## Contents

1. **An Introduction to Fasting, Starvation, and Food Limitation** .......................... 1  
   Marshall D. McCue

2. **A History of Modern Research into Fasting, Starvation, and Inanition** .............. 7  
   Jean-Hervé Lignot and Yvon LeMaho

3. **Starvation in Rotifers: Physiology in an Ecological Context** ........................... 25  
   Kevin L. Kirk

4. **Drosophila as a Model for Starvation: Evolution, Physiology, and Genetics** ........ 37  
   Allen G. Gibbs and Lauren A. Reynolds

5. **Metabolic Transitions During Feast and Famine in Spiders** ............................. 53  
   Johannes Overgaard and Tobias Wang

6. **Adaptation of the Physiological, Endocrine, and Digestive System Functions to Prolonged Food Deprivation in Fish** .......................... 69  
   Nadav Bar and Helene Volkoff

7. **Starvation in Subterranean Species Versus Surface-Dwelling Species: Crustaceans, Fish, and Salamanders** ................................. 91  
   Frédéric Hervant

8. **Physiological Responses to Starvation in Snakes: Low Energy Specialists** ........... 103  
   Marshall D. McCue, Harvey B. Lillywhite and Steven J. Beaupre

9 Cardiovascular Circuits and Digestive Function of Intermittent-Feeding Sauropsids
        .................................................. 133
        Rike Campen and Matthias Starck

10 Thermoregulatory Adaptations to Starvation in Birds
        .................................................. 155
        Esa Hohtola

11 Fasting in Birds: General Patterns and the Special Case of Endurance Flight
        .................................................. 171
        Susanne Jenni-Eiermann and Lukas Jenni

12 Tissue-Specific Mass Changes During Fasting: The Protein Turnover Hypothesis
        .................................................. 193
        Ulf Bauchinger and Scott R. McWilliams

13 Seasonal Changes in Body Mass and Energy Balance in Wild Small Mammals
        .................................................. 207
        Xueying Zhang, Xinyu Liu and Dehua Wang

14 Changes in Form and Function of the Gastrointestinal Tract During Starvation: From Pythons to Rats
        .................................................. 217
        Jehan-Hervé Lignot

15 Changes in Fatty Acid Composition During Starvation in Vertebrates: Mechanisms and Questions
        .................................................. 237
        Edwin R. Price and Teresa G. Valencak

16 Physiological Responses to Fasting in Bats
        .................................................. 257
        Miriam Ben-Hamo, Agustí Muñoz-Garcia and Berry Pinshow

17 Muscle Protein and Strength Retention by Bears During Winter Fasting and Starvation
        .................................................. 277
        Hank Harlow

18 Seasonal Starvation in Northern White-Tailed Deer
        .................................................. 297
        Duane E. Ullrey

19 Fasting Physiology of the Pinnipeds: The Challenges of Fasting While Maintaining High Energy Expenditure and Nutrient Delivery for Lactation
        .................................................. 309
        Cory D. Champagne, Daniel E. Crocker, Melinda A. Fowler and Dorian S. Houser
