# Contents

1 Genetic and Phenotypic Diversity of Plant Growth Promoting Bacilli ......................................................... 1
  Anelise Beneduzi and Luciane M.P. Passaglia

2 *Bacillus mojavensis*: Its Endophytic Nature, the Surfactins, and Their Role in the Plant Response to Infection by *Fusarium verticillioides* ............................................... 21
  Charles W. Bacon and Dorothy M. Hinton

3 Use of Plant-Associated *Bacillus* Strains as Biofertilizers and Biocontrol Agents in Agriculture ......................... 41
  Rainer Borriss

4 Mechanisms of Fluorescent Pseudomonads That Mediate Biological Control of Phytopathogens and Plant Growth Promotion of Crop Plants .............................................. 77
  J. Pathma, R. Kamaraj Kennedy, and N. Sakthivel

5 Role of *Pseudomonas aurantiaca* in Crop Improvement .............. 107
  Javier A. Andrés, Marisa Rovera, Lorena B. Guiñazú, Nicolás A. Pastor, and Susana B. Rosas

6 What Is Expected from the Genus *Azospirillum* as a Plant Growth-Promoting Bacteria? ........................................ 123
  Veronica Massena Reis, Kátia Regina dos Santos Teixeira, and Raúl Osvaldo Pedraza

7 Plasmid Plasticity in the Plant-Associated Bacteria of the Genus *Azospirillum* .................................................. 139
  Elena I. Katsy
8 Enterobacter: Role in Plant Growth Promotion ...................... 159
   Chaitanya Kumar Jha, Abhinav Aeron, Baldev V. Patel,
   Dinesh K. Maheshwari, and Meenu Saraf

9 Nitrogen-Fixing Endophytic Bacteria for Improved
   Plant Growth ....................................................... 183
   Sharon Lafferty Doty

10 Endophytic Actinomycetes: Biocontrol Agents
    and Growth Promoters ............................................. 201
    Masafumi Shimizu

11 Bacteria Associated with Orchid Roots ....................... 221
    Elena Tsavkelova

12 Diversity and Beneficial Interactions Among Methylobacterium
    and Plants ........................................................... 259
    Munusamy Madhaiyan, Puneet Singh Chauhan, Woo Jong Yim,
    Hari Prasanna Deka Boruah, and Tong Min Sa

13 Actinobacteria–Plant Interactions: A Boon to Agriculture ........ 285
    Janice L. Strap

14 Functional Significance of Insect Gut Bacteria and Their
    Role in Host Insect Processes, Development, and Crop
    Production .............................................................. 309
    P. Indiragandhi, R. Anandham, and Tong Min Sa

15 Potentials for Biological Control of Plant Diseases by
    Lysobacter spp., with Special Reference to Strain SB-K88 ........ 335
    Md. Tofazzal Islam

Index ........................................................................... 365
