

# Contents

<b>Multimetallic Multifunctional Catalysts for Asymmetric Reactions</b> .....	1
Masakatsu Shibasaki, Motomu Kanai, Shigeki Matsunaga, and Naoya Kumagai	
<b>Bifunctional Transition Metal-Based Molecular Catalysts for Asymmetric Syntheses</b> .....	31
Takao Ikariya	
<b>Bond Activation by Metal–Ligand Cooperation: Design of “Green” Catalytic Reactions Based on Aromatization–Dearomatization of Pincer Complexes</b> .....	55
Chidambaram Gunanathan and David Milstein	
<b>Shvo’s Catalyst in Hydrogen Transfer Reactions</b> .....	85
Madeleine C. Warner, Charles P. Casey, and Jan-E. Bäckvall	
<b>Liquid-Phase Selective Oxidation by Multimetallic Active Sites of Polyoxometalate-Based Molecular Catalysts</b> .....	127
Noritaka Mizuno, Keigo Kamata, and Kazuya Yamaguchi	
<b>Bifunctional Acid Catalysts for Organic Synthesis</b> .....	161
Pingfan Li and Hisashi Yamamoto	
<b>Bifunctional Phebox Complexes for Asymmetric Catalysis</b> .....	185
Jun-ichi Ito and Hisao Nishiyama	
<b>Index</b> .....	207

Bifunctional Molecular Catalysis

Ikariya, T.; Shibasaki, M. (Eds.)

2011, XII, 212 p., Hardcover

ISBN: 978-3-642-20730-3
