1	The History of Climate	1
1.1	Changing the Climate for Development	9
1.2	Formation of Asia	14
1.3	Climate in the Pre-pottery Neolithic	17
1.4	Climate, the First Technological Revolution and Urbanization	18
1.5	Asian Climate After Kyoto Protocol	19
	References	22
2	Industrial Revolutions, Climate Change and Asia	27
2.1	Industrial Revolution and Asia	29
2.2	Air Pollution and CO ₂	34
	References	40
3	Changing Environment: Where Will This Lead to?	45
3.1	Changing Environment and Impact on Biodiversity in Asian Context	50
3.2	Climate Change and Asian Economics	56
3.3	Transcending the Tensions Between Climate and Development	61
	References	65
4	Greenhouse Gas Inventory	69
4.1	Green House Gases and Asia	77
4.2	Countrywise Scenario in Asia	79
	References	87
5	Climate Change and Hydro-Meteorological Risks in Asia	89
5.1	Introduction to Hydro-Meteorological Disasters	90
5.2	Effect of Climate Change on Hydro-Meteorological Risk	95
	References	99

6 Asian Geological Settings: Its Effect on Climate Change and Disaster	103
6.1 Geological Setting and Common Disasters in Asia	104
6.1.1 Main Geographical Features	105
6.2 Climate Change and Disasters After Industrialization	113
References	114
7 Climatic and Non Climatic Hazards: Asian Context	117
7.1 Land Movement Disasters	122
7.2 Water related Disasters	127
7.3 Weather Disasters	133
7.4 Fire	137
7.5 Health and Disease	140
7.6 Cumulative Effect of Man Made and Climatic Hazards	145
References	146
8 Predicting Disaster: Asian Scenario	149
8.1 Non-climate Induced Risks	150
8.2 Climate Induced Disasters	151
References	154
9 Early Warning Systems and Their Effectiveness in Asia	155
9.1 Biological Warning Systems	157
9.2 Man-Made Warning Systems	158
References	164
10 Disaster Risk Reduction and Climate Change Adaptation in Asia	167
10.1 Adaptation and Adoption: Human Strategy	171
10.2 Adaptation and Adoption: Strategy of Other Species	181
10.3 Adaptation to Climate Change in the Context of Sustainable Development and Equity	182
References	186
11 Prediction of Regional Climate Change	189
11.1 Factors Affecting Asian Regional Climate	191
11.2 Future Emphasis	192
References	193
12 Capacity Assessment: Is Asia Ready to Face Climate Change	195
12.1 Climate Forecast and Data Products That Support Decision-Making	196
12.2 Making Decision-Support Information Responsive to Decision-Maker	197

12.3 Looking Toward the Future	197
References	200
13 Hazard and Risk Assessment	201
13.1 Aerial Mapping and Surveying	202
13.2 Riverine Flooding Analyses	203
13.3 Coastal Flooding Analyses and Mapping	206
13.4 Shallow Flooding Analyses and Mapping	208
13.5 Ice-Jam Analyses and Mapping	209
13.6 Alluvial Fan Flooding Analyses and Mapping	210
13.7 Mapping of Areas Protected by Levee Systems	211
References	212
14 Preventing and Mitigation of Disasters	213
14.1 Coping with Natural Hazards	218
14.2 Planning and Preparation for Different Time Scales	219
14.3 Planning for Environmental Emergencies and Climate Change	220
14.4 Being Prepared Saves Lives	221
References	224
15 Sea Level Change and Asia	225
15.1 History and Reality of Sea level Change	226
15.2 Impact on Flora and Fauna	228
15.3 Impact on Asian Society	229
References	231
16 Impact on Biodiversity: Asian Scenario	235
16.1 Changing Species Demography	236
16.2 Vanishing Species	238
References	241
17 Changing Livelihood Due to Climate Change: Asian Perspective	245
17.1 Difficulties in Agriculture	250
17.1.1 Rice	253
17.1.2 Potato	253
17.1.3 Wheat	254
17.1.4 Maize	254
17.1.5 Tomato	254
17.1.6 Cassava	254
17.1.7 Rubber	254
17.1.8 Sugar Cane	255
17.1.9 Groundnut	255

17.1.10	Garlic	255
17.1.11	Onion	255
17.1.12	Oil Palm	256
17.1.13	Asparagus	256
17.1.14	Cocoa	256
17.1.15	Horticultural Crops	256
17.1.16	Livestock	257
17.1.17	Pests and Diseases	258
17.2	Dropping Fish Reserves	260
17.3	Diminishing Forest	263
	References	264
18	Accelerating Innovation and Decelerating Climate Change	271
18.1	The Tools, Technologies, and Institutions	272
18.2	International Collaboration	272
18.3	Kyoto Protocol and Asia	274
18.4	Public Programs, Policies, and Innovation	276
18.5	Existing Climate-Finance Instruments	277
18.5.1	Uncertain Environmental Integrity	277
18.5.2	Inadequate Contribution to Sustainable Development	278
18.5.3	Weak Governance and Inefficient Operation	278
18.5.4	Limited Scope	278
18.5.5	Uncertainty About Market Continuity	278
18.5.6	Cash and Carbon May Not Move in Same Direction	278
	References	279
Appendix A:	Glossary	283
Appendix B:	Abbreviation Used in This Book	305
Appendix C:	Impact of Climate Change on Individual Asian Countries	309

Coping with Climate Change

Principles and Asian Context

Chandrappa, R.; Gupta, S.; Kulshrestha, U.C.

2011, XXI, 370 p. 78 illus., Hardcover

ISBN: 978-3-642-19673-7
