Table of Contents

Preface ..................................................................................................................................................................................................... v
Organization ............................................................................................................................................................................................ xi

**IPS² - Keynotes**

Service Cost Estimation Challenges in Industrial Product-Service Systems ................................................................. 1
R. Roy, J. A. Erkoyuncu
The Volkswagen combined Heat and Power Unit - Automotive Know-How for Intelligent Energy Production ................. 11
F. Rudolph, H. Manz
Service Knowledge Management for Product Service Systems – a systems design approach – ........................................ 12
A. Harrison
Consumable and Expendable Material Support as an Element of Modular Product Service Systems in the Aviation MRO Industry ..................................................................................................................................................................................................... 13
M. Mansour

**IPS² - Review and Perspectives**

Fan Out of Japanese Service Engineering - the State of the Art - .............................................................................................. 15
Y. Shimomura, K. Watanabe, F. Akasaka, K. Kimita
Elements of Change in the Transformation towards Product Service Systems ................................................................. 21
D. Vladimirova, S. Evans, V. Martinez, J. Kingston
Research on Services in the Manufacturing Industry based on a Holistic Viewpoint and Interdisciplinary Approach .......... 27
Product Adaptation for Industrial Product-Service Systems – Characteristics, Motives and Challenges .......................... 33
S. Biege, M. Schröter, M. Weissenberger-Eibl
Mechanisms to conduct Life Cycles of Extended Products ................................................................................................... 39
M. Seifert, K.-D. Thoben, J. Eschenbächer
Towards a Framework for developing Product/Service Systems ......................................................................................... 44
O. Isaksson, T. C. Larsson, P. Johansson

**IPS² - Design**

Communicating the Value of PSS Design Alternatives using Color-Coded CAD Models .................................................. 51
A. Bertoni, M. Bertoni, O. Isaksson
Influences of the IPS² Business Model on the Development of a Micro Milling Spindle ..................................................... 57
E. Uhlmann, C. Gabriel, N. Raue, C. Stelzer
Eco-Innovative Design of Product Service Systems by using the Substance-Field Analysis Method ............................... 63
J. L. Chen, S.-C. Huang
Case Based Idea Generation Method for Sustainable Businesses ........................................................................................... 69
S. Kondoh, N. Mishima
Ontology-Based Approach for Supporting Creativity in a PSS Design Methodology ......................................................... 75
M. Fulea, S. Brad
Customer oriented Configuration of Product-Service Systems ................................................................................................. 81
C. Mannweiler, J. C. Aurich
An Engineering Method for Supporting Customer-Oriented Service Improvement ............................................................... 87
F. Akasaka, R. Chiba, Y. Shimomura
Customer Value Optimization in Product Service System Design ............................................................................................ 93
Y. Tan, X. Chu, Z. Zhang, X. Geng
# Integrating PSS Design Methods with Systems for Customer Value Management and Customer Satisfaction Management
A. Taabodi, T. Sakao

# Problem Definition in Designing Product-Service Systems
G. Annamalai, R. Roy, M. Cakkol

# Small Scale Socio-Technical Experiments as Stepping Stones for Eco-Efficient Product-Service Systems Diffusion: a New Role for Strategic Design for Sustainability
F. Ceschin, C. Vezzoli, P. J. Vergragt

# Towards Sustainability-Driven Innovation through Product-Service Systems
A. W. Thompson, T. C. Larsson, G. Broman

# A New PSS Conceptual Design Approach Driven by User Task Model
X. Geng, X. Chu

# Product-Service Systems (PSS) Design Process and Design Support Systems

# Analyzing the Practical Usability of the Heterogeneous Modeling Approach for Conceptual Product-Service System Development
T. Sadek, M. Köster

# Criteria for assessing the Value of Product Service System Design Alternatives: an Aerospace Investigation
M. Bertoni, H. Eres, O. Isaksson

# Design of a Product-Service Systems Business Model: Strategic Analysis and Option Generation
J. Van Ostaeyen, B. Neels, J. R. Duflou

# Integrated Evaluation of a PSS Business Case and a PSS Design Method – Application of the PSS Layer Method to an industrial Drilling Solution
T. Sakao, S. Paulsson, P. Müller

## IPS² - From Concept to Application

# Simulation of Life Cycle Costs of a Product Service System
G. Lanza, B. Behmann, P. Werner, S. Vöhringer

# Flexible Resource Planning in the Context of Dynamic IPS² Business Models
H. Meier, B. Funke, M. Boßlau

# Learning About Product Service Systems – Conveying Information to Improve the Benefit Evaluation and Stabilize Preferences
M. Reise, W.-C. Strotmann, M. Karger, J. Gesing

# A Simplified Decision Making Model for Employing Product Service System in Industry at a Preliminary Planning Stage
R. Khumboon, S. Kara, S. Ibbotson

# Indoor Location Analytics for Designing a Location-Based Product-Service System
S. K. Kim, J.-W. Ro

## IPS² - Integration and Process Management

# Opportunities for enhanced Project Management in PSS Development
P. Müller, R. Stark

# Toward Establishing Design Methods for Cloud-Based Business Platforms
S. Hosono, K. Kimita, F. Akasaka, T. Hara, Y. Shimomura, T. Arai

# Sharing Expertise: Easier Said Than Done
J. Holmqvist, J. Wenngren, Å. Ericson, C. Johansson, P. Thor

# Measuring Innovation Capability – Assessing Collaborative Performance in Product-Service System Innovation
J. Wallin, A. Larsson, O. Isaksson, T. Larsson

# Descriptive Service Product Architecture for Communication Service Provider
O. Budde, J. Golovatchev
**IPS² - Knowledge & Information Management**

Knowledge Feedback to the IPS² Development  ................................................................. 219  
H. Bochnig, E. Uhlmann, R. Gegusch, G. Seliger

Enhancement in Industrial PSS Design based on TRIZ: a Case Study  .......................... 225  
G. Pezzotta, D. Regazzoni, S. Cavallieri, C. Rizzi

An Ontology for Product-Service Systems ...................................................................... 231  
G. Annamalai, R. Hussain, M. Cakkol, R. Roy, S. Evans, A. Tiwari

Data Stream Mining for Increased Functional Product Availability Awareness ............. 237  
A. Alzghoul, M. Löfstrand, L. Karlsson, M. Karlberg

Industry Practices and Challenges in Using Product in Use Data to Inform PSS Conceptual Design  ................................................................................ 242  
R. Hussain, H. Lockett, G. A. Vasantha

**IPS² - Evaluation Methods**

Pathways of Servitisation in Mobility Systems ................................................................. 249  
C. Herrmann, K. Kuntzky, J. Stehr

Development of an Evaluation Scheme for Product-Service Systems ......................... 255  
K.-J. Kim, D.-H. Lee, C.-H. Lim, J.-Y. Heo, Y.-S. Hong, K.-T. Park

Economic Relevance of IPS2 Flexibility ......................................................................... 261  
M. Steven, S. Alevifard, J. Keine genannt Schulte

Customers’ Satisfaction on Estimates of Queue Waiting Time in Service Delivery ............ 266  
S. Shimada, K. Taira, T. Hara, T. Arai

Integrating Environmental Assessment Methods: Development of a New Approach ........ 272  
V. Moreau, N. Gondran, V. Laforest

**IPS² - Business Models and Case Studies**

Application of Eco-Services in Automotive Industry for Commercial Customers .......... 279  
K. Kuntzky, C. Herrmann

Scenario Management for Sustainable Strategy Development in the Automotive Aftermarket .......................................................................................... 285  
U. Dombrowski, C. Engel, S. Schulze

PSS Contracts for Rail and Road Infrastructure ............................................................... 291  
S. Lingegård, M. Lindahl, N. Svensson

A Study on Determination of Upgradability of Laptop PC Components ......................... 297  
K. Mishima, N. Mishima

A Study on Comparison of Different PSS Concepts Based on Value Creation Efficiency ................................................................. 303  
Y.-Y. Chun, S. Kondoh, N. Mishima, K.-M. Lee

An Overview on Degradation Modelling for Service Cost Estimation ......................... 309  
P. Fernandes, R. Roy, J. Mehnen, A. Harrison

Complexity and Flexibility of IPS² Across Various Planning Levels .............................. 315  
H. Meier, M. Steven, B. Funke, M. Bollwaut, J. Keine genannt Schulte

Present Situation of Customer Participation in Service Design and Production - Interviewing Tour Agent, Airline and Elevator Maintenance Company .................................................................................. 320  

The Smart Real-Time Factory as a Product Service System .......................................... 326  
B. Hameed, J. Minguez, M. Wörner, P. Hollstein, S. Zor, S. Sticher, F. Dürr, K. Rothermel

Business Model Elements for Product-Service System .................................................. 332  
A. P. B. Barquet, V. P. Cunha, M. G. Oliveira, H. Rozenfeld

Organizational Buying Behavior in Case of IPS² ............................................................. 338  
M. Rase, K. Maiwald

Building a Network of SME for a Global PSS Infrastructure in Complex High-Tech Systems: Example of Urban Applications ................................................. 344  
A. Lelah, F. Mathieux, D. Brissaud

**Index of Authors** ........................................................................................................ 351
Functional Thinking for Value Creation
Hesselbach, J.; Herrmann, C. (Eds.)
2011, XI, 352 p., Hardcover
ISBN: 978-3-642-19688-1
