## Contents

**PART I: VISION AND FUTURE PERSPECTIVES** ........................................................................................................ 1

- Change in Manufacturing – Research and Industrial Challenges ........................................................................ 2  
  H. ElMaraghy, T. Algedawy, A. Azab, W. ElMaraghy
- Adaptive Job Control in the Cognitive Factory .................................................................................................. 10  
  M. F. Zaeh, M. Ostgathe, F. Geiger, G. Reinhart
- Mass Customisation as a Competitive Factor for Sustainability ..................................................................... 18  
  A. Bernard, J. Daaboul, F. Laroche, C. Da Cunha

**PART II: MANUFACTURING SYSTEMS** .............................................................................................................. 27

- **MANUFACTURING SYSTEM DESIGN, PLANNING, OPERATION, AND CONTROL** ................................................. 28
  - Linnaean and Cladistic Classifications of Manufacturing Systems ........................................................................ 29  
    J. S. Baldwin, C. Rose-Anderssen, K. Ridgway
  - Integrating Ability Limitations into Assembly System Design ........................................................................ 35  
    G. Reinhart, J. Egbers
  - Selection Catalogue of Kinematic Configuration for Pick and Place Application ............................................. 41  
    K. Chandrasekarman, A. Djuric, W. H. ElMaraghy
  - A Transition in Production and Planning for a Changeable Micro Manufacturing System ............................. 47  
    B. Röhlig, J. P. Wulfsberg
  - Using formal methods to model hybrid manufacturing processes ....................................................................... 52  
    Aydin Nassehi, Stephen Newman, Vimal Dhokia, Zicheng Zhu, Reza Imani Asrai
  - Considering Reconfigurability Characteristics in Production System Design .................................................... 57  
    Carin Rösiö
  - Ontology-driven Requirements Elicitation in Product Configuration Systems .............................................. 63  
    Wicakseno, H.; Schubert, V.; Rogalski, S.; Ait Laydi, Y.; Ovtcharova, J.
  - Early Alert Cockpits for Changeable Manufacturing Systems ......................................................................... 68  
  - New Methods to Create Variants of 3-D Simulation Models of Manufacturing Systems ............................. 74  
    R. Wischnewski, J. Rossmann, O. Stern
  - Product variety, flexibility and energy use in hot rolling mills ........................................................................... 80  
    J. Storck
  - Lost Value Mapping – A Fast Method to Track Lost Value in a Production Flow ........................................... 86  
    Pawel Pawlewski, Zbigniew J. Pasek

**CHANGEABILITY, FLEXIBILITY, RE-CONFIGURABILITY AND THEIR METRICS** .......................................................... 92

- A survey on changeability of machine tools ..................................................................................................... 93  
  Philip Hohlstein; Heiner Lasi; Hans-Georg Kemper
- Quantifying the Effect of Enterprise Strategic Flexibility .................................................................................. 99  
  A. Arafo, W.H. ElMaraghy
- Decision Making During Design and Reconfiguration of Modular Assembly Lines ....................................... 105  
  K. Tracht, S. Hogreve
- Development of manufacturing process chains considering uncertainty ......................................................... 111  
  S.O. Schmitt, J. Avemann, P. Groche
- Optimal Sequencing of Machining Operations for Changeable Manufacturing ............................................... 117  
  Ahmed Azab, Attia H. Gomaa
- Manufacturing Concepts of the Future – Upcoming Technologies Solving Upcoming Challenges .................. 123  
  R. Hadar, A. Bilberg
Analysis of Reconfigurable 2DOF Machinery for Intelligent Manufacturing Systems ........................................... 129
Ana Djurić; Waguih H. ElMaraghy

Mobile Systems for Machining Large Work Pieces .................................................. 135
Neugebauer, R., Pribor, U., Rentzsch, H., Ihlenfeldt, S., Hoffmann, D.

Methodology for Flexibility Measurement in Semi-automatic Production ................. 141
Rogalski, S.; Wicaksono, H.

Automatic Configuration (Plug & Produce) of Robot Systems – Data-Interpretation and Exchange .................................................. 147
G. Reinhart, S. Krug

ADAPTABILITY AND EMERGENCE ........................................................................ 153

D.T. Matt

Dealing with the unpredictable: An Evolvable Robotic Assembly Cell .................. 160
M. Onori, P. Neves, H. Akillogiu, A. Maffei, A. Hofmann, N. Siltala

The Manufacturing Adaptability Scorecard - a tool to analyze the benefit of autonomous production processes .... 166
Corinna Fohrholz, Norbert Gronau

Framework for Distributed Manufacturing Systems ................................................. 172
H. Nylund, K. Salminen, P. H. Andersson

Conception and evaluation of an age-differentiated task analysis and screening method .................................................. 178
M. Keil, B. Spanner-Ulmer

Adaptive Process Chain Optimisation of Manufacturing Systems ............................. 184
B. Denkena, J. Henjes, L. E. Lorenzen

Mapping the Task Time Performance of Human-Centred Assembly Systems .................. 189
R. Folgado, E. Henriques, P. Peças

PART III: PRODUCT AND PRODUCTION DEVELOPMENT AND CO-DEVELOPMENT .......... 195

CO- EVOLUTION OF PRODUCTS, PROCESSES AND MANUFACTURING SYSTEMS .......... 196

From Dedicated to Platform-Based Co-Development of Products and Manufacturing Systems .................................................. 197
M.T. Michaelis, H. Johannesson

Nature Inspired Co-evolution in the Manufacturing World of Artefacts .................. 203
T. AlGedawwy, H. A. ElMaraghy

From product architecture to assembly sequence: a method to develop conceptual Design for Assembly based on interface analysis .................................................. 209
C. Favi, M. Germani

Networked product and production development for lithium-ion batteries .................. 215
Kampker, A.; Franzkoch, B.; Nowacki, C.

Requirements Management as a Success Factor for Simultaneous Engineering .................. 221
G. Reinhart, J.F. Meis

VARIANT- ORIENTED MODELLING AND MANAGEMENT OF VARIATION .......... 227

Bottom-Up Component Oriented FE-Modelling of Machine Tools .......................... 228
A. Dadalau, A. Verl

Assessment of the product based time expanding effect ........................................... 234
Jander, H., Spanner-Ulmer, B.

Feature-based component description for functional graded parts .......................... 239
F. Bauer, D. Dettmer, J. Gausemeier

Towards a Feature-Based and Fine-Grain Product Repository for Heterogeneous Computer-Aided Systems .......................... 245
M. M. Uddin, Y.-S. Ma

Sustainable System Risk Analysis: A Triple Bottom Line Approach ......................... 251
Z. A. Ali-Qureshi, W. ElMaraghy

PRODUCT, PROCESS AND SYSTEMS MODELLING, PROTOTYPING AND DEVELOPMENT .......... 257

Construction of a Digital Facebow ........................................................................ 258
E. Solaberrieta, A. Arias, O. Etxaniz, R. Minguez

Evaluation of RFID Technology Application in Production of Fiber-Reinforced Plastics ........................................................................ 263
T. R. Philipp, G. Reinhart
PART IV: GLOBAL COMPETITIVENESS AND SUSTAINABILITY

SELECTING VIRTUAL REALITY TOOLS IN RELATION WITH THEIR USE CONTEXT................................................. 269

R. G. J. Damgrave, D. Lutters, J. P. Thalen

A FRAMEWORK ENABLING DATA INTEGRATION FOR VIRTUAL PRODUCTION ................................................. 275

A FOUNDATION FOR INTEGRATING HAND HELD MOBILE DEVICES IN A COMPUTER AIDED MANUFACTURING ENVIRONMENT ................................................................. 281

R. Hedrick, J. Urbanic

PARAMETRIC INTERNAL MATRIX STRUCTURES FOR COMPONENTS BUILT BY FUSED DEPOSITION MODELLING .......... 287

L. Villalpando, J. Urbanic

AN EXPERIMENTAL STUDY TO DETERMINE GEOMETRIC AND DIMENSIONAL ACCURACY IMPACT FACTORS FOR FUSED DEPOSITION ...... 293

S. Saqib, J. Urbanic

FLEXIBLE TOOL-PATH GENERATION FOR VARIABLE GEOMETRY ........................................................................ 299

Sawula, D.A.; Lin, Y.P.; Fleisig, R.V.; Spence, A.D.

A SYSTEM FOR PROVIDING VISUAL FEEDBACK OF MACHINE FAULTS ................................................................ 305

K. Hughes, G. Szklonyk, B. Surgenor

AN INNOVATIVE CROSS WEDGE ROLLING PREFORMING OPERATION FOR WARM FORGING ................................. 310

H. Kache, R. Nickel, B.-A. Behrens

SYSTEM DYNAMIC MODELS AND REAL-TIME SIMULATION OF COMPLEX MATERIAL FLOW SYSTEMS ................. 316

S. Hoher, P. Schindler, S. Göttlich, V. Schleper, S. Röck

EARLY IDENTIFICATION OF MANUFACTURING PROCESS INFLUENCES ON PRODUCT FAILURE BEHAVIOUR .......... 322

Stefan Bracke, Stephan Haller

THE ASPECTS OF ENERGY IN THE BODY IN WHITE PROCESS REGARDING PRODUCT DEVELOPMENT AND PRODUCTION PLANNING ...... 328

M. Schacht, R. Schulte, F. Mantwill

REFINING PROCESS LOGIC FROM CNC PART PROGRAMMES FOR INTEGRATED STEP-NC COMPLIANT MANUFACTURING ................................................................. 333

X. Zhang, A. Nassehi, V. G. Dhokia, S. T. Newman

ENABLERS OF CHANGE ........................................................................................................................................ 339

Synchronisation of Distributed Configuration Tools using Features Models ......................................................... 340

Brecher, C.; Karlberger, A.; Herfs, W.

Change Management as an Enabler of Employee Knowledge Integration into the Design of Planning Procedures . 346

Tracht, K., Welkert, F., Funke, L.

A reconfiguration concept to enable versatile production in the automotive factories..................................... 352

Sarfraz Ul Haque Minhas, Ulrich Berger

Methodology for the Support of Reconfiguration Processes in the Automotive Body Shop .................................. 358

Reinhart, G.; Meling, F.

Gripper with Integrated Three-Dimensional Force Detection .............................................................................. 364

K. Tracht, S. Hogreve, F. Borchers

Change-Beneficial Process Architectures and the Human as a Change Enabler .................................................. 370

Dennis Gossmann; Carsten Wagner; Tim Klemke; Peter Nyhuis

Adaptive and Selective Assembling of Microscope Objectives ............................................................................. 376

K.-P. Zocher

PART IV: GLOBAL COMPETITIVENESS AND SUSTAINABILITY ......................................................................... 383

DRIVERS, ENABLERS, STRATEGIES AND INDICES .......................................................................................... 384

An Asian Perspective on Global Sourcing ............................................................................................................. 385

Schneider, C.; Finke, G.; Sproedt, A.; Alard, R.; Schönsleben, P.

Strategic Evaluation of Technology Chains for Producing Companies .............................................................. 391

Reinhart, G., Schindler, S.

Strategic Impact of Global Production – How to Find the Success Measures .................................................... 397

Heinrich Bürstner

Co-operation as a facilitator of manufacturing competitiveness: opportunities and threats .................................. 403

F. Ehrenmann, M. Reiss

Enabling Competitive Design of Next Generation Reconfigurable Manufacturing Enterprises ......................... 409

T. Masood, R.H. Weston

ECONOMIC SUSTAINABILITY FOR MANUFACTURING SYSTEMS AND PRODUCTS .......................................... 415

Integrated Environmental and Economic Assessment of Production Systems ...................................................... 416

A. Sproedt, J. Plehn, C. Schneider, P. Schönsleben
Towards Sustainable Development and Sustainable Production in Finnish Manufacturing Industry

Mikko Koho, Mikko Tapaninaho, Seppo Torvinen

Employee Participation in the Implementation of Lean Production Systems

U. Dombrowski; T. Mielke; S. Schulze

Challenges Facing Manufacturing to Move towards a Green Society with Clean Energy Vehicles

Masaru Nakano

Qualitative Growth and Sustainability in Organizations – An Overview

B. Seeberg, M. Molauni

MANAGING COMPLEXITY OF PRODUCTS, PROCESSES AND MANUFACTURING SYSTEMS

Enabling Car Body Customization through Automotive Framing Systems Design

A. Al-Zaheer, W. ElMaraghy, Z. J. Pasek

Parts and Assembly Equipment Complexity Dependency Matrix

S. N. Samy, H. ElMaraghy

Analysis of Market Demand Parameters for the Evaluation of Flexibility in Forming Technology

Avemann, J.; Schmitt, S.O.; Ederer, T.; Lorenz, U.; Groche, P.

PRODUCTION AND CO-OPERATION WITHIN GLOBAL NETWORK

Ensuring Human Safety with Offline Simulation and Real-time Workspace Surveillance for Welding of Assemblies

C. Thomas, F. Busch, B. Kuhlenkötter, J. Deuse

A Method for Multi-Scale Modeling of Production Systems

Neumann M., Constantinescu C., Westkämper E.

Efficient analysis, handling and use of customer complaints

Effey, T.; Schmitt, R.

Adaptive, Location-based Shop Floor Control

Reinhart, G.; Niehues, M.; Ostgathe, M.

Relocation in Production networks of a Multi-National-Enterprise

Ponton, P.; Jaehne, M.; Mueller, E.

A Modeling Approach to Analyze Redundancy in Manufacturing Systems

K. Windt, M.-T. Hütt, M. Meyer

Influence of the European Emissions Trading Scheme on MRO Provider of the Civil Aviation Industry

Tracht, K.; Funke, L.; Weikert, F.

DYNAMIC AND GLOBAL MANUFACTURING CAPACITY AND CAPABILITIES

Shifting Bottlenecks in Production Control

Schuh, G.; Potente, T.; Fuchs, S.

Simulation Based Detailed Planning for Agile Manufacturing

Berend Denkena, Leif-Erik Lorenzen, Max Krüger, Justin Schmidt

Product Variety Management in Design and Manufacturing: Challenges and Strategies

T. AlGeddawy, H. ElMaraghy

Capability Assessment and Valuation of the Implementation of Lean Production Methods

Lanza, G., Jondral, A., Book, J.

PART V: ENTERPRISE AND KNOWLEDGE MANAGEMENT

MANUFACTURE AND ORGANIZATIONAL STRUCTURES

A Novel Tool for Assessing and Improving Make-to-Order and Assemble-to-Order Production Systems

M. Koho, S. Torvinen

Reference Planning Processes for Series Production

N. Macke, S. Rulhoff, J. Stejepandic

The effect of manufacturing response time on mitigating the demand risk and facility disruption

Niroomand, I.; Baygi, M.B.; Kuzgunkaya, O.; Bulgak, A.A.

TRANSFORMATION AND CHANGE MANAGEMENT

Cladistic Classification of Ancient Manufacturing Forms and Technologies

C. Rose-Anderssen, J. Baldwin, K. Ridgway

Real-time capable Production Planning and Control in the Order Management of built-to-order Companies

G. Schuh, T. Brosze, S. Kompa, C. Meier
Cross-company coordination in Built-to-Order Production Networks in Machinery and Equipment Industry ........................................ 563
V. Stich, C. Schmidt, C. Meier, S. Cuber, S. Kompa

Type-Oriented Factory Planning with Solution Space Management .......................................................................................... 569
A. Kampker, B. Franzkoch, R. Hilchner

Optimum Restoration of the Shared Pallets Distribution Among Factories and Warehouses ........................................... 574
Takafumi Matsuura, Satomi Wada, Kazumi Numata

A Consortium Leveraged Learning Network .................................................................................................................. 580
V. Townsend, J. Urbanic

Extension of Value Stream Design for the Simulation of Autonomous Production Systems ........................................... 586
Theuer, H.

Building Blocks in an Experimental and Digital Factory .................................................................................................... 592
E. Müller, S. Horbach

A new Approach to Simulation in Production Management ................................................................................................ 598
Lass, S.

**COMPLEX / DYNAMIC SUPPLY CHAINS AND LOGISTICS**.......................................................................................... 604

A Planning Approach for In-plant Milk Run Processes to Optimize Material Provision in Assembly Systems ................. 605
Markus Droste, Jochen Deuse

Impact of Machine-Driven Capacity Constellations on Performance and Dynamics of Job-Shop Systems ................... 611
C. Toonen, D. Lappe, R.V. Donner, B. Scholz-Reiter

Operator Scheduling Under the Lean Manufacturing Principles in Over-Size Product Manufacturing Facilities .......... 617
Kadir Ertogral, Ali Akgrundz

**KNOWLEDGE MANAGEMENT AND LEARNING** ............................................................................................................ 623

Training concept and structure of the Learning Factory advanced Industrial Engineering ................................................... 624
Dinkelmann, M.; Riffelmacher, P.; Westkämper, E.

Supporting Project Execution for Adaptable Production Systems using a flexible software tool ........................................ 630
E. Müller, U. Wagner

Production pilot for co-operation in factory development .................................................................................................... 636
D. Chen, T. Kjellberg, R. Svensson, G. Sivard

Surrogate Modelling as an Enabler for Self Optimisation for Production Processes .................................................... 642
Reisgen U., Beckers M., Buchholz G., Willms K., Lose J., Perge, J., Schmitt, R.

Application Protocols for Standardising of Processes and Data in Digital Manufacturing ............................................... 648
Schallow J., Magenheimer K., Deuse J., Reinhart G.

Partner Selection in Innovation Alliance .......................................................................................................................... 654
Chen, X.; Riedel, R.; Mueller, E.

Human-Centred Model for Application of Lean Production Systems in Networks ......................................................... 660
Uygun, Y.; Straub, N.
Enabling Manufacturing Competitiveness and Economic Sustainability
Proceedings of the 4th International Conference on Changeable, Agile, Reconfigurable and Virtual production (CARV2011), Montreal, Canada, 2-5 October 2011
ElMaraghy, H. (Ed.)
2012, XII, 665 p., Hardcover
ISBN: 978-3-642-23859-8
