

# Contents

<b>1</b>	<b>Introduction</b> . . . . .	1
1.1	What’s So Special About Digital Things? . . . . .	2
1.2	Terminology . . . . .	5
1.3	Summary . . . . .	5
<b>2</b>	<b>The Really Foolproof Solution for Digital Preservation</b> . . . . .	7
<b>Part I Theory – The Concepts and Techniques Which Are Essential for Preserving Digitally Encoded Information</b>		
<b>3</b>	<b>Introduction to OAIS Concepts and Terminology</b> . . . . .	13
3.1	Preserve What, for How Long and for Whom? . . . . .	13
3.2	What “Metadata”, How Much “Metadata”? . . . . .	16
3.3	Recursion – A Pervasive Concept . . . . .	26
3.4	Disincentives Against Digital Preservation . . . . .	28
3.5	Summary . . . . .	30
<b>4</b>	<b>Types of Digital Objects</b> . . . . .	31
4.1	Simple vs. Composite . . . . .	31
4.2	Rendered vs. Non-rendered . . . . .	33
4.3	Static vs. Dynamic . . . . .	38
4.4	Active vs. Passive . . . . .	38
4.5	Multiple-Classifications . . . . .	39
4.6	Summary . . . . .	39
<b>5</b>	<b>Threats to Digital Preservation and Possible Solutions</b> . . . . .	41
5.1	What Can Be Relied on in the Long-Term? . . . . .	43
5.2	What Others Think About Major Threats to Digital Preservation . . . . .	44
5.3	Summary . . . . .	45
<b>6</b>	<b>OAIS in More Depth</b> . . . . .	47
6.1	OAIS Conformance . . . . .	49
6.2	OAIS Mandatory Responsibilities . . . . .	50
6.3	OAIS Information Model . . . . .	53
6.4	OAIS Functional Model . . . . .	63

- 6.5 Information Flows and Layering . . . . . 65
- 6.6 Issues Not Covered in Detail by OAIS . . . . . 65
- 6.7 Summary . . . . . 67
- 7 Understanding a Digital Object: Basic Representation**
- Information** . . . . . 69
- Co-author Stephen Rankin
- 7.1 Levels of Application of Representation
  - Information Concept . . . . . 69
- 7.2 Overview of Techniques for Describing Digital Objects . . . . . 71
- 7.3 Structure Representation Information . . . . . 75
- 7.4 Format Identification . . . . . 96
- 7.5 Semantic Representation Information . . . . . 97
- 7.6 Other Representation Information . . . . . 101
- 7.7 Application to Types of Digital Objects . . . . . 102
- 7.8 Virtualisation . . . . . 112
- 7.9 Emulation . . . . . 123
- 7.10 Summary . . . . . 137
- 8 Preservation of Intelligibility of Digital Objects** . . . . . 139
- Co-authors Yannis Tzitzikas, Yannis Marketakis,  
and Vassilis Christophides
- 8.1 On Digital Objects and Dependencies . . . . . 139
- 8.2 A Formal Model for the Intelligibility of Digital Objects . . . . . 142
- 8.3 Modelling and Implementation Frameworks . . . . . 163
- 8.4 Summary . . . . . 166
- 9 Understandability and Usability of Data** . . . . . 167
- 9.1 Re-Use of Digital Objects – Interoperability  
and Preservation . . . . . 168
- 9.2 Use of Existing Software . . . . . 171
- 9.3 Creation of New Software . . . . . 173
- 9.4 Without Software . . . . . 173
- 9.5 Software as the Digital Object Being Preserved . . . . . 174
- 9.6 Digital Archaeology, Digital Forensics and Re-Use . . . . . 174
- 9.7 Multiple Objects . . . . . 175
- 9.8 Summary . . . . . 175
- 10 In Addition to Understanding It – What Is It?: Preservation**
- Description Information** . . . . . 177
- 10.1 Introduction . . . . . 177
- 10.2 Fixity Information . . . . . 177
- 10.3 Reference Information . . . . . 178
- 10.4 Context Information . . . . . 184
- 10.5 Provenance Information . . . . . 184
- 10.6 Access Rights Management . . . . . 185
- 10.7 Summary . . . . . 190

- 11 Linking Data and “Metadata”: Packaging** . . . . . 191
  - 11.1 Information Packaging Overview . . . . . 191
  - 11.2 Archival Information Packaging . . . . . 192
  - 11.3 XFDU . . . . . 193
  - 11.4 Summary . . . . . 196
- 12 Basic Preservation Strategies** . . . . . 197
  - 12.1 Description – Adding Representation Information . . . . . 198
  - 12.2 Maintaining Access . . . . . 198
  - 12.3 Migration/Transformation . . . . . 200
  - 12.4 Summary . . . . . 202
- 13 Authenticity** . . . . . 203
  - 13.1 Background to Authenticity . . . . . 204
  - 13.2 OAIS Definition of Authenticity . . . . . 205
  - 13.3 Elements of the Authenticity Conceptual Model . . . . . 208
  - 13.4 Overall Authenticity Model . . . . . 212
  - 13.5 Authenticity Evidence . . . . . 214
  - 13.6 Significant Properties . . . . . 214
  - 13.7 Prototype Authenticity Evidence Capture Tool . . . . . 221
  - 13.8 Summary . . . . . 232
- 14 Advanced Preservation Analysis** . . . . . 233
  - Co-author Esther Conway
  - 14.1 Preliminary Investigation of Data Holdings . . . . . 234
  - 14.2 Stakeholder and Archive Analysis . . . . . 235
  - 14.3 Defining a Preservation Objective . . . . . 237
  - 14.4 Defining a Designated User Community . . . . . 238
  - 14.5 Preservation Information Flows . . . . . 240
  - 14.6 Preservation Strategy Topics . . . . . 243
  - 14.7 Preservation Plans . . . . . 245
  - 14.8 Cost/Benefit/Risk Analysis . . . . . 245
  - 14.9 Preservation Analysis Summary . . . . . 246
  - 14.10 Preservation Analysis and Representation Information  
in More Detail . . . . . 246
  - 14.11 Network Modelling Approach . . . . . 247
  - 14.12 Summary . . . . . 264
- Part II Practice – Use and Validation of the Tools and  
Techniques that Can Be Used for Preserving Digitally  
Encoded Information**
- 15 Testing Claims About Digital Preservation** . . . . . 267
  - 15.1 “Accelerated Lifetime” Testing of Digital Preservation  
Techniques . . . . . 267
  - 15.2 Summary . . . . . 269

<b>16</b>	<b>Tools for Countering the Threats to Digital Preservation</b>	271
16.1	Key Preservation Components and Infrastructure	272
16.2	Discipline Independent Aspects	276
16.3	Discipline Dependence: Toolboxes/Libraries	284
16.4	Key Infrastructure Components	284
16.5	Information Package Management	285
16.6	Information Access	287
16.7	Designated Community, Knowledge and Provenance Management	287
16.8	Communication Management	288
16.9	Security Management	289
<b>17</b>	<b>The CASPAR Key Components Implementation</b>	291
17.1	Design Considerations	291
17.2	Registry/Repository of Representation Information Details	291
17.3	Virtualizer	297
17.4	Knowledge Gap Manager	301
17.5	Preservation Orchestration Manager	303
17.6	Preservation DataStores	305
17.7	Data Access and Security	315
17.8	Digital Rights Management Details	318
17.9	Find – Finding Manager	321
17.10	Information Packaging Details	322
17.11	Authenticity Manager Toolkit	332
17.12	Representation Information Toolkit	333
17.13	Key Components – Summary	335
17.14	Integrated tools	337
<b>18</b>	<b>Overview of the Testbeds</b>	341
18.1	Typical Preservation Scenarios	341
18.2	Generic Criteria and Method to Organise and to Evaluate the Testbeds	342
18.3	Cross References Between Scenarios and Changes	343
<b>19</b>	<b>STFC Science Testbed</b>	345
19.1	Dataset Selection	345
19.2	Challenges Addressed	345
19.3	Preservation Aims	347
19.4	Preservation Analysis	347
19.5	MST RADAR Scenarios	347
19.6	Ionosonde Data and the WDC Scenarios	361
19.7	Summary of Testbed Checks	366
<b>20</b>	<b>European Space Agency Testbed</b>	367
20.1	Dataset Selection	369
20.2	Challenge Addressed	370
20.3	Preservation Aim	372

20.4 Preservation Analysis . . . . . 372

20.5 Scenario ESA1 – Operating System Change . . . . . 372

20.6 Additional Workflow Scenarios . . . . . 384

20.7 Conclusions . . . . . 386

**21 Cultural Heritage Testbed . . . . . 387**

21.1 Dataset Selection . . . . . 388

21.2 Challenges Addressed . . . . . 396

21.3 Preservation Aim . . . . . 396

21.4 Preservation Analysis . . . . . 396

21.5 Scenario UNESCO1: Villa LIVIA . . . . . 397

21.6 Related Documentation . . . . . 406

21.7 Other Misc Data with a Brief Description . . . . . 406

21.8 Glossary . . . . . 406

**22 Contemporary Performing Arts Testbed . . . . . 407**

22.1 Historical Introduction to the Issue . . . . . 407

22.2 An Insight into Objects . . . . . 409

22.3 Challenges of Preservation . . . . . 411

22.4 Preserving the Real-Time Processes . . . . . 412

22.5 Interactive Multimedia Performance . . . . . 419

22.6 CIANT Testbed . . . . . 426

22.7 Summary . . . . . 428

**Part III Is Money Well Spent? Cutting the Cost and Making  
Sure Money Is Not Wasted**

**23 Sharing the Effort . . . . . 431**

23.1 Chain of Preservation . . . . . 431

23.2 Mechanisms for Sharing the Burden of Preservation . . . . . 431

**24 Infrastructure Roadmap . . . . . 435**

24.1 Requirements for a Science Data Infrastructure . . . . . 435

24.2 Possible Financial Infrastructure Concepts  
and Components . . . . . 436

24.3 Possible Organisational and Social Infrastructure  
Concepts and Components . . . . . 437

24.4 Possible Policy Infrastructure Concepts and Components . . . . . 446

24.5 Virtualisation of Policies, Resources and Processes . . . . . 448

24.6 Technical Science Data Concepts and Components . . . . . 449

24.7 Aspects Excluded from This Roadmap . . . . . 456

24.8 Relationship to Other Infrastructures . . . . . 457

24.9 Summary . . . . . 459

**25 Who Is Doing a Good Job? Audit and Certification . . . . . 461**

25.1 Background . . . . . 461

25.2 TRAC and Related Documents . . . . . 463

25.3	Development of an ISO Accreditation and Certification Process . . . . .	464
25.4	Understanding the ISO Trusted Digital Repository Metrics . . . . .	465
25.5	Summary . . . . .	480
<b>26</b>	<b>Final Thoughts . . . . .</b>	<b>481</b>
	<b>References . . . . .</b>	<b>483</b>
	<b>Contributors . . . . .</b>	<b>495</b>
