Evolutionary Trajectories of Patents and the Politics of Exclusion in Sub-Saharan Africa

I. Introduction
II. Origin of Patent Law and Historical Inequities
   A. Origin of Patent Law
   B. Historical Distortions and Patenting Inequities
   C. Paris Convention, 1883
III. Patents in Multilateral Global Relations
IV. Evolution of the Uruguay Round of Trade Negotiations
   A. Prelude to a Globalized Patent Framework
   B. Birth of the Uruguay Round of Negotiations
   C. Grounding TRIPS Negotiations on a Theory of Democratic Bargaining
V. Post-TRIPS Patent Paradigm
   A. TRIPS-Plus Agenda
VI. Domestic Implementation of TRIPS Obligations in SSA
   A. Technical Assistance by Developed Countries
   B. Technical Assistance by WIPO
VII. Conclusion

The ‘Myth’ of Patent Justifications: Triumph and Failure Dichotomy in the North and South

I. Introduction
II. Theoretical Justifications
   A. Natural Rights Theory
   B. Reward Theory
   C. Contract/Disclosure Theory
   D. Incentive Theory
   E. Prospect/Improvement Theory
   F. Race-to-Invent Theory
   G. Rent-Dissipation Theory
III. Patent Regulatory Dysfunctions
   A. Non Recognition of States’ (In)capacities
   B. Pharmaceutical Patent Monopoly
   C. Biopiracy
   D. Insufficient Disclosure/Utility
IV. Overcoming Patent Regulatory Dysfunctions in SSA .......................................................... 138
   A. Use of Product Differentiation Mechanisms and More ..................................................... 139
   B. Compulsory Licenses for Domestic Production ................................................................. 141
   C. Parallel Imports ................................................................................................................. 143
   D. Use of Ordre Public and Other Exceptions ....................................................................... 144
   E. Avoiding TRIPS-Plus Demands ......................................................................................... 146
   F. Disclosure of Use of Bio-Resources/Regional Collaborations ........................................... 148
   G. Availability of Patent Opposition Proceedings .................................................................... 149
   H. Use of Competition Law .................................................................................................... 151
   I. Lacuna in the Enforcement of Patent Rights ..................................................................... 152
V. Conclusions .......................................................................................................................... 154
Bibliography ............................................................................................................................. 155

Patent Regulatory and Institutional Mechanisms in Sub-Saharan Africa .................................. 161
I. Introduction ............................................................................................................................. 161
II. Sources of Patent Laws and Their Effects in SSA ................................................................ 163
III. The TRIPS Agreement Patent Standards ........................................................................... 166
   A. TRIPS-Based Patenting: Exclusions, Moratoriums and Exceptions ................................. 169
   B. Post-TRIPS Mitigation Measures ...................................................................................... 171
IV. A Primer on the Patent Regimes in SSA and the Need for Patent Reforms .......................... 174
   A. Patentability Criteria in SSA Countries .............................................................................. 174
   B. Reforming Patent Laws in SSA Countries .......................................................................... 181
V. Conclusions .......................................................................................................................... 194
