Contents

Part I  Landslides and Reservoirs

Introduction by Alexander Strom and Fawu Wang

Rockslide Dams in Møre og Romsdal County, Norway .......................... 3
Reginald L. Hermanns, Halgeir Dahle, Per L. Bjerke, Giovanni B. Crosta,
Einar Anda, Lars H. Blikra, Aline Saintot, and Oddvar Longva

The Origin of the Mountain River Dams in Tajikistan ...................... 13
Nikolai Ischuk

Landsliding Caused by Water Level Variation in China Three
Gorges Reservoir ................................................................. 19
Fawu Wang, Yueping Yin, Zhitaoyu Huo, and Gonghui Wang

Earthquakes, Landslides, Dams and Reservoirs in the Tien Shan,
Central Asia ........................................................................... 27
Hans-Balder Havenith, Kanatbek Abdakhamatov, Isakbek Torgoev,
Anatoly Ischuk, Alexander Strom, Erik Bystrický, and Andrej Cipciar

Rock Slope Stability Assessment in the Fernando Hiriart
Arch Dam Reservoir ............................................................... 33
Erast Gaziev

Impact of 3000-t Blast on Unstable Slopes Near the Kambarata-2
HPP Site, Kyrgyzstan ................................................................. 37
Isakbek Torgoev, Hans-Balder Havenith, and Alexander Strom

Evolution of an Overflow Channel Across the Young River
Landslide Dam, New Zealand ..................................................... 43
Chris Massey, Mauri McSaveney, and Tim Davies

Displacement Calculations of the Waterside Slope After a Seismic Impact... 51
Vladimir Prokopovich and Tatyana Sozinova

Recent Cases and geomorphic Evidence of Landslide-Dammed
Lakes and Related Hazards in the Mountains of Central Asia ............ 57
Jean F. Schneider, Fabian E. Gruber, and Martin Mergili

Inverse Analysis of an Active Landslide Along the Banks of a Reservoir ... 65
Michele Calvello, Francesco Silvestri, and Dario Andreotti

Landslide Risk Investigations in Environmental Impact Assessment ........ 75
Nanda Wipula Bandara Balasooriya

A Preliminary Perspective on Landslide Dams of Campania Region, Italy ... 83
Pompeo Coico, Domenico Calcaterra, Tommaso De Pippo, and Domenico Guida
Influence of Landslide and Glacial Blockages on the Rogun HPP Safety
Vladimir Besstrashnov, Anatoliy Zhirkrevich, Alexander Strom, and Ekaterina Shilina

A Coupled Seepage-Stability Model to Analyze the Vajont Reservoir Influence
Paolo Paronuzzi, Elia Rigo, and Alberto Bolla

Glacial Lake Outburst Flood in the Chuchún Watershed, Cordillera Blanca, Peru
Jan Klimeš, Vít Vilímek, Miroslava Benešová, Petr Bouška, and Alejo Cochachin

A Geomechanical Evaluation of the Rock Mass Involved in the 1963 Vajont Landslide (NE Italy)
Laura Superchi, Luca Zorzi, Fabio Ferri, Rinaldo Genevois, and Maria Lafelice

The Impact of Deep-Seated Landslides on Reservoirs and Rivers in Vrancea Seismic Region
Micu Mihai and Bălteanu Dan

A New Interpretation of the Geotechnical Context of the Vajont Rockslide
Paolo Paronuzzi and Alberto Bolla

Impacts of the 2007 Landslide-Generated Tsunami in Chehalis Lake, Canada
Nicholas J. Roberts, Robin J. McKillop, Martin S. Lawrence, John F. Psutka, John J. Clague, Marc-André Brideau, and Brent C. Ward

Sliding Phenomena at Zagorsk PSP
Elina Nesynova, Alexander Yudkevich, and Igor Parabuchev

Pore Water Pressure Distribution for Use in Stability Analyses of Earth Dams
Augusto Desideri, Enzo Fontanella, and Luca Pagano

Engineering-Geological Estimation of Unstable Massif Downstream from the Chirkey Hydropower Station
D.K. Fedorov, N.F. Krivonogova, and O.Y. Somonova

Part II Landslide, Transportation Network and Lifelines
Introduction by Jordi Corominas, Gian Paolo Giani, and Tiziana Apuani

Landslide Transportation Network and Lifelines: Rockfall and Debris Flow
Anna Maria Ferrero and Maria Migliazza

Damages to Transport Facilities by Rainfall Induced Landslides During November 2009 in Nilgiris, India
S.S. Chandrasekaran, S. Elayaraja, and S. Renugadevi

Rockfall Run-Out Estimate Comparing Empirical and Trajectographic Approaches
Michele Nappi, Paolo Budetta, Gerardo Lombardi, and Crescenzo Minotta

Cutting D15: Stabilization of a Large Landslide in Marrakesh
Joan Torredadella, Carles López, Joan Altimir, Jordi Amigó, and Laura López
Determining and Managing Rockfall Risk in the Road Network of Andorra .................................................... 193
Joan Torrebadella, Joan Altimir, and Jordi Amigó

The Scascoli Case Study: Design and Safety Measures for a Landslide Area ............................................. 199
Gianfranco Marchi, Giorgio Giacchetti, Gianluca Benedetti, and Alberto Landuzzi

Laser Scanning Analysis and Landslide Risk Assessment on Transportation Network: The Lugnano in Teverina (Umbria Region, Italy), Landslide Case Study ............................................ 207
Giuseppe Delmonaco, Fabio Garbin, Maria Marsella, Claudio Margottini, Alberico Sonnessa, and Daniele Spizzichino

Landslide Inventory and Susceptibility Mapping for a Proposed Pipeline Route, Yukon Alaska Highway Corridor, Canada .................................................... 215
Andrée Blais-Stevens, Panya Lipovsky, Marian Kremer, Réjean Couture, and Amaris Page

Rockfall and Debris Flow Hazard Assessment of the Coastal Road of Gipuzkoa (Northern Spain) .................................................... 223
Jordi Corominas, Iñaki Ibarbia, Susana Luzuriaga, Jose A. Navarro, Ioseba Jugo, Carles Jurnet, and Marcel Hürlimann

Large-Scale Slope Instability Affecting SS63 Near the Cerreto Pass (Northern Apennines, Italy) ............................................ 231
Alessandro Corsini, Francesco Ronchetti, Eleonora Bertacchini, Francesco Bonacini, Paolo Calicetti, Alessandro Capra, Cristina Castagnetti, Elena Piantelli, Giuseppe Caputo, and Giovanni Truffelli

Fragility of Territory and Infrastructures Resulting from Rainstorms in Northern Tuscany (Italy) ............................................ 239
Giacomo D’Amato Avanzi, Yuri Galanti, Roberto Giannecchini, and Alberto Puccinelli

Forecasting Methods for Landslides Interacting with Infrastructures .................................................... 247
Francesca Bozzano, Ivan Cipriani, Salvatore Martino, Paolo Mazzanti, and Alberto Prestininzi

Preliminary Assessment of Rockfall Risk Mitigation in Access Infrastructures to Montserrat .................................................... 255
Joan Palau, Marc Janeras, Elisabet Prat, Judit Pons, Jordi Ripoll, Pere Martínez, and Josep Comellas

Seismic Analysis of the Gran Sasso Catastrophic Rockfall (Central Italy) .................................................... 263
Gianluca Bianchi-Fasani, Carlo Esposito, Luca Lenti, Salvatore Martino, Massimo Pecci, and Gabriele Scarascia-Mugnozza

The Cassas Landslide and Its Impacts on an International and Olympic Transportation Corridor: Studies, Monitoring, Solution and Crisis Plans .................................................... 269
Franco Oboni, Claudio Angelino, and Bartolomeo Visconti

Slope Instability Problems in the Jonica Highway Construction .................................................... 275
Giuseppe Scarpelli, David Segato, Evghenia Sakellariadi, Alessandro Vita, Paolo Ruggeri, and Viviene M.E. Fruzzetti
Part III Landslides and Urban Risk Reduction
Introduction by Domenico Calcaterra

Managing the Uncertainties of Natural Terrain Landslides and Extreme Rainfall in Hong Kong ................................. 285
K.K.S. Ho

Minimising Losses Due to Landslides ........................................ 303
Abd Rahman Pandi and Suhaimi Jamaludin

Landslide Prediction Based on Neural Network Modelling ............ 311
Yuri Aleshin and Isakbek Torgoev

Assessment of Actual Morphodynamic Activity of Landslide Slopes in Odessa ................................................................. 319
Olena Dragomyretska, Oleksandr Dragomyretskyi, and Mikhail Skipa

El Forn Landslide. An Example of Geological Risk Management in Large Sliding Inhabited Areas ................................. 323
Joan Torrebadella, Joan Altimir, and Ivan Villaró

The Case Study of Cancia (Dolomites, Italy), a Mountain Village Threatened by a Debris Flow .............................................. 329
Andrea M. Deganutti and Pia Tecca

Evaluation of the Rockfall Potential of Kastamonu Castle Using 3-D Analysis ................................................................. 335
Mutluhan Akin, Tamer Topal, and Muge K. Akin

The 2006 and 2009 Landslide and Flood Events in the Tartagal River Basin (Argentina) ..................................................... 341
José Daniel Brea, Pablo Spalletti, and Gabriel Amores

Mapping Geological at-Risk Areas in the City of São Paulo: Issues and Results from the Largest Risk Survey in Brazil .......... 349
Luciana Pascarelli, Rafaela Lançone, Rodrigo Costa, Luiz Pires, Eduardo Macedo, Fabricio Mirandola, Fabiana Checchinato, and Katia Canil

Landslide Hazard and Risk in the Dessie Town Area (Ethiopia) ....... 357
Giandomenico Fubelli, Domenico Guida, Antonello Cestari, and Francesco Dramis

Landslide Hazard Assessment Project in the Messina Municipality Area (Sicily, Italy) ......................................................... 363
Claudio Puglisi, Danilo Campolo, Luca Falconi, Gabriele Leoni, and Silvia Lumaca

New Technologies Employed in Studying, Monitoring and Stabilizing the San Fratello Landslide (Sicily, Italy) ......................... 369
Fabio Cafiso

January 2011: The Extreme Landslide Disaster in Brazil ................. 377

Japanese-Croatian Project: Preliminary Investigations of the Kostanjek Landslide ................................. 385
Martin Krkač, Snježana Mihalić, Pavle Ferić, Laszlo Podolszki, Aleksandar Toševski, and Željko Arbanas
Debris-Flow Risk Assessment and Land Management at Municipal Scale .............................................. 391
Davide Murgese, Dario Fontan, Marina Pirulli, Claudio Scavia, and Paolo Oria

Methodological Procedures to Landslide Risk Mapping in Brazilian Slums .............................................. 399
Eduardo Soares de Macedo, Kátia Canil, Fabiana Checchinato Silva, Fabrício Araujo Mirandola, Marcelo Fischer Gramani, Agostinho Tadashi Ogura, Alessandra Cristina Corsi, and Luciana Pascarelli Santos

Geotechnical Properties and Stability of a Landslide Site in South Eastern Nigeria ......................................... 405
Ogbonnaya Igwe, Hiroshi Fukuoka, and Anthony Diyokeugwu

Part IV Landslides and Cultural Heritage
Introduction by Paolo Canuti, Yoshinori Iwasaki, and Daniele Spizzichino

On the Protection of Cultural Heritages from Landslides ................. 415
Claudio Margottini

Assessment of Geomorphological Risks and Attractiveness for Recreational Purposes in Areas with High Contemporary Relief Dynamics ................................................................. 427
Iuliia Blinova and Andrey Bredikhin

Static and Pseudo Static Stability Analysis of the Medieval Castle Rock Slopes in Slovakia ........................................ 435
Vladimir Greif and Tomas Drotar

Rock-Fall Hazard Assessment in the Siq of Petra, Jordan ................. 441
Giuseppe Delmonaco, Claudio Margottini, and Daniele Spizzichino

Coastal Erosion and Landsliding Impact on Historic Sites in SE Britain .................................................. 451
Deodato Tapete, Edward Bromhead, Maia Ibsen, and Nicola Casagli

Geomorphological Processes and Cultural Heritage of Maca and Lari Villages: An Opportunity for Sustainable Tourism Development in the Colca Valley (Province of Caylloma, Arequipa, South Peru) ............................ 459
Luca Falconi, Gabriele Leoni, Pablo Meza Arestegui, Claudio Puglisi, and Simona Savini

Monitoring and Modelling Slope Instability in Cultural Heritage Sites .... 467
Riccardo Fanti, Giovanni Gigli, Deodato Tapete, Francesco Mugnai, and Nicola Casagli

Landslide Impacts on Agrigento’s Cathedral Imaged with Radar Interferometry .................................................. 475
Francesca Cigna, Vincenzo Liguori, Chiara Del Ventisette, and Nicola Casagli

Passive Seismic Survey for Cultural Heritage Landslide Risk Assessment .... 483
Daniele Spizzichino, Claudio Margottini, Silvia Castellaro, and Francesco Mulargia

Cultural Heritage, Landslide Risk and Remote Sensing in Italy ........ 491
Carla Iadanza, Carlo Cacace, Sara Del Conte, Daniele Spizzichino, Stefano Cespa, and Alessandro Trigila
Large Rock Slide and Falls in the Cradle of Christianity:  
Maaloula (Damascus, Syria) .................................................. 501  
Claudio Margottini

The Monsters Grove of Bomarzo (Central Italy): From Rock Fall  
to Landscape Architecture ........................................ 511  
Claudio Margottini

Surface Erosion and Mass Movement Constrains in the Conservation  
of Akapana Pyramid Mound (Tiwanku, Bolivia) ................. 521  
Claudio Margottini

San Leo: Centuries of Coexistence with Landslides .............. 529  
Gianluca Benedetti, Matteo Bernardi, Gilberto Bonaga, Lisa Borgatti,  
Francesca Continelli, Monica Ghirotti, Cristiano Guerra, Alberto Landuzzi,  
Claudio Corrado Lucente, and Gianfranco Marchi

Evolution of the Velabrum Valley and of the Palatine W Slope:  
Instabilities and Mitigation ........................................ 539  
Alberto Bretschneider, Gianluca Bianchi Fasani, Emiliano Di Luzio,  
and Marco Tavani

The Orvieto Observatory ................................................. 547  
Filippo Maria Soccodato, Luciano Tortoioli, Endro Martini,  
and Mario Angelo Mazzi

Integration of Geophysical Investigation to Landslide Analysis  
in the Archaeological Site of Stabiae (Italy) ......................... 561  
Giuseppe Delmonaco, Claudio Margottini, Luciana Orlando,  
and Daniele Spizzichino

Failure of Embankment of Moat of Angkor Wat and Its Restoration  
..................................................... 569  
Yoshinori Iwasaki and Valter M. Santoro

Part V Advanced Technologies for Landslide Stabilization  
Introduction by Paul Marinos and Paolo Tommasi

Subsurface Drainage for Slope Stabilization ....................... 577  
Gianfranco Urciuoli and Marianna Pirone

Research on the Mechanism and Mitigation for an Old Landslide  
Reactivated by Underground Coal Mining .......................... 587  
Yangqing Xu, Xichen Wu, and Xiangjun Zhong

Finite Element Modelling and Parametric Analyses of a Long-span  
Pocket-type Rockfall Interceptive Cable-Net Structure ........ 597  
Shanker Dhakal, Netra Prakash Bhandary, Ryuichi Yatabe,  
and Naoki Kinoshita

Effectiveness of Anti-sliding Piles for Wulidui Landslide Under Rainfall  
Condition ..................................................... 607  
Xinli Hu, Huiming Tang, and Chenguang Zhang

Methods of the Ulianovsk City Landslide-prone Slopes Stabilization  
........................................ 617  
V.G. Tishin
Effectiveness of Deep Drainage Wells as a Slope Stabilization Measure: The Reactivation of the Diezma Landslide (Southern Spain) .................................................. 623
Martín Jesús Rodríguez-Peces, José Miguel Azañón, Julián García-Mayordomo, Emilia Troncoso, Rosa María Mateos, and Meaza Tsige

Surface Protection of Slopes by Grass Covering Techniques ........................................... 631
Tiziana Verrascina

High Capacity Flexible Systems for Slope Stabilization in La Gomera (Spain) .................................................. 639
Luis Miguel Laguna, Jaime Perera, Raúl Chaminade, Adolfo Hoyos, Juan Carpio, and Javier Velasco

Low Environmental Impact Consolidation Works in the Rock Cliff of Civita di Bagnoregio (Central Italy) .......................................................... 647
Claudio Margottini

Soil Nailing with Flexible Structural Facing: Design and Experiences .......................... 655
Giorgio Giacchetti, Alberto Grimod, and David Cheer

Mario Marchisio, Orlando Pandolfi, and Daniele Valentino

The Large Acqualoreto (TR) Landslide: Stabilization Projects Through Integrated Use of Consolidates and Innovative Techniques .................................................. 667
Marco Balducci, Luciano Faralli, Luca Domenico Venanti, and Carlo Olivanti

Landfill Slip Failure Repair with Geogrids Using Waste Fill Material at Danylan, Wales .................................................. 675
Chaido Doulala-Rigby and Andrew Stone

The SafeLand Compendium of Landslide Risk Mitigation Measures ....................... 683
Giovanni Vaciago

Part VI Integrated Approach to Landslide Risk Mitigation
Introduction by Pasquale Versace and José Cepeda

Lessons Learned from the 2006 Flashfloods and Landslide in Uttaradit and Sukhothai Provinces: Implication for Effective Landslide Disaster Risk Management in Thailand .................................................. 693
Muhibuddin Usamah and NMSI Arambepola

Analysis of Risk Induced by Rockfall on Roads. Proposal of Management Procedure .................................................. 701
Claudia Mignelli, Daniele Peila, and Stefano Lo Russo

Engineering and Geological Grounds of Landslide Protection Reliability of Structures .................................................. 709
Ekaterina Bezuglova and Sergey Matsiy

Landslide Susceptibility in Archaeological and Natural Historic Park of Rupestrian Churches .................................................. 715
Stefania Pascale, Vittoria Pastore, Francesco Sdao, and Aurelia Sole

A GIS Model for Systemic Vulnerability Assessment in Urbanized Areas Supporting the Landslide Risk Management .................................................. 723
Raffaele Albano, Stefania Pascale, Francesco Sdao, and Aurelia Sole
