

Contents

Part I User Interface and Interaction

Towards an Affective Self-Service Agent	3
Christopher J. Martin, Jacqueline Archibald, Leslie Ball and Lloyd Carson	
Balancing Complex Page Modeling and Usability for Rich Internet Applications	13
Andrea Pandurino, Luca Mainetti, Davide Bolchini and Roberto Paiano	
Describing and Assessing Image Descriptions for Visually Impaired Web Users with IDAT	27
Julius T. Nganji, Mike Brayshaw and Brian Tompsett	
Image Search: A Story of One User Interface	39
Šárka Zehnalová, Zdeněk Horák and Miloš Kudělka	
Brain Computer Interface Enhancement by Independent Component Analysis	51
Pavel Bobrov, Alexander A. Frolov and Dušan Húsek	

Part II Knowledge Discovery I

Evaluating Hard and Soft Flat-Clustering Algorithms for Text Documents	63
Vivek Kumar Singh, Tanveer Jahan Siddiqui and Manoj Kumar Singh	
Enhancing System Usability with a Natural Language Interface	77
Erqiang Zhou and Bing Wu	

Building a Standard Amazigh Corpus	91
Siham Boulaknadel and Fadoua Ataa Allah	
Simple Stemming Rules for Arabic Language.	99
Hussein Soori, Jan Platoš and Václav Snášel	
 Part III Applications	
Fuzzy Logic Ranking for Personalized Geographic Information Retrieval	111
Garnett Wilson, Rodolphe Devillers and Orland Hoerber	
Virtually Cloning Real Human with Motion Style.	125
Manoj kumar Rajagopal, Patrick Horain and Catherine Pelachaud	
WordVis: JavaScript and Animation to Visualize the WordNet Relational Dictionary	137
Steven Vercruyse and Martin Kuiper	
A Reduce Identical Event Transmission Algorithm for Wireless Sensor Networks	147
Hong-Chi Shih, Shu-Chuan Chu, John Roddick, Jiun-Huie Ho, Bin-Yih Liao and Jeng-Shyang Pan	
Business Process Improvement Framework and Representational Support	155
Azeem Lodhi, Veit Köppen and Gunter Saake	
Automatic Localization and Boundary Detection of Retina in Images Using Basic Image Processing Filters	169
Omar S. Soliman, Jan Platoš, Aboul Ella Hassanien and Václav Snášel	
Integration of a Speech-Analyzer Agent in a Multi Agent System for Remote Healthcare Monitoring	183
Mohamed Achraf Dhoub, Lamine Bougueroua, Katarzyna Wegrzyn-Wolska and Stefan Todorov	
 Part IV Technological and Theoretical Background	
Communication Logic on Multi-Modal Logic S5n.	197
Takashi Matsuhisa	

Contents	xi
Handling Possibly Conflicting Preferences	207
Radim Nedbal	
Evaluation of Models for Semantic Information Filtering	221
Ivo Lašek and Peter Vojtáš	
GPU Based Parallelism for Self-Organizing Map	231
Petr Gajdoš and Jan Platoš	
Boolean Factor Analysis by Expectation-Maximization Method.	243
Alexander A. Frolov, Dušan Húsek and Pavel Yu. Polyakov	
Part V Knowledge Discovery II	
A Cognitive Interactive Framework for Multi-Document Summarizer	257
Anupam Srivastava, Divij Vaidya, Malay Singh, Pranjal Singh and U. S. Tiwary	
Breast Cancer Detection and Classification Using Support Vector Machines and Pulse Coupled Neural Network.	269
About Ella Hassanien, Nashwa El-Bendary, Miloš Kudělka and Václav Snášel	
Author Cooperation Based on Terms of Article Titles from DBLP . . .	281
Štěpán Minks, Jan Martinovič, Pavla Dráždilová and Kateřina Slaninová	
Local Community Detection and Visualization: Experiment Based on Student Data	291
Miloš Kudělka, Pavla Dráždilová, Eliška Ochodková, Kateřina Slaninová and Zdeněk Horák	
Index	305
