations.....6

1.4 Hypercard.....7

1.5 Microfiche.....10

1.6 Videodisc.....10

1.7 CD-ROM.....12

1.8 Internet applications.....14

1.9 Mobile applications.....19

1.10 Conclusion.....21

**2 The Preservation and Archiving of Geospatial Digital Data:
Challenges and Opportunities for Cartographers.....25**
Tracey P. Lauriault, Peter L. Pulsifer, D.R. Fraser Taylor

2.1 Introduction.....26

2.2 Contemporary Cartography.....26

2.3 Geospatial Data and Portals.....28

2.4 Maps, Data, Technological Systems and Infrastructures
Leave Historical Traces.....29

2.5 Maps and Archives.....31

2.6 The Rescue and Salvage of the Canada Land Inventory.....32

2.7 Evaluating progress in Preserving Cartographic Heritage.....33

2.8	How Can Today's Maps, Data and Technologies be Preserved?..	34
2.9	Multidisciplinary Archival Research.....	35
2.10	What is being done?.....	43
2.11	Conclusion.....	47
3	Structural Aspects for the Digital Cartographic Heritage.....	57
	<i>Markus Jobst, Georg Gartner</i>	
3.1	Introduction.....	57
3.2	Prominent Features of Digital Cartography.....	58
3.3	Structural Considerations for the Preservation of Digital Cartography.....	64
3.4	Conclusion.....	73
4	Archiving the Complex Information Systems of Cultural Landscapes for Interdisciplinary Permanent Access – Development of Concepts.....	77
	<i>Józef Hernik, Robert Dixon-Gough</i>	
4.1	Introduction.....	78
4.2	History of Archives in the Respective Countries.....	83
4.3	Complex Information Systems of Cultural Landscapes.....	87
4.4	Archiving Cultural Landscapes.....	90
4.5	Need for Permanent Interdisciplinary Permanent Access.....	93
4.6	Conclusions.....	95
	Section II: Sustainability in Terms of Geospatial Preservation.....	99
5	State-of-the-Art Survey of Long-Term Archiving – Strategies in the Context of Geo-Data / Cartographic Heritage.....	101
	<i>Nico Krebs, Uwe M. Borghoff</i>	
5.1	Introduction.....	101
5.2	Strategies of Long-Term Digital Preservation.....	103
5.3	Which Strategy for which Kind of Data.....	113
5.4	Long-Term Preservation of Geodata.....	116
5.5	Conclusion.....	123

6	Preservation of Geospatial Data: the Connection with Open Standards Development.....	129
	<i>Steven P. Morris</i>	
6.1	Introduction.....	130
6.2	Standards Work of the Open Geospatial Consortium (OGC) ...	131
6.3	Key OGC Standards and Specifications: Dynamic Geospatial Data.....	133
6.4	Key OGC Standards and Specifications: Data Files and Network Payloads.....	135
6.5	The OGC Data Preservation Working Group.....	137
6.6	Points of Intersection Between Geospatial Standards and Data Preservation Efforts.....	138
6.7	Conclusion.....	143
7	Pitfalls in Preserving Geoinformation - Lessons from the Swiss National Park.....	147
	<i>Stephan Imfeld, Rudolf Haller</i>	
7.1	Introduction.....	148
7.2	Archiving needs in a wilderness area.....	150
7.3	Hardware threats.....	151
7.4	Software considerations.....	153
7.5	Data volume.....	156
7.6	Brainware	156
7.7	Documentation.....	157
7.8	Integration.....	158
7.9	Conclusions.....	159
8	Geospatialization and Socialization of Cartographic Heritage.....	161
	<i>Dalibor Radovan, Renata Šolar</i>	
8.1	Introduction.....	162
8.2	The Geolibrary Paradigm.....	162
8.3	Cartographic Heritage and GIS.....	165
8.4	Geospatial Applications with Cartographic Heritage.....	167
8.5	Social Implications of Digital Cartographic Heritage.....	174
8.6	Conclusions and Open Questions.....	176

Section III: Keep It Online and Accessible.....179

9 More than the Usual Searches: a GIS Based Digital Library of the Spanish Ancient Cartography.....181
Pilar Chías, Tomás Abad

9.1 Introduction.....181

9.2 Digital Approaches to the Cartographic Heritage.....182

9.3 The Cartographic Databases.....185

9.4 Conclusion.....202

10 Map Forum Saxony. An Innovative Access to Digitized Historical Maps.....207
Manfred F. Buchroithner, Georg Zimmermann, Wolf Günther Koch, Jens Bove

10.1 Introduction.....208

10.2 Access to Spatial and Graphic (Historical-Cartographic) Information and Concept of the Contents.....209

10.3 Structure of and Access to the Digital Collection213

10.4 Requirements for Internet Presentations of Historical Maps. Potential of Zoomify.....215

10.5 Recent Developments.....216

10.6 Prospects.....217

10.7 Concluding Remarks.....218

11 A WYSIWYG Interface for User-Friendly Access to Geospatial Data Collections221
Helen Jenny, Andreas Neumann, Bernhard Jenny, Lorenz Hurni

11.1 Introduction: Common Types of Geospatial Data Collection Interfaces.....222

11.2 The WYSIWYG User Interface.....227

11.3 Conclusion.....237

Section IV: Pragmatic Considerations.....	239
12 Considerations on the Quality of Cartographic Reproduction for Long-Term Preservation.....	241
<i>Markus Jobst</i>	
12.1 Introduction	242
12.2 Importance of Map Content as Cartographic Heritage.....	242
12.3 Overall Considerations on Sustainability of Digital Technologies.....	244
12.4 Digital Reproduction Techniques.....	246
12.5 Hybrid Reproduction Issues.....	247
12.6 The Test Case and its Comparison.....	250
12.7 Conclusion and Further Aspects.....	254
13 Issues of Digitization in Archiving Processes.....	257
<i>Zdeněk Stachon</i>	
13.1 Introduction.....	257
13.2 Preservation Strategies.....	259
13.3 Chosen Issues of Digitization.....	261
13.4 Conclusions.....	270
14 Digitized Maps of the Habsburg Military Surveys – Overview of the Project of ARCANUM Ltd. (Hungary).....	273
<i>Gábor Timár, Sándor Biszak, Balázs Székely, Gábor Molnár</i>	
14.1 Introduction.....	274
14.2 Overview of the ARCANUM Project.....	274
14.3 The Rectification Methods.....	277
14.4 The User Interface (GEOVIEW).....	280
14.5 Legal Issues.....	280
14.6 Conclusions.....	281
15 The Archiving of Digital Geographical Information.....	285
<i>Peter Sandner</i>	
15.1 The Statutory Framework for Archiving.....	286
15.2 Strategies in the Public Archives of the German States.....	287
15.3 Conclusion.....	292

16 An Intellectual Property Rights Approach in the Development of Distributed Digital Map Libraries for Historical Research.....295
A. Fernández-Wyttenbach , E. Díaz-Díaz, M. Bernabé-Poveda

16.1 Introduction.....296
16.2 From Digital Map Libraries to Virtual Map Rooms.....296
16.3 A New Legal Landscape in Geographical Information.....299
16.4 Digital Rights Management.....302
16.5 Rights Expression Languages.....304
16.6 Geospatial Digital Rights Management Reference Model.....304
16.7 Future Considerations.....306
16.8 Conclusions.....306

Preservation in Digital Cartography

Archiving Aspects

Jobst, M. (Ed.)

2010, XXII, 310 p. 73 illus., Hardcover

ISBN: 978-3-642-12732-8
