1	Introduction	1
1.1	Definitions of Groundwater and Aquifer	1
1.2	History of Groundwater Development in Ethiopia	2
1.3	Groundwater Storage: General	5
1.4	Groundwater Occurrences in Ethiopia: General	7
1.5	Hydrostratigraphy: General	9
	References	12
2	Groundwaters Occurrence in Regions and Basins	15
2.1	The Broad (Oligo-Miocene) Volcanic Plateau and Associated Shields	15
2.2	The Shield Volcanics (Choke, Gugufu, Simen, Guna and Batu etc.)	22
2.3	The Lake Tana Basin	26
2.4	The Upper Tekeze River Basin and Associated Massifs	33
2.5	The Yerer Tulu Welel Volcanic Lineament Zone and the Wonchi Volcano	44
2.6	The Volcanic Aquifers Bounding Addis Ababa	47
2.7	Scoria Cones, Maars and Associated Groundwater Resources	55
2.8	The Alluvial Grabens Bordering the Rift	60
2.9	The Bulal Basalt Aquifer and Associated Aquifers	62
2.10	Groundwaters in the Main Ethiopian Rift and Flow Along Plateau-Rift Transects	65
2.11	The Mesozoic Sedimentary Aquifers of Ethiopia	73
2.12	The Karst Aquifers of Ethiopia	84
2.13	The Precambrian Basement Aquifers of Ethiopia	92
2.14	The Omo Delta and Chew Bahr Rift	113
	References	117

3 Very Shallow and Shallow Groundwaters 123

3.1 General 123

3.2 The Sediments of Shinile and Marginal Grabens
of Southern Afar 125

3.3 The Quaternary Volcanic and Alluvio Acustrine Sediments
of Lake Tana Basin 128

3.4 The Quaternary Sediments of Gambela
and Associated Wetlands 128

3.5 The Quaternary Alluvio Lacustrine Sediments
of Belesa Plain 131

3.6 The Dabus Swamp Area and Associated
Quaternary Sediments 131

3.7 The Lake Alemeya-Lake Adele Basin 132

3.8 The Foot Hills of Hagerselam Volcanic Hills in Tigray 134

3.9 Alluvial Aquifers in the Headwater Regions
of Didessa and Gibe 134

3.10 The Quaternary Sediments of Bonga Area 137

3.11 The Alluvio Lacustrine Sediments of Upper Bilate
and Boyo graben 138

3.12 Landslide Bodies 139

3.13 The Alluvio Lacustrine Sediments of the Western Afar
Marginal Grabens and the Afar Rift Floor 142

3.14 Alluvio Lacustrine Sediments of North Western Lowlands 148

3.15 Alluvial and Colluvial Plains of the Gofa Basin
and Range Complex 148

3.16 Wadi Bed Aquifers 150

3.17 Inter-Trappean Sediments 154

3.18 Tectonic Valleys with Limited Sediment Accumulation 156

3.19 Alluvial Fans 157

3.20 Other Alluvial Aquifers of Limited Extent 159

References 160

4 Geochemistry and Water Quality 163

4.1 Why Water Quality 163

4.2 Geochemical Characteristics of the Groundwaters 164

4.3 Geochemistry of Fluoride 165

4.4 The Geochemistry of Iodine 170

4.5 The Geochemistry of Selenium 172

4.6 Water Quality Groups of Ethiopian Aquifers—Origin
of Water Quality Parameters 173

4.7 Highly Mineralized Groundwaters in Ethiopia 182

Groundwater in Ethiopia

Features, Numbers and Opportunities

Kebede, S.

2013, XIV, 283 p. 116 illus., 96 illus. in color., Hardcover

ISBN: 978-3-642-30390-6
